**Just Babies** Paul Bloom,2013-11-12 A leading cognitive scientist argues that a deep sense of good and evil is bred in the bone. From John Locke to Sigmund Freud, philosophers and psychologists have long believed that we begin life as blank moral slates. Many of us take for granted that babies are born selfish and that it is the role of society—and especially parents—to transform them from little sociopaths into civilized beings. In Just Babies, Paul Bloom argues that humans are in fact hardwired with a sense of morality. Drawing on groundbreaking research at Yale, Bloom demonstrates that, even before they can speak or walk, babies judge the goodness and badness of others' actions; feel empathy and compassion; act to soothe those in distress; and have a rudimentary sense of justice. Still, this innate morality is limited, sometimes tragically. We are naturally hostile to strangers, prone to parochialism and bigotry. Bringing together insights from psychology, behavioral economics, evolutionary biology, and philosophy, Bloom explores how we have come to surpass these limitations. Along the way, he examines the morality of chimpanzees, violent psychopaths, religious extremists, and Ivy League professors, and explores our often puzzling moral feelings about sex, politics, religion, and race. In his analysis of the morality of children and adults, Bloom rejects the fashionable view that our moral decisions are driven mainly by gut feelings and unconscious biases. Just as reason has driven our great scientific discoveries, he argues, it is reason and deliberation that makes possible our moral discoveries, such as the wrongness of slavery. Ultimately, it is through our imagination, our compassion, and our uniquely human capacity for rational thought that we can transcend the primitive sense of morality we were born with, becoming more than just babies. Paul Bloom has a gift for bringing abstract ideas to life, moving seamlessly from Darwin, Herodotus, and Adam Smith to The Princess Bride, Hannibal Lecter, and Louis C.K. Vivid, witty, and intellectually probing, Just Babies offers a radical new perspective on our moral lives.

**The Jazz Masters** Peter C. Zimmerman,2021-11-01 The Jazz Masters: Setting the Record Straight is a celebration of jazz and the men and women who created and transformed it. In the twenty-one conversations contained in this engaging and highly accessible book, we hear from the musicians themselves, in their own words, direct and unfiltered. Peter Zimmerman's interviewing technique is straightforward. He turns on a recording device, poses questions, and allows his subjects to improvise, similar to the way the musicians do at concerts and in recording sessions. Topics range from their early days, their struggles and victories, to the impact the music has had on their own lives. The interviews have been carefully edited for sense and clarity, without changing any of the musicians' actual words. Peter Zimmerman tirelessly sought virtuosi whose lives span the twentieth and twenty-first centuries. The reader is rewarded with an intimate look into the past century's extraordinary period of creative productivity. The oldest two interview subjects were born in 1920 and all are professional musicians who worked in jazz for at least five decades, with a few enjoying careers as long as seventy-five years. These voices reflect some seventeen hundred years of accumulated experience yielding a chronicle of incredible depth and scope. The focus on musicians who are now emeritus figures is deliberate. Some of them are now in their nineties; six have passed since 2012, when Zimmerman began researching The Jazz Masters. Five of them have already received the NEA's prestigious Jazz Masters award: Sonny Rollins, Clark Terry, Yusef Lateef, Jimmy Owens, and most recently, Dick Hyman. More undoubtedly will one day, and the balance are likewise of compelling interest. Artists such as David Amram, Charles Davis, Clifford Jordan, Valery Ponomarev, and Sandy Stewart, to name a few, open their hearts and memories and reveal who they are as people. This book is a labor of love celebrating the vibrant style of music that Dizzy Gillespie once described as "our native art form." Zimmerman's deeply knowledgeable, unabashed passion for jazz brings out the best in the musicians. Filled with personal recollections and detailed accounts of their careers and everyday lives, this highly readable, lively work succeeds in capturing their stories for present and future generations. An important addition to the literature of music, The Jazz Masters goes a long way toward "setting the record straight."

**Baby Settler** Hillary Herald Sadler,2021-05-06 Here's the truth. If you don't understand how feeding affects your baby's sleep, and how sleep affects your baby's feeding, you will find that you feel overwhelmed, frustrated, and lack confidence in your ability to know exactly what your baby needs. This is especially true for breastfeeding mothers. Almost every breastfeeding mom I've met asks themselves one of these questions... Is my baby getting enough? If I bottle feed, will my baby sleep longer? I want to breastfeed, but will my baby still sleep through the night if I do? Hear this: You can breastfeed and have your baby sleep through the night. Understanding how breastfeeding and schedules relate to each other is the key to getting your baby to extend her nighttime sleep. I'm Hillary, the mama behind *Baby Settler*. I'm also a Registered Nurse and an International Board Certified Lactation Consultant who has devoted my career to helping mothers and babies. As a mom of three, I know the sleep-feed struggle is real. There is an abundance of information at our fingertips thanks to the internet, but many times the advice given is conflicting and one-sided. This can lead parents to feel like they must be doing something wrong because their baby isn't following the book they've read or the recommended schedule they've found. After spending over 10,000 hours working with breastfeeding mothers, I've combined my professional experience, personal experience, and the current evidence-based research to explain the why behind my recommendations for getting your baby (and you) sleep. It's my mission to help parents feel confident knowing what their baby needs, be able to establish a daily routine, navigate feedings whether breast or bottle, and get quality uninterrupted sleep! When you don't understand the relationship between feeding and sleep, you might feel overwhelmed, frustrated, and even angry that your baby is in an endless cycle of ineffective feedings and interrupted sleep. And you might start to feel guilt or anxiety because you find you're not enjoying this season of life. It doesn't have to be this way. You can avoid [or break out of ] this cycle and feel confident knowing what your baby needs! This book will give you the tools you need to navigate feedings confidently, have a routine you can plan your day around, and have a baby that sleeps like a baby at night! You can thrive in this season! You've

got this!

Memories of a Depression Baby ... Just Kidding Around Sonja G. Farr,2011-11-15 Memories of a Depression Baby paints a vivid description of surviving as a kid growing up during the Great Depression. Times were hard, but kids always found a way to amuse themselves in spite of the hard reality of the times. There was very little money to spend on entertainment, so we devised our own methods of amusement. “There were no televisions, cell phones, video games, iPods, etc. Heck, we didn’t even have electric typewriters, but we thought we had it all. We just didn’t know any differently. Eventually, this generation put us on the moon and helped to invent many of the electronic wonders of today.”
