**The Oxford Handbook of Music Making and Leisure** Roger Mantie, Gareth Dylan Smith, 2017 Music has been a vital part of leisure activity across time and cultures. Contemporary commodification, commercialization, and consumerism, however, have created a chasm between conceptualizations of music making and numerous realities in our world. From a broad range of perspectives and approaches, this handbook explores avocational involvement with music as an integral part of the human condition. The chapters in The Oxford Handbook of Music Making and Leisure present myriad ways for reconsidering and refocusing attention back on the rich, exciting, and emotionally charged ways in which people of all ages make time for making music. The contexts discussed are broadly Western, including an eclectic variety of voices from scholars across fields and disciplines, framing complex and multifaceted phenomena that may be helpfully, enlighteningly, and perhaps provocatively framed as music making and leisure. This volume may be viewed as an attempt to reclaim music making and leisure as a serious concern for, amongst others, policy makers, scholars, and educators who perhaps risk eliding some or even most of the ways in which music - a vital part of human existence - is integrated into the everyday lives of people. As such, this handbook looks beyond the obvious, asking readers to consider anew, What might we see when we think of music making as leisure?--publisher's website

**YouTube** Alan Lastufka, Michael Dean, 2008-11-25 Explains how to view, upload, and share videos with friends and the Internet community using the YouTube website.

**Making Poor Man's Guitars** Shane Speal, 2018-10-09 This book presents the authentic stories of American DIY music with step-by-step projects, photo studies of antique instruments, interviews with music legends, and historical accounts. Shane Speal, the "King of the Cigar Box Guitar," shows how anyone can build amazing musical instruments from found items.

**Kids on YouTube** Patricia G Lange, 2016-09-17 The mall is so old school—these days kids are hanging out on YouTube, and depending on whom you ask, they're either forging the digital frontier or frittering away their childhoods in anti-intellectual solipsism. Kids on YouTube cuts through the hype, going behind the scenes to understand kids' everyday engagement with new media. Debunking the stereotype of the self-taught computer whiz, new media scholar and filmmaker Patricia G. Lange describes the collaborative social networks kids use to negotiate identity and develop digital literacy on the 'Tube. Her long-term ethnographic studies also cover peer-based and family-driven video-making dynamics, girl geeks, civic engagement, and representational ethics. This book makes key contributions to new media studies, communication, science and technology studies, digital anthropology, and informal education.

**Get Rich Blogging** Zoe Griffin, 2016-07-07 Would you like to earn millions by talking about your favourite subject? A new generation of vloggers have become millionaires by sharing make-up tutorials, comedy sketches and gaming videos. These people didn't start off with fancy equipment, expert technical knowledge or huge audiences. They are self-made. This book examines how they achieved success and provides a step by step guide to the process of finding fame and fortune online. Featuring advice from vloggers including Jim Chapman, Fleur De Force and KSI alongside business tips from YouTube CBO Robert Kyncl and Gleam Futures founder Dominic Smales, this book contains insider information about the mechanics of making money by vlogging. Subjects covered include brand-building, filming and editing equipment techniques, social media, working with talent managers, dealing with digital marketing agencies, making merchandise and negotiating with brands. Author Zoe Griffin is an established blogger, who set up her blog Live Like a VIP in 2009. She's worked with several vloggers and has noticed that the most popular ones have things in common. This book explains what these things are – so you can adopt similar tactics and get rich vlogging!

**Thanks for Watching** Patricia G. Lange, 2019-11-15 YouTube hosts one billion visitors monthly and sees more than 400 hours of video uploaded every minute. In her award winning book, Thanks for Watching, Patricia G. Lange offers an anthropological perspective on this heavily mediated social environment by analyzing videos and the emotions that motivate sharing them. She demonstrates how core concepts from anthropology—participant-observation, reciprocity, and community—apply to sociality on YouTube. Lange's book reconceptualizes and updates these concepts for video-sharing cultures. Lange draws on 152 interviews with YouTube participants at gatherings throughout the United States, content analyses of more than 300 videos, observations of interactions on and off the site, and participant-observation. She documents how the introduction of monetization options impacted perceived opportunities for open sharing and creative exploration of personal and social messages. Lange's book provides new insight into patterns of digital migration, YouTube's influence on off-site interactions, and the emotional impact of losing control over images. The book also debunks traditional myths about online interaction, such as the supposed online/offline binary, the notion that anonymity always degrades public discourse, and the popular characterization of online participants as over-sharing narcissists. YouTubers' experiences illustrate fascinating hybrid forms of contemporary sociality that are neither purely mediated nor sufficient when conducted only in person. Combining intensive ethnography, analysis of video artifacts, and Lange's personal vlogging experiences, the book explores how YouTubers are creating a posthuman collective characterized by interaction, support, and controversy. In analyzing the tensions between YouTubers' idealistic goals of sociality and the site's need for monetization, Thanks for Watching makes crucial contributions to cultural anthropology, digital ethnography, science and technology studies, new media studies, communication, interaction design, and posthumanism. For its perceptive analysis of video blogging for self-expression and sociality, Thanks for Watching received the Franklyn S. Haiman Award for Distinguished Scholarship in Freedom of Expression (2020), from the National Communication Association.

**Electrified Voices** Dmitri Zakharine, Nils Meise, 2013 The aim of this book is to explore the phenomenon of the electrified voice through interdisciplinary approaches such as media and technology studies, social history, and comparative cultural studies. The book focuses on three problem clusters: reflections on the societal level about the task of electronic voice transmission; the mediation of gender- and occupation-specific vocal stereotypes in audio and audio-visual formats; and the genesis of such vocal stereotypes in national radio and film cultures. Such a historicizing approach to societal experience in the field of voice mediation, including the use and interpretation of voice media, is today of great relevance in light of the collective learning processes currently

triggered by rapid advances in technology.

**Social Media Influencers** The New York Times Editorial Staff,2019-12-15 Many popular social media websites and apps have one thing in common: celebrities looking to be worshipped. These social influencers come from all walks of life, and cater to young demographics with content including comedy routines, make-up advice, product reviews, and music videos. Watched by millions of viewers worldwide, they create diversion, provide commentary, endorse brands, and sometimes inspire the wrath of governments. With the aid of media literacy terms and questions, readers will discover how this comprehensive collection of articles reveals the ins and outs of internet commerce and culture.

**Culturematic** Grant David McCracken,2012 McCracken (Chief Culture Officer: How To Create a Living, Breathing Corporation) defines a culturematic as a little machine for making culture and a what if tool. They are small, cheap, open-ended, broadly focused experiments designed to uncover ideas we can't possibly guess we need and to generate a range of options. These experiments allow companies, marketers, innovators, and individuals to adapt to constant change and examine options with little risk or expense. Many will fail, but some will scale up. McCracken describes several successful culturemetics, discusses the theory behind them, and includes instructions on how to tailor these experiments to specific industries, as well as how to use them personally for improvement or self-discovery and what they can mean to corporations. He makes clear the differences between culturemetics and stunts or pranks and maintains a website (culturematic.com) in support of ongoing conversation on the subject. Verdict Engagingly written and accessible to both business and lay people, the book will have broad appeal to entrepreneurs, marketers, inventors, artists, and people looking for a creativity boost in their professional or personal lives.-Rachel Owens, Daytona State Coll. **Videocracy** Kevin Allocca,2018-01-23 From YouTube's Head of Culture and Trends, a rousing and illuminating behind-the-scenes exploration of internet video's massive impact on our world. Whether your favorite YouTube video is a cat on a Roomba, "Gangnam Style," the "Bed Intruder" song, an ASAPscience explainer, Rebecca Black's "Friday," or the "Evolution of Dance," Kevin Allocca's Videocracy reveals how these beloved videos and famous trends--and many more--came to be and why they mean more than you might think. YouTube is the biggest pool of cultural data since the beginning of recorded communication, with four hundred hours of video uploaded every minute. (It would take you more than sixty-five years just to watch the vlogs, music videos, tutorials, and other content posted in a single day!) This activity reflects who we are, in all our glory and ignominy. As Allocca says, if aliens wanted to understand our planet, he'd give them Google. If they wanted to understand us, he'd give them YouTube. In Videocracy, Allocca lays bare what YouTube videos say about our society and how our actions online--watching, sharing, commenting on, and remixing the people and clips that captivate us--are changing the face of entertainment, advertising, politics, and more. Via YouTube, we are fueling social movements, enforcing human rights, and redefining art--a lot more than you'd expect from a bunch of viral clips.

**Vaideology** Steve Vai,2019-01-01 (Guitar Educational). Experience must-know music knowledge and wisdom through the highly focused lens of legendary guitar virtuoso Steve Vai. **Zen Guitar** Philip Toshio Sudo,2013-08-27 Unleash the song of your soul with Zen Guitar, a contemplative handbook that draws on ancient Eastern wisdom and applies it to music and performance. Each of us carries a song inside us, the song that makes us human. Zen Guitar provides the key to unlocking this song--a series of life lessons presented through the metaphor of music. Philip Sudo offers his own experiences with music to enable us to rediscover the harmony in each of our lives and open ourselves to Zen awareness uniquely suited to the Western Mind. Through fifty-eight lessons that provide focus and a guide, the reader is led through to Zen awareness. This harmony is further illuminated through quotes from sources ranging from Eric Clapton and Jimi Hendrix to Miles Davis. From those who have never strummed a guitar to the more experienced, Zen Guitar shows how the path of music offers fulfillment in all aspects of life--a winning idea and an instant classic.

The Oxford Handbook of Social Media and Music Learning Janice L. Waldron,Stephanie Horsley,Kari K. Veblen,2020-09-23 The rapid pace of technological change over the last decade, particularly the rise of social media, has deeply affected the ways in which we interact as individuals, in groups, and among institutions to the point that it is difficult to grasp what it would be like to lose access to this everyday aspect of modern life. The Oxford Handbook of Social Media and Music Learning investigates the ways in which social media is now firmly engrained in all aspects of music education, providing fascinating insights into the ways in which social media, musical participation, and musical learning are increasingly entwined. In five sections of newly commissioned chapters, a refreshing mix of junior and senior scholars tackle questions concerning the potential for formal and informal musical learning in a networked society. Beginning with an overview of community identity and the new musical self through social media, scholars explore intersections between digital, musical, and social constructs including the vernacular of born-digital performance, musical identity and projection, and the expanding definition of musical empowerment. The fifth section brings this handbook to full practical fruition, featuring firsthand accounts of digital musicians, students, and teachers in the field. The Oxford Handbook of Social Media and Music Learning opens up an international discussion of what it means to be a musical community member in an age of technologically mediated relationships that break down the limits of geographical, cultural, political, and economic place.

The Cambridge Companion to Music in Digital Culture Nicholas Cook,Monique M. Ingalls,David Trippett,2019-09-19 Digital technology has profoundly transformed almost all aspects of musical culture. This book explains how and why.
