Subsurface History of Humanity Victor Torvich, 2021-02-21 In *Subsurface History of Humanity: Direction of History*, Victor Torvich gives a sweeping overview of global humankind's history for the last 44 thousand years. The book will help you to make sense of human history. Victor Torvich found the objective direction of the history of humankind. How fast humankind is moving in the found direction? Is that move controllable by humans? Why humans rule the Earth? Which force is driving humanity's development? These are other questions Torvich answers in his wide-ranging book. Torvich looks at history from a viewpoint of a precise science. Insights from his scientific papers on the complex system of humanity helped him to find out where mankind is headed. The book concludes with a discussion of which circumstances could shortly lead us off the uncovered course.

Autonomy and Dependence in the Family Rita Liljestrom, 2003-09-02 What are the future prospects of the modern family? For a long time the common image in the West has been to see the nuclear family, consisting of two economically independent spouses and their children, as the natural outcome of the modernization process. As the hierarchies of patriarchal society vanish, a social order based on equal and autonomous individuals all set for self-realisation has been assumed. However, high rates of divorce, often reported domestic violence, teenagers left on their own at an early age, do not harmonize very well with this idealized image. Critical analysis of family order in two countries at the opposite edges of the European continent - Turkey and Sweden - approaches these problems and attempts to create a more realistic picture of family life in the modern world.

The Facts on File Dictionary of Computer Science Edmund Wright, 2014-05-14 Defines more than 2,400 terms and phrases related to computers, programming, data processing, and the Internet.

SAP Nation Deal Architect, Vinnie Mirchandani, 2014-12-05 From its humble beginnings in Germany, SAP skyrocketed to become a global powerhouse and the technology backbone for tens of thousands of enterprises. The economy around it grew even faster, and SAP Nation now approaches the GDP of Ireland in size. This book documents both trajectories, based on decades of research and interviews of hundreds of customers, market analysts and

competitors. SAP's influence has declined in the last decade, as enterprises invest in cloud, social, analytical and mobile technologies and in custom development of systems of advantage in their products, channels and business models. Yet, shockingly, customer spending in SAP Nation remains stubbornly high. The model in the book estimates post-recession investment at more than one trillion dollars (yes). This book brings out loudly the voice of SAP customers as they cope with this runaway economy. Twenty-five case studies showcase a spectrum of strategies - some are ring fencing SAP with Workday, others are switching maintenance to Rimini Street, yet others are in-sourcing, while still others are evaluating newer SAP products like HANA and acquisitions like Concur. Part root cause analysis and part strategy manual, this book is a must-read for anyone with interest in SAP - as customer, employee, partner, investor or competitor. It is a fast-paced look at decades of what SAP has done well, and what it could have done better. Executives everywhere, even those in non-SAP settings, will benefit from the strategies described in the book to migrate inefficient back-office IT dollars to front-office innovation.

The Internet Police: How Crime Went Online, and the Cops Followed Nate Anderson, 2013-08-19 Describes how authorities in Australia, Belgium, Ukraine, and the United States combined forces to respond to a child pornography ring as well as how other criminal sting operations have been policed and patrolled online.

Power and Accountability Robert A. G. Monks, Nell Minow, 1991 Corporations determine far more than any other institution, the air we breathe, the quality of water we drink, even where we live--yet they are not accountable to anyone. Authors Robert Monks and Nell Minow take up the cause of corporate accountability and shareholders rights in this controversial book that is sure to shake up America's corporate power elite.

Petunia Roger Duvoisin, 2015-03-10 For use in schools and libraries only. When Roger Duvoisin first introduced children to his proud and silly goose, Petunia, in 1950, it was love at first sight. Those children have grown up, but Petunia is every bit as fresh and funny and muddled as the day she was born. In this, the first of the series of classic books featuring the silly goose, Petunia finds a book--and, deciding that if she owns a book she must be wise, dispenses hilariously mistaken advice to the other animals in the farmyard. With its gentle lesson and the kind of humor that kids love best, this new edition of a picture book classic will delight and inspire a whole new generation of readers.

Little Bets Peter Sims, 2011-04-19 "An enthusiastic, example-rich argument for innovating in a particular way--by deliberately experimenting and taking small exploratory steps in novel directions. Light, bright, and packed with tidy anecdotes" (The Wall Street Journal). What do Apple CEO Steve Jobs, comedian Chris Rock, prize-winning architect Frank Gehry, and the story developers at Pixar films all have in common? Bestselling author Peter Sims found that rather than start with a big idea or plan a whole project in advance, they make a methodical series of little bets, learning critical information from lots of little failures and from small but significant wins. Reporting on a fascinating range of research, from the psychology of creative blocks to the influential field of design thinking, Sims offers engaging and illuminating accounts of breakthrough innovators at work, and a whole new way of thinking about how to navigate uncertain situations and unleash our untapped creative powers.

UFO FBI Connection Bruce Maccabee, 2000 This text details the existence of the real x-files - knowledge held by the FBI and the US Airforce on UFO sightings between the years 1947 and 1954, and withheld from the media and the public.

Strategic Management Peter L. Wright, Mark J. Kroll, John Parnell, 1998 Aiming to bridge the gap between theory and application, this work focuses on strategic management.

Strategy Implementation Kurt Verweire, 2014-04-24 Strategy implementation - or strategy execution - is a hot topic today. Managers spend significant resources on consulting and training, in the hope of creating brilliant strategies, but all too often brilliant strategies do not translate into brilliant performance. This book presents new conceptual models and tools that can be used to implement different strategies. The author analyses how market leaders have benefitted from successful strategy implementation and provides the reader with a comprehensive and systematic framework to tackle strategy implementation challenges. Have clear strategic choices been made? Are actions aligned with the strategy? What's the organizational context for the strategy? In answering these simple questions, the book provides students of strategic management, along with managers involved in designing and implementing strategies, with a valuable resource.

The Co-op Principle Werner Möller, Raquel Franklin, Tim Leik, 2015 Collective design principles from the second director of the Bauhaus Edition Bauhaus 48 Cooperatives, sharing communities, co-housing -- the collective is in high demand. At the end of the 1920s the Bauhaus took a keen interest in addressing questions surrounding the relationship between society and design, between individual and collaborative creation and production. The second Bauhaus director Hannes Meyer played a key role here radically orienting the school's teaching and workshops and its planning and architecture around the idea and needs of the collective. Meyer's concept of a collaborative design process was particularly revolutionary. This so-called co-op principle is now the subject of an exhibition at the Dessau Bauhaus running from 21 May to 4 October 2015.
