Welcome to PlanitDo! Melissa Fraser, 2014-03-21 Have you ever heard the phrase, “Bloom where you’re planted”? Forget about it! Plant yourself where you can bloom. Wealth creation is not as difficult as people make it. You have the power within you to become highly successful. God created each of us with unique gifts and talents. He expects us to use those gifts to make a living and to have an overflow for serving others. So where did it all go wrong? Why are so many people struggling today to just scrape by? Two words: reactive living. Reactive living is a risky behavior that leaves many grinding away at unfulfilling jobs and working for nothing more than to get to the weekend. That is not God’s plan for your life. This book walks you through the five areas of FOCUS that can drive you to a much faster wealth creation result. The FOCUS framework is a five-step system for using the gifts God gave you to create the abundant life he has planned for you. Packed with practical advice on how to build a balanced and aligned strategy to create wealth, author Melissa Fraser tackles this serious topic in an entertaining way, covering alligator wrestling, constipation of the brain, and the best news of all: no, you do not have to “eat that frog.” Complete with career path tools, business planning tools, and a free single-page life strategy template, this guide offers something for everyone, whether you are an employee, a business owner, or just getting started on your career.

*The Experience Maker* Dan Gingiss, 2021-06-01 Competition is tougher than ever these days and competing on price or product just doesn’t work as well anymore. So how can companies stand out in a crowded marketplace that is constantly evolving? The answer is customer experience, and the best part about customer experience is that it’s delivered by human beings which are unique to a company. Named a Top Business Book of 2021 by Forbes, The Experience Maker helps managers and executives focus on customers who are already spending money with their company rather than spending more money on marketing new customers. In The Experience Maker, Dan Gingiss teaches that creating a remarkable experience for customers will ensure they become a company’s best marketers and salespeople. By learning from the successes of other companies and applying the proprietary WISER method (Witty, Immersive, Shareable, Extraordinary, Responsive), managers and executives learn to create remarkable experiences that their customers will want to talk about with friends, family, and social media followers.

**Finding Tiegán** Hanna Park, 2021-08-23 A holiday in the Algarve of Portugal...sunshine...fun-shine. It's what I need. It's time to be me. Time to find the woman I was before the nightmares, outlandish dreams, and sleepwalking. But I wasn't expecting to find Tomás Ferreira, a man made for pleasure. And now, my heart throbs with unfulfilled excitement, fire burns in my belly, and swirling flames lick my thighs. I'm a glorious mess. Where did Tiegán Moss come from? And why is she suddenly here on the day of the dead, the day the door to the otherworld swings open, the day the veil is thin? I'd hidden in the shadows, content, a life barely lived. You've changed everything. You make me want. You make my blood sing. Lost in your kaleidoscope eyes, trapped in the pout of your lips, I can't escape. And I don't like it one bit. Can our two haunted souls find a future together?

**We Endured** Cynthia "Salonista" Kosciuczyk, 2023-06-30 "The Pandemic was a reminder that there's nothing more important than our health and the lives of our loved ones. With better choices and planning we will be more resilient in the future." —Richard Bailey Mayor of Coronado, California We Endured chronicles of how lives were changed by the arrival of Covid-19. With experience in research and interviewing people for media, I took a dive into the ways the pandemic affected us physically, emotionally, and spiritually. I have been writing for some time for a LinkedIn Site, Bizcatalyst360. My style is to observe my everyday life looking for connection to the world. Finding an idea that touched my soul, doing some research, and asking questions of those who would know more in a particular area. My first ones approached the concept of change. As I became more inspired due to being home in the first months of the

pandemic, I started writing weekly. I wrote and then turned it to a Facebook live show on a 24-hr. place called the Quarantine Network. The live chat with the audience resulted in more topics to discover. Because of my nomadic and gregarious life experiences, I would find friends and ask a few poignant questions. “The Quarantine Network was created by humans for humans. Instead of panicking or falling into bad habits, we decided to spend our days being connected to people. We created programs to keep our friends and strangers informed and occupied during dark times. When the light at the end of the tunnel arrived, we had an entire community that had been built.” —Beau Harvey Doiron Creator of the Quarantine Network This book is a testament to all of those in my greater circle who endured with me. I didn’t not want all their efforts and sacrifices to be forgotten. Come dive in with me, I am confident you will be surprised!

*Designed for Digital* Jeanne W. Ross,Cynthia M. Beath,Martin Mocker,2021-09-21 One of Forbes's Top Ten Technology Books of the Year How to redesign ‘big, old’ companies for digital success—featuring a survey of 300+ business leaders and 30+ global organizations, including Amazon, Uber, LEGO, Toyota North America, Philips, and USAA. Most established companies have deployed such digital technologies as the cloud, mobile apps, the internet of things, and artificial intelligence. But few established companies are designed for digital. This book offers an essential guide for retooling organizations for digital success through 5 key building blocks: • Shared Customer Insights • Operational Backbone • Digital Platform • Accountability Framework • External Developer Platform In the digital economy, rapid pace of change in technology capabilities and customer desires means that business strategy must be fluid. As a result, business design has become a critical management responsibility. Effective business design enables a company to quickly pivot in response to new competitive threats and opportunities. Most leaders today, however, rely on organizational structure to implement strategy, unaware that structure inhibits, rather than enables, agility. In companies that are designed for digital, people, processes, data, and technology are synchronized to identify and deliver innovative customer solutions—and redefine strategy. Digital design, not strategy, is what separates winners from losers in the digital economy. *Designed for Digital* offers practical advice on digital transformation, with examples that include Amazon, BNY Mellon, DBS Bank, LEGO, Philips, Schneider Electric, USAA, and many other global organizations. Drawing on 5 years of research and in-depth case studies, the book is an essential guide for companies that want to disrupt rather than be disrupted in the new digital landscape.

The Robot Who Knew Too Much Mark Young,2020-04-28 The fun continues at Franken-Sci High in this third book in a wacky series created with The Jim Henson Company. Franken-Sci High is the only school in the world for aspiring mad scientists and it's located on a craggy island in the Bermuda Triangle, of course! While some mad scientists are power-hungry maniacs, the school was founded in 1536 as a refuge for generations of brilliant—and sometimes eccentric—young minds. Students are encouraged to use their brainpower for good, but the teachers accept that some kids will want to take over the world...and the school cafeteria. When his robot friend, Theremin Rozika, aces a test that he was really nervous about, Newton Warp is surprised to see that his friend looks sad instead of happy. Theremin's father programmed him to never be smarter than his dear old dad: If Theremin begins to do well in one area of study, he immediately fails every other subject. So Newton and his friend Shelly Ravenholt attempt to reprogram Theremin, with disastrous results. Instead of making Theremin smarter, they accidentally make him speak in Pig Latin! They're forced to contact Theremin's father, Dr. Rozika, to repair their friend's code. Can they also convince him to give Theremin the freedom to succeed? TM & © 2020 The Jim Henson Company

**A Bright Clean Mind** Camille DeAngelis, 2019-10-15 Discover how your diet may affect your creativity, how going vegan is like giving yourself brain food, and how to incorporate veganism into your life. When author and certified vegan lifestyle coach Camille DeAngelis is asked how she feels satisfied on a vegan diet, she thinks of the moment in *James and the Giant Peach* when the Grasshopper and the Centipede fret that they have nothing to eat until James points out that they’re traveling inside an enormous piece of fruit. There is plenty, Camille reminds us in this self-help motivational book for artists and creatives. Everything we could ever want to eat, and more, is all around us. Because we live in a culture in which the eating and wearing of animals is taken for granted, we rarely recognize our limiting meat-centric mindset. But if we can employ our imagination to create worlds from scratch, we can surely use it to envision a new way of seeing ourselves in relation to the animals we eat. On the other side of this brain transformation is a lifestyle that is ideal for our own health and emotional well-being and is much more environmentally sustainable. Camille believes that creative hobbies and habits reinvigorate one’s primary work. But she knits, sews, embroiders, and bakes for the pleasure of it, too. Her productivity and brain power have been remarkable since going vegan seven years ago, and even more importantly, she no longer feels any of the frustration or uncertainty artists tend to accept as part of the creative process. If you’re a creative suffering from brain fog, *A Bright Clear Mind* can help. Praise for *A Bright Clear Mind* “If you are a maker or an artist who feels anxious, depressed or just plain not feeling up to par, I urge you to read this book. In the pages you will discover how to wake up your life force by embracing a more connected way of living and eating.” —Elise Marie Collins, author of *Super Ager: You Can Look Younger, Have More Energy, A Better Memory and Live a Long and Healthy Life* “DeAngelis roundly disproves the theory that plant-eaters are somber moralists . . . Getting to peer into the lives and creative processes of these vegan visionaries makes me want to write and dance and organize my cupboards and make a tofu frittata.” —Victoria Moran, author of *Creating a Charmed Life* and *Main Street Vegan*
