Nobody to Somebody Limaonen Imchen,2015-07-02 Where are you standing today? Are the people around you encouraging you? Are they motivating you to persevere and push towards your goal, or are they discouraging you through words and actions, trying to hold you back or make you believe you can't do it? Let us try to be people of positivity and start lifting one another up for our future and for the generations to come, rather than criticizing and discouraging one another. One word can make or break a person. We must be careful of what we say to people about their actions or dreams; try to encourage people to strive towards their goals. We never know, our

encouragement for someone else may be just the thing they need to hear at that time. The following few chapters are based on a few individuals that I have the privilege of knowing. These people are just normal people, just like you and I, but I wanted to share with you their stories. These people faced discouragement and struggles but never gave up on their visions. Let their testimonies be an example and encouragement for you; you are somebody and even you can go on to do great things.

Diet for a New America John Robbins,1998 From John Robbins, a new edition of the classic that awakened the conscience of a nation. Since the 1987 publication of *Diet for a New America*, beef consumption in the United States has fallen a remarkable 19%. While many forces are contributing to this dramatic shift in our habits, *Diet for a New America* is considered to be one of the most important. *Diet for a New America* is a startling examination of the food we currently buy and eat in the United States, and the astounding moral, economic, and emotional price we pay for it. In Section I, John Robbins takes an extraordinary look at our dependence on animals for food and the inhumane conditions under which these animals are raised. It becomes clear that the price we pay for our eating habits is measured in the suffering of animals, a suffering so extreme and needless that it disrupts our very place in the web of life. Section II challenges the belief that consuming meat is a requirement for health by pointing out the vastly increased rate of disease caused by pesticides, hormones, additives, and other chemicals now a routine part of our food production. The author shows us that the high health risk is unnecessary, and that the production, preparation, and consumption of food can once again be a healthy process. In Section III, Robbins looks at the global implications of a meat-based diet and concludes that the consumption of the resources necessary to produce meat is a major factor in our ecological crisis. *Diet for a New America* is the single most eloquent argument for a vegetarian lifestyle ever published. Eloquently, evocatively, and entertainingly written, it is a cant put down book guaranteed to amaze, infuriate, but ultimately educate and empower the reader. A pivotal book nominated for the Pulitzer Prize for Non-Fiction in 1987.
