My Life as an Explorer (Classic Reprint) Roald

Amundsen, 2017-07-24 Excerpt from *My Life as an Explorer* More than that, I began at once to fit myself for this career. In Norway, in those days, there were no organized athletic

sports as there _are now every where. The only sports at all were football and skiing. Although I did not like football, I went in for it as part of the task of training my body to endure hardship. But to skiing I took with perfect naturalness and intense enthusiasm. At every opportunity of freedom from school, from November to April, I went out in the open, exploring the hills and mountains which rise in every direction around Oslo, increasing my skill in traversing ice and snow and hardening my muscles for the coming great adventure. In those days, houses were kept tightly closed in winter, so I was regarded as an innovator and some thing of a freak because I insisted on sleeping with my bedroom windows wide open, even in the bitterest weather. My mother anxiously expostulated with me about this practice. To her I explained that I liked fresh air, but of course it was really a part of my conscientious hardening process. Explorer's Wife Emma Wotton De Long, 2016-09-06
First published in 1938, *Explorer's Wife* is a heartfelt autobiography by Emma Wotton De Long, widow to arctic explorer George Washington De Long, lost to the disastrous Jeannette Expedition, 1879-1881. This endearing and detailed account recalls the lives of Emma and George

during their young courtship, the preparations of the Jeannette Expedition, through to its voyage and ultimate demise. Written from a woman's perspective, her story chronicles the departure and loss of her husband through letters exchanged between the two, along with documents and anecdotes from the time. The Jeannette Expedition was captained by George Washington De Long, a US naval officer, and set sail for the arctic in 1879. Along with many of his men, De Long perished when their expedition ran into problems in the Bering Sea. Of the 33 crew members that departed on the voyage, only 13 arrived safely back on US soil. In this compelling account, Emma Wotton De Long provides a refreshing perspective on the naval catastrophe from a widow's point of view. *Explorer's Wife* is an excellent read for any interested in tragic maritime history and those looking to learn more about the arctic explorations of the past.

An Explorer's Adventures in Tibet Arnold Henry Savage Landor, 1910

The Explorer's Eye Annabel Merullo, Fergus Fleming, 2009-03-12 The golden moments of exploration

and adventure - glorious, triumphant, perilous and dramatic. In the 18th century, exploration entered a new dimension - explorers were motivated by scientific inquiry rather than greed. To this end they were expected to make a full record of everything they encountered; and for the first time in history, that record was to include pictures as well as words. Combining gripping first-hand accounts with original images, THE EXPLORER'S EYE gives an insight into who these people were and what they saw. They were a mixed bunch but, whatever their training or background, they provided a vivid portrait of the unknown. In the early days they drew their own pictures, later they were equipped with draughtsmen, later still they carried cameras, and ultimately they were accompanied by film crews. The power of their images is matched by that of their journals. Here you have Alexander von Humboldt braving the electric eels of South America and Robert Peary explaining his relationships with Eskimos.

Pink Boots and a Machete Mireya Mayor,2011-03-01 A quick examination of her roots, and one may never have

guessed that Mireya Mayor would become the woman she is today. Yet, against all odds, this self-professed former girly girl daughter of overprotective Cuban immigrants blossomed from NFL cheerleader to Fulbright Scholar to field scientist and ultimately, quintessential adventurer. Now, with more than a decade's worth of thrilling exploits under her belt, Mayor recounts her life in a riveting, awe-inspiring new book. In a series of short chapters, she relives each exhilarating event with uncanny charm and self-deprecating humor. Readers have the rare opportunity to follow the renowned primatologist around the globe as she unlocks the mysteries of the natural world and endeavors to save some of the planet's rarest creatures. Says Mayor: I love the adventure, the exploration, the scientific discovery and the documentation. But really what drives me is the thought that future generations—my own children and their children—can one day learn to appreciate them like I do. Throughout this unforgettable volume, she describes in stunning detail how she survived a plane crash...slept in jungles teeming with poisonous snakes...dove with hungry great white sharks...rappelled down a 14,000-foot sinkhole in search of frogs...draws blood from critically endangered lemurs...was charged by an angry silver-backed gorilla...was chased by elephants...and the list goes. Suffice it to say, Mireya Mayor has seen more in her 30-odd years than most of us will see in a lifetime. Her plucky spirit, brilliance in the face of calamity, and sheer will to succeed make this a classic mission book, and a thoroughly breathtaking read.

Weavers Deborah Jarchow and Gwen W. Steege take inspiration from the world of folk weaving traditions, adding a contemporary spin by introducing an unexpected range of materials and home dec projects.
