Gallipoli - The Final Bullet Richard Page,2015-03-06 Richard Page makes the argument in Gallipoli - The Final Bullet that treachery and not Government blunder and bungle were responsible for the disaster of the 1915 Gallipoli campaign.In this novel, beginning in the dying years of the 19th century and ending in the middle of the First World War, George Deighton tells his story through his diaries - which fall into the hands of David Peterson, his childhood friend, following George's death.Deighton - charismatic, good-looking, and perhaps even slightly flashy and subject to moods - visits Constantinople, where he is picked up and seduced by a young Turk named Mustafa. As Deighton rises rapidly through the political ranks to the position of Junior Minister to Lord Grey, the British Foreign Secretary, Mustafa arrives in London to blackmail Deighton in a relationship that becomes a combination of fear, exposure, love, and sadism.Meanwhile David Peterson, wounded while serving in the British Army in Gallipoli, finds romance blossoming with Hanna - Deighton's sister.On Peterson's return to England, the two men's stories overlap when Peterson discovers that Deighton's treachery had cost the lives of his friends and thousands of others on the beaches of Gallipoli.Deighton's brief homosexual affair in Turkey sows the seed that grows into a web of treason, passion, and betrayal - culminating in the slaughter of British and ANZAC troops at Gallipoli. His best friend David Peterson is faced with a choice -of exposing him or losing the love of his life.

Outside the Box Maria Meindl,2011 When poet and broadcaster Mona Gould died in 1999, she left behind thirty-eight boxes of papers. Her war poem, This Was My Brother, was still a staple of textbooks and anthologies, yet Mona – well known in her youth – had fallen into obscurity in the 1960s. Born at the very time Mona's career was faltering, Maria Meindl became a captive audience for her grandmother's extravagant stories of the past. Years later, Maria took on the daunting task of sorting through Mona's mountain of papers to create an archive For The University of Toronto's Fisher Rare Book Library. The chaotic state of the boxes reflected Mona's flamboyant and demanding personality, yet they also drew an important picture of the life of a Canadian freelancer in the twentieth century. Mona had begun publishing poetry and features in newspapers in the 1920s and published three books of poetry in the 1940s. In the 1950s, at a time when many women were retreating from the public sphere, she had a successful radio career. Her later journals and letters recount, In agonizing detail, a downward spiral into self-doubt, poverty, and addiction. Maria soon discovered that the truth of Mona's life was even more fascinating than her stories.Outside the Boxbrings to life a thinly documented era in Canadian letters through the story of one passionate and conflicted woman. it also charts the journey of an unwilling archivist, coming to terms with family secrets, forgotten history, And The stories that are never told.

The Rainbow Troops Andrea Hirata,2013-02-05 Published in Indonesia in 2005, The Rainbow Troops, Andrea Hirata's closely autobiographical debut novel, sold more than five million copies, shattering records. Now it promises to captivate audiences around the globe. Ikal is a student at the poorest village school on the Indonesian island of Belitung, where graduating from sixth grade is considered a remarkable achievement. His school is under constant threat of closure. In fact, Ikal and his friends—a group nicknamed the Rainbow Troops—face threats from every angle: skeptical government officials, greedy corporations hardly distinguishable from the colonialism they've replaced, deepening poverty and crumbling infrastructure, and their own low self-confidence. But the students also have hope, which comes in the form of two extraordinary teachers, and Ikal's education in and out of the classroom is an uplifting one. We root for him and his friends as they defy the island's powerful tin mine officials. We meet his first love, the unseen girl who sells chalk from behind a shop screen, whose pretty hands capture Ikal's heart. We cheer for Lintang, the class's barefoot math genius, as he bests the students of the mining corporation's school in an academic challenge. Above all, we gain an intimate

acquaintance with the customs and people of the world's largest Muslim society. This is classic storytelling in the spirit of Khaled Hosseini's *The Kite Runner*: an engrossing depiction of a milieu we have never encountered before, bursting with charm and verve.

In the realm of desktop database management, Access is top dog with millions of users. But this is one dog that can bite. You could grab those other books for help, but do they solve problems from page one? Meet a book of a different stripe. The authors come armed with knowledge of the program's quirks, design hurdles and interface snags. They provide you with battle plans in *Fixing Access Annoyances* to save you time and bouts of hair pulling. STORAGE BOX OF TRADITION JACKNIS IRA, 2002-04-17 This unique study investigates the effects of the long interaction between anthropologists and the Kwakwaka'wakw (or Kwakiutl) peoples of coastal British Columbia. Beginning with Franz Boas, anthropologists have written extensively about the rich material culture of the Kwakwaka'wakw and have long collected their intricately detailed storage boxes, totem poles, and elaborate ceremonial wear. But how did the relationship between these two groups contribute to transform both ordinary and ritual objects into ethnological specimens, and then to works of art proudly displayed in museums? This expansive book is an anthropology of anthropology. Ira Jacknis identifies not only the effects of cross-cultural exchanges but also examines anthropology itself as a cultural process. He considers as well how museums define and present Native art and how their choices in turn influence current Native artists. The book offers a valuable collection of 131 halftones, ranging from nineteenth-century ethnographic photographs to catalog images from the American Museum of Natural History to documentary photographs taken by Jacknis in the 1980s. Together with Jacknis's close account of this classic chapter in anthropological history, they vividly show how the anthropological encounter is in fact an extraordinarily complex and fluid relationship.

Suspected Hippy Frances Griffiths, 2018-07-05 Barely nineteen years old with her head full of dreams and heart full of hope, author Frances Griffiths journeyed overland from Australia to India on her own, in 1974. Without the necessities of today (like mobile phones and credit cards), she travelled on a very tight budget or on a wire. What became known as the Hippy Trail- a route winding through Bali and Southeast Asia, to India and Nepal - was forged by young adventurers like herself, from Australia, Europe, and North America. Griffiths offers a rare glimpse into a time when travel to these exotic places was difficult and dangerous. To finance her trip Griffiths worked on a prawn trawler in the Gulf of Carpentaria in Australia, an exciting adventure in itself, but this was only just the beginning. She was arrested in Malaysia as a Suspected Hippy and thrown in jail. Later she finds herself broke in Bangkok, and has to survive there by working in a mens club. But there are lighter moments sailing on an Indonesian turtle boat, and trekking in the Himalayas. Griffiths experienced love and loss in the most profound way in this page turning adventure. *Suspected Hippy* tells the story of a woman's search to find her courage and identity, using only a belief in her own destiny and what lessons it had in store for her.
