**Eddie Krumble Is the Clapper** Dito Montiel,2007-03-01 Meet Eddie Krumble. He's a relatively happy guy. Content-ish. Fresh to Los Angeles, Eddie and his friend Chris Plork land their first gig: clapping as paid audience members for infomercials and sitcoms so heinous that tourists won't even attend. Eddie spends long days clapping, laughing, and hissing — on cue, of course — and his life slowly begins to take shape as a relationship with Judy, a gas station attendant, begins to brew. Suddenly his life is turned on its head. In one of his nightly rants, Jay Leno scrutinizes the state of late night TV and ends up unveiling two stills of Eddie as audience members for two different infomercials. Eddie is singled out as clapper-for-hire, Eddie's career comes to a halt, and Leno turns his discovery into a segment on his show: Who is THE CLAPPER? takes the public by storm, and Eddie's face appears on TVs and billboards throughout the nation. A clever satire about fame, consumerism, and reality TV, Dito Montiel's Eddie Krumble is The Clapper is the first work of fiction from the acclaimed author of A Guide to Recognizing Your Saints.

**Movie Workers** Melanie Bell,2021-07-06 Winner of the Theatre Library Association's Richard Wall Memorial Award Special Jury Prize for an exemplary work in the field of recorded performance After the advent of sound, women in the British film industry formed an essential corps of below-the-line workers, laboring in positions from animation artist to negative cutter to costume designer. Melanie Bell maps the work of these women decade-by-decade, examining their far-ranging economic and creative contributions against the backdrop of the discrimination that constrained their careers. Her use of oral histories and trade union records presents a vivid counter-narrative to film history, one that focuses not only on women in a male-dominated business, but on the innumerable types of physical and emotional labor required to make a motion picture. Bell's feminist analysis looks at women's jobs in film at important historical junctures while situating the work in the context of changing expectations around women and gender roles. Illuminating and astute, Movie Workers is a first-of-its-kind examination of the unsung women whose invisible work brought British filmmaking to the screen.

**How to Shoot Video That Doesn't Suck** Steve Stockman,2011-06-02 Newly updated and revised, How to Shoot Video That Doesn't Suck is a quick and easy guide that will make your video better instantly—whether you read it cover to cover or just skim a few chapters. It's about the language of video and how to think like a director, regardless of equipment (amateurs think about the camera, pros think about communication). It's about the rules developed over a century of movie-making—which work just as well when shooting a two-year-old's birthday party on your phone. Written by Steve Stockman, the director of the award-winning feature Two Weeks, plus TV shows, music videos, and hundreds of commercials, How to Shoot Video That Doesn't Suck explains in 74 short, pithy, insightful chapters how to tell a story and entertain your audience. In other words, how to shoot video people will want to watch. Here's how to think in shots—how to move-point-shoot-stop-repeat, instead of planting yourself in one spot and pressing "Record" for five minutes. Why never to shoot until you see the whites of your subject's eyes. Why to "zoom" with your feet and not the lens. How to create intrigue on camera. The book covers the basics of video production: framing, lighting, sound (use an external mic), editing, special effects (turn them off!), and gives advice on shooting a variety of specific situations: sporting events, parties and family gatherings, graduations and performances. Plus, how to make instructional and promotional videos, how to make a music video, how to capture stunts, and much more. At the end of every chapter is a suggestion of how to immediately put what you've learned into practice, so the next time you're shooting you'll have begun to master the skill. Steve's website (stevestockman.com) provides video examples to illustrate different production ideas, techniques, and situations, and his latest thoughts on all things video.

**Playbuilding as Arts-Based Research** Joe Norris,Kevin Hobbs,Mirror Theatre,2024-04-29 The new edition of Playbuilding as Arts-Based Research details how playbuilding (creating an original performative work with a group) as a methodology has developed in qualitative research over the last 15 years. The second edition substantially updates the award-winning first edition by making connections to current research theories, providing complete scripts with URL links to videos, and including a new section with interviews with colleagues. Chapter 1 provides an in-depth discussion of the epistemological, ontological, axiological, aesthetic, and pedagogic stances that playbuilding takes, applying them to research in general. The value of a playful, trusting atmosphere; choices of style, casting, set, and location in representing the data; and pedagogical theories that guide participatory theatre are highlighted. Chapter 2 discusses how Mirror Theatre generates data, structures dramatic scenes, and conducts live and virtual participatory workshops. Chapter 3 is a thematized account of interviews with 23 colleagues who employ variations of playbuilding that show how playbuilding can be applied in a wide range of contemporary contexts and disciplines. Chapters 4 through 9 describe six projects that address topics of drinking choices and mental health issues on campus, person-centred care, homelessness, the transition to university, and co-op placements. They include both a theme and a style analyses and workshop ideas. Chapter 10, new to this edition, concludes with quantitative and qualitative data from audiences attesting to the efficacy of this approach. This is a fascinating resource for qualitative researchers, applied theatre practitioners, drama teachers, and those interested in social justice, who will appreciate how the book adeptly blends theory and practice, providing exemplars for their own projects.
