Brian Portnoy, Joshua Brown

From Monk to Money Manager Doug Lynam, 2019-03-26 Build a better financial future for yourself and the world. Former monk turned financial advisor, Doug Lynam, shares the rules of money management that will change your approach to earning, saving, and investing. *From Monk to Money Manager* is an entertaining and self-deprecating journey through Lynam's relationship with the almighty dollar—his childhood in a rich family, the long-haired hippie days running away from materialism, time in the Marine Corps looking for selfless service, and his twenty years in the monastery under a vow of poverty that led to his current profession as a financial advisor. In this unique look at wealth from a spiritual perspective, Lynam shares his belief that God doesn't expect us to live in poverty. The truth is, we need financial peace so we can help others. When money becomes a part of our spiritual practice, used in love and service, it can bring us closer to our highest spiritual ideals. With humor and humility, Lynam uses stories told through the lens of his own money mistakes, and those of counseling clients, to understand how our attitudes about money hold us back. He also provides clear, step-by-step guidance on how to grow a little bit wealthy. His insights include how to build a compassionate relationship to our finances; some of the good, bad, and ugly truths about money; and the tricks to unlocking financial freedom.

How to be a Smart Money Manager, Without Being a Wall Street Wizard Ethan Pope, 1995 This book gives general insight into the area of personal financial planning while simplifying and clarifying financial issues from both a biblical and practical perspective.

Make Money, Not Excuses Jean Chatzky, 2008-03-11 Get Rich, Don't Bitch "I don't have time to deal with my money." "Managing money and investing is too intimidating." "I'm not a numbers person." "My husband takes care of our finances." "I'm just not good with money." Jean Chatzky has heard all the excuses for why women don't deal with their finances. She used to make them herself. For the first time, Jean tells you how she made every financial mistake in the book—not paying her bills, going into credit card debt, letting her 401(k) lapse—before finally making the decision to take control of her money and her future. Whether you've made these mistakes or you want to avoid them, if you're ready to take charge of your financial life then this is the book for you. In it, Jean shares these valuable lessons: • Where to start • How to decode financial jargon (it's easier than you think) • How to get over your "I'm not smart enough to deal with money" feelings • Why being a "good-enough investor" will make you more money in the long-term (while trying to be a "great investor" will drive you crazy) • Why you might think you are bad

at math, and why that doesn't have to be true • How (and where) to save your money • Why women make better investors—and higher returns—than men Jean is famous for her ability to explain money and investing. In a clear and accessible way, she breaks down all the scariest parts of dealing with money—from investing in stocks to saving for your retirement—to make them doable, easy, and yes, even enjoyable. She also includes throughout a “Map to a Million,” great tips on easy and quick financial changes you can make immediately . . . that really add up! Are You Ready to Be Rich? If you want to get rich, if you want to be wealthier than you are today, you really need to do only four things. That's right, just four things. • You need to make a decent living • You need to spend less than you make • You need to invest the money you don't spend so that it can work as hard for you as you're working for yourself • And you need to protect yourself and this financial world you've built so that a disaster—big or small—doesn't take it all away from you Everything else is just window-dressing. The fees—and how to avoid them. The advisors—and how to hire them. The deals. The scams. The ins. The outs. They are all interesting. Some of them are even quite important. But until you have conquered the heart of the matter, they are all minutia. The four cornerstones, by contrast, are the meat and potatoes of your financial life. If you do those things today, you'll start getting rich tomorrow. And once you feel set financially, you'll be able to start focusing on the truly important things in life. —from the Introduction

He talks about his own financial blunders, how he hates his boss, how his wife and kids spend all their money recklessly,

and how far in debt he actually is. Not only will you get a good laugh, but you may pick up on some personal finance tips of your own in the process.

How I Invest My Money Brian Portnoy, Joshua

Brown, 2020-11-17 The world of investing normally sees experts telling us the 'right' way to manage our money. How often do these experts pull back the curtain and tell us how they invest their own money? Never. How I Invest My Money changes that. In this unprecedented collection, 25 financial experts share how they navigate markets with their own capital. In this honest rendering of how they invest, save, spend, give, and borrow, this group of portfolio managers, financial advisors, venture capitalists and other experts detail the 'how' and the 'why' of their investments. They share stories about their childhood, their families, the struggles they face and the aspirations they hold. Sometimes raw, always revealing, these stories detail the indelible relationship between our money and our values. Taken as a whole, these essays powerfully demonstrate that there is no single 'right' way to save, spend, and invest. We see a

kaleidoscope of perspectives on stocks, bonds, real assets, funds, charity, and other means of achieving the life one desires. With engaging illustrations throughout by Carl Richards, *How I Invest My Money* inspires readers to think creatively about their financial decisions and how money figures in the broader quest for a contented life. With contributions from: Morgan Housel, Christine Benz, Brian Portnoy, Joshua Brown, Bob Seawright, Carolyn McClanahan, Tyrone Ross, Dasarte Yarnway, Nina O'Neal, Debbie Freeman, Shirl Penney, Ted Seides, Ashby Daniels, Blair duQuesnay, Leighann Miko, Perth Tolle, Josh Rogers, Jenny Harrington, Mike Underhill, Dan Egan, Howard Lindzon, Ryan Krueger, Lazetta Rainey Braxton, Rita Cheng, Alex Chalekian

Making Friends with Money Ms Sanni Kruger, 2011-09-01
Sanni Kruger was once so short of money that all she could afford to eat was baked beans and potatoes. Now an accountant, she has published a book designed to help people who don't have enough cash - or simply think they don't - to live more fulfilled lives by changing their attitude to money. Sanni learned about money management as a young girl by helping out at her father's accountancy practice in her home city of Hamburg, Germany. Now living and working in Bristol, she owns and runs Holistic Money Manager, a financial coaching service for people who need help managing their money. She wrote *Making Friends With Money*, subtitled *How to start feeling wealthy without waiting till you're rich*, after realising how many people allow money problems to dominate their lives. Her work has taught her that there is very little correlation between how much people have and how happy they are. It's all about your relationship with the money in your life she says. My book invites you to define your real goals and then shows you how to make your money help you to achieve them, however much or little you have. There is plenty of help and advice available for those who have lots of money and for those who are genuinely poor. But there is very little for the

many who are somewhere in between. The book's first lesson is how to get out of debt - and stay out of it. So many of us allow debt to get out of control by trying to pretend it will go away says Sanni. It becomes the ogre under the bed, the nagging voice that wakes us in the middle of the night. It's far better to take control. With proper planning you can work out a budget that enables you to keep your creditors off your back while leaving enough for the quality of life you want. Once you are out of debt, you will find that money comes to you in ways you hadn't imagined.
