22nd European Conference on e-Learning Shawren Singh, Sarah Jane Johnston, 2023-10-26

These proceedings represent the work of contributors to the 22nd European Conference on e-Learning (ECEL 2023), hosted by University of South Africa, Pretoria, South Africa on 26-27 October 2023. The Conference Co-Chairs Associate Professor Sarah Jane Johnston and Associate Professor Shawren Singh both from University of South Africa, Pretoria, South Africa. ECEL is now a well-established event on the academic research calendar and now in its 22nd year the key aim remains the opportunity for participants to share ideas and meet the people who hold them. The scope of papers will ensure an interesting two days. The subjects covered illustrate the wide range of topics that fall into this important and ever-growing area of research. It is especially relevant that the conference is being hosted by UNISA this year as the university celebrates its 150th anniversary. UNISA has been a pioneer in first distance and now e-Learning. The conference will also host the final round of the 9th e-Learning Excellence Awards where innovative case histories will be presented. The opening keynote

presentation is given by Professor Thenjiwe Meyiwa, Vice Principal for the Research, Postgraduate Studies, Innovation and Commercialisation at University of South Africa who will speak on, “The Role of African Feminisms in Shaping a Sustainable Future of Being and Learning”. An afternoon keynote on Thursday will be made by Dr Zolile Martin Mguda, University of South Africa on the topic of “ChatGPT: The first year”. The second day of the conference will open with an address by Dr Isabel Tarling, MD, Limina, South Africa with the title “Developing Digital Standards for Learning and Teaching in South Africa’s Schools”. With an initial submission of 100 abstracts, after the double blind, peer review process there are 45 Academic research papers, 3 PhD research papers and 1 Masters Research paper published in these Conference Proceedings. These papers represent research from Belgium, Canada, Chile, Czech Republic, France, Germany, Ghana, Greece, Hong Kong, Ireland, Japan, Malaysia, Mozambique, Norway, Oman, Perú, Poland, Portugal, Romania, Singapore, South Africa, Sri Lanka, Sweden, Switzerland, Turkey and the United Kingdom.

Mobile Tech Report 2016 John R. Roberts,2016-02-01 If you read technology news, you'll notice it's not just a story of amazing new product introductions, or even that plus copycat product introductions. All the usual aspects of business are there: fierce competition, new contenders, old survivors, great ideas but business failures, mediocre ideas that somehow seem to succeed and prosper. As a reporter, commentator and blogger on mobile technology, I've collected what happened in the industry in 2015 and make predictions on what will and won't happen in 2016. You can read what did happen in the mobile technology in 2015. Often I deliver a comment with the news item and usually there is a link to the web page of the original announcement. This way you can dive into any

detail level you desire, read my news feed for the overview or follow the related web link to the longer article. History is moving so fast now that it is all recorded electronically, but I'm surprised no one else has collected it and presented it for consideration. Here is 2015 from the mobile technology industry for your consideration along with my own observations and opinions about where things are headed. It's often overlooked that the technology industry is an industry. By that I mean its main concerns are profit and growth. As consumers we love the new products and unique abilities we are gaining from technology, but it is a business akin to any other, trying to seduce us to pry money out of our wallets. So I cover the horse race aspect of the business, who's up, who's down. Is that changing? Is that likely to change? The longer implications of what the technology industry is doing are vast and social. We are moving to an always on, always connected society where we can communicate with someone instantly and find an answer to any question quickly. The entire database of human knowledge is now available in the palm of your hand whenever you desire it. Everything is there, the good, the bad, right and wrong, hate and love, music and noise. We are obsessed with technology, not in and of itself, but

as a means to an end. Technology is the means to satisfy our curiosity or even our desire for self-expression. We are taking photos machine gun-style with our smartphones and choose the few to share. As humans we are gathering ever more data about ourselves and sharing more about ourselves than we probably thought possible. Bill Gates was once asked why the computer industry had generated so much improvement in its products over a relatively few years. He gave some boring answer about Moore's Law, but the real answer is that computers are in their teenage years. They are growing and growing. They will not always do so. So too the technology industry is in a state of rapid change. I see the shift to smaller devices as a new paradigm, smashing some businesses and growing others into giants. Their stories are here in the news. In short here are predictions for what won't and will happen in 2016 for the mobile technology industry, breakdowns of marketshare figures on the horse race aspect of the business, chapters on Apple, Samsung, Google, Microsoft, Nokia, Blackberry, Amazon, Yahoo, news about social media giants Facebook, Twitter, Google+, LinkedIn, Foursquare, SnapChat and the carriers themselves Verizon, AT&T, Sprint and T-Mobile. You can also review my

2015 mobile predictions and see my track record on predictions. Finally there are some essays on how all this mobile tech is figuring into our lives. I've divided the news into the subjects it covers, but also put in the appendix all the news as it came out in chronological ordering. You can read the firehose of events in the appendix, or just read about one topic at a time in the earlier chapters.

New Media in the Margins Benjamin YH Loh, James Chin, 2023-02-13 This book consists of nine chapters, each an in-depth case study into a specific non-mainstream or marginalized online community in Malaysia. The authors come from diverse backgrounds to talk about how new media can both assist and hinder maligned minorities, ignored ethnicities or the often attacked migrants in their

day to day lives. The book makes a strong contribution to Malaysian studies which highlights the other and represents minority viewpoints to challenge the belief that Malaysia's online space is monolithic and limited to several mainstream discourses in Malaysian scholarship.

Unbelievable Magic & Miracle of the Henderson's Family Life A. Henderson, 2012-08 Well I need who ever getting ready to read my book to listen to me real good right now, before you read my book, because I need you to sat down and take a deep breath of air and prepare yourself before you read all these unbelievable true Stories about what happen to me in my life here on earth. Because I know for myself before you get through reading my book you are going to take ten more deep breaths of air before you get through reading my book. Because my stream of Visions and Insights looking back into the past to see what happen and looking into the future to see what were going to happen in the future. Well all of these things happen to me and all the unbelievable things happen to me, that you are going to be reading about, well all of those Stories are really true. Also all those true Stories run together with each other but on separate days. So I wrote all my Visions and Insights down essentially

as they occurred to me, so all of my true Stories would be accountable for, and specially the unbelievable true Stories that happen to me here on earth, and I know all those unbelievable things that happen to me will be hard for you to believe, but all of those Stories throughout my book that you or reading is the true and happen to me. See as a writer, I would normally remove such repetition, but this time I kept those Visions and Insights in my Stories of what happen to me, and I know some of those things that happen to me may seem unbelievable to you, but all of those unbelievable true Stories really happen to me. Because this is the truth as I saw it happening to me and I wrote them down as they was happening to me, because I have special Gifts and Psychic Powers to look back in the past to see what had happen in the past and look into the future to see what were going to happen in the future. Because God gave me special Gifts and Psychic Powers to look back into the past to see what had happen, and to look into the future to see what were going to happen I the future, and what you are going to read right now the truth as I saw it. So what you need to do right now is just keep on reading about all the bad and wonderful unbelievable things that happen to me in

my true Stories and I hope that you enjoy every moment of it.

Attention Hijacked Erica B. Marcus, 2022-05-03 Technology surrounds us every day: a phone alarm wakes us up, an electronic calendar tracks assignment deadlines, GPS directs us to the new dentist's office, social media keeps us connected to friends and family, and streaming platforms make sure we're never without something new to binge-watch. Our devices and apps can make life much more convenient and entertaining. But for years, scientists have warned that too much screen time may have negative effects on our health. With portable devices and remote learning, it is even more difficult to put down electronics. Being intentional about how and when to unplug can help teens and young adults to protect their physical and mental wellbeing in a world where screens and technology are increasingly becoming necessities rather than just conveniences. **Attention Hijacked** offers a roadmap for those deciding how they want to deal with technology, exploring the ways technology affects the individual, dispelling common misinformation, and using this knowledge to make personalized decisions. Page Plus links in the book lead to mindfulness and meditation audio clips.

Using mindfulness techniques, this book gives readers the power to take charge of their technology use.

Leveling the Playing Field Rod Scher, 2016-08-01 *Leveling the Playing Field* explores the technologies that “trickle down” to the rest of us, those that were once the domain of the wealthy and powerful--and which therefore tended to make them even more wealthy and powerful. Now, though, these technologies--from books to computers to 3D printing and beyond--have become part of a common toolkit, one accessible to almost anyone, or at least to many more than had heretofore had access. This is what happens with most technologies: They begin in the hands of the few, and they end up in the hands of the many. Along the way, they sometimes transform the world.

Misinformation Policy in Sub-Saharan Africa Peter Cunliffe-Jones, Assane Diagne, Alan Finlay, Sahite Gaye, Wallace Gichunge, Chido Onumah, Cornia Pretorius, Anya Schiffrin, 2021-06-01 *Misinformation Policy in Sub-Saharan Africa* is a single volume containing two research reports by eight authors examining policy towards misinformation in Sub-Saharan Africa. The volume first

examines the teaching of ‘media literacy’ in state-run schools in seven Sub-Saharan African countries as of mid-2020, as relates to misinformation. It explains the limited elements of media and information literacy (MIL) that are included in the curricula in the seven countries studied and the elements of media literacy related to misinformation taught in schools in one province of South Africa since January 2020. The authors propose six fields of knowledge and skills specific to misinformation that are required in order to reduce students’ susceptibility to false and misleading claims. Identifying obstacles to the introduction and effective teaching of misinformation literacy, the authors make five recommendations for the promotion of misinformation literacy in schools, to reduce the harm misinformation causes. The second report in the volume examines changes made to laws and regulations related to ‘false information’ in eleven countries across Sub-Saharan Africa 2016-2020 from Ethiopia to South Africa. By examining the terms of such laws against what is known of misinformation types, drivers and effects, it assesses the likely effects of punitive policies and those of more positive approaches that provide accountability in political debate by promoting access to

accurate information and corrective speech. In contrast to the effects described for most recent regulations relating to misinformation, the report identifies ways in which legal and regulatory frameworks can be used to promote a healthier information environment.

Corporate Social Responsibility in the Health Sector Samuel O. Idowu, Mary T. Idowu, Abigail O. Idowu, 2023-02-28 The pandemic that struck in late 2019 - the coronavirus, commonly referred to as COVID-19 - affected every country in the world. This book examines how the pandemic has impacted healthcare institutions worldwide, and focuses on the international experience of COVID-19 in terms of healthcare delivery since 2019 and today. It highlights how healthcare facilities around the world have managed and continue to manage their obligations to their citizens. The book's goal is to improve our understanding of the many negative and positive impacts of the pandemic on various aspects of our lives, including the health aspect, and how healthcare institutions could expand their ability to manage similar pandemics in the future without seriously compromising their ability to address other, regular health issues. At the same time, it takes a closer look at CSR, sustainability, ethics, and governance

issues related to the pandemic, as well as current CSR practices in each of the countries reviewed. Given its scope, the book will be of interest to a broad readership including researchers, practitioners, and students concerned with the pandemic's societal and public health implications.

Socially Responsible Plastic David Crowther, Farzana Quoquab, 2023-03-28 The chapters look at socially responsible plastic in countries ranging from China, Malaysia, Pakistan, Spain, Australia and India to Sri Lanka, Nigeria and Bangladesh, with research covering tourism, waste management, the food and drink industry, and the possible advantages of responsible plastic use.

Sustainability Communication across Asia Mohamad Saifudin Mohamad Saleh, Nur Atikah A Rahman, Shaidatul Akma Adi Kasuma, 2022-12-30 Sustainability Communication across Asia distils the core components of environmental communication in the diverse milieu of Asian nations such as Indonesia, Malaysia, the Philippines, Thailand, and China. The chapters in this book engage readers in a clear-sighted view of issues, challenges, and strategies related to sustainability communication in Asia, examining fundamental principles, digital strategies, and the role of language, as well as

community engagement. The first part of the book features underpinning ideologies of sustainability communication. The authors go on to explore the prevalent trends and approaches in sustainable communication in the digital realm, examining the internet in general, social media, and gaming platforms. Finally, the book discusses the green efforts adopted among selected Asian communities, the role of communication, and the resulting societal impacts. Readers will be introduced to many related examples of Asian sustainability cases and issues that may differ from Western experiences. Interesting topics such as environmental gamification, edutainment and sustainability communication, and social media and sustainability are among those presented and elaborated at length by 21 writers with industrial and academic backgrounds. Practical and inspiring, this book will be of great interest to students and scholars of sustainability and environmental communication, and Asian studies in general.

The Man's Guide to Corporate Culture Heather Zumarraga, 2021-01-19 Studies have shown that 60% of male managers feel uncomfortable working one-on-one with their female colleagues. That's

where *The Man's Guide to Corporate Culture* comes in. Heather Zumarraga, a business journalist who has spent much of her career in testosterone-filled work environments, wants to make sure that any male leader who wants to be part of the solution knows how to do it the right way. Heather provides you with logical solutions to complex gender issues and gives important, practical lessons for men and women alike. *The Man's Guide to Corporate Culture* teaches you: Which behaviors to adopt (and which to avoid) to create and maintain a comfortable work environment for their female co-workers. How to create an environment that is not only welcoming to both women and men but also encourages healthy and respectful collaboration. And more real-world tested advice and approaches to help ensure every employee (and business) is best situated for success. There are numerous business books that coach women to deal with bias and harassment in a male-dominated workplace. However, *The Man's Guide to Corporate Culture* is one of the only books that coaches men on how to succeed in the new normal.
