The Social Photo Nathan Jurgenson,2019-04-30 A set of bold theoretical reflections on how the social photo has remade our world. With the rise of the smart phone and social media, cameras have become ubiquitous, infiltrating nearly every aspect of social life. The glowing camera screen is the lens through which many of seek to communicate our experience. But our thinking about photography has been slow to catch-up; this major fixture of everyday life is still often treated in the terms of art or journalism. In *The Social Photo*, social theorist Nathan Jurgenson develops bold new ways of understanding photography in the age of social media and the new kinds of images that have emerged: the selfie, the faux-vintage photo, the self-destructing image, the food photo. Jurgenson shows how these devices and platforms have remade the world and our understanding of ourselves within it.

Loving Hugh Nini,Neal Treadwell,2020-10-14 *Loving: A Photographic Story of Men in Love, 1850-1950* portrays the history of romantic love between men in hundreds of moving and tender vernacular photographs taken between the years 1850 and 1950. This visual narrative of astonishing sensitivity brings to light an until-now-unpublished collection of hundreds of snapshots, portraits, and group photos taken in the most varied of contexts, both private and public. Taken when male partnerships were often illegal, the photos here were found at flea markets, in shoe boxes, family archives, old suitcases, and later online and at auctions. The collection now includes photos from all over the world: Australia, Bulgaria, Canada, Croatia, France, Germany, Japan, Greece, Latvia, the United States, the United Kingdom, Russia, and Serbia. The subjects were identified as couples by that unmistakable look in the eyes of two people in love - impossible to manufacture or hide. They were also recognized by body language - evidence as subtle as one hand barely grazing another - and by inscriptions, often coded. Included here are ambrotypes, daguerreotypes, glass negatives, tin types, cabinet cards, photo postcards, photo strips, photomatics, and snapshots - over 100 years of social history and the development of photography. *Loving* will be produced to the highest standards in illustrated book publishing, The photographs - many fragile from age or handling - have been digitized using a technology derived from that used on surveillance satellites and available in only five places around the world. Paper and other materials are among the best available. And *Loving* will be manufactured at one of the world's elite printers. *Loving*, the book, will be up to the measure of its message in every way. In these delight-filled pages, couples in love tell their own story for the first time at a time when joy and hope - indeed human connectivity - are crucial lifelines to our better selves. Universal in reach and overwhelming in impact, *Loving* speaks to our spirit and resilience, our capacity for bliss, and our longing for the shared truths of love.

Barbershops of America Rob Hammer,2020 Barbershops are synonymous with great memories, and nostalgic by the smells and feeling of a fresh cut or shave. *Barbershops of America* is the product of a 7-year journey by Rob Hammer, who traveled to all 50 states of the USA, documenting the disappearing old-school barbershop and the men who were staples of their community. Photographs and stories chronicle the barbershops of old, but also capture the stark contrast that is the next generation of traditional barbers. These new-school barbers may look like the polar opposite of what a traditional barber would look like, yet despite the obvious difference in the way these professionals carry themselves, their purpose is consistent: to carry on the tradition that they love.--Back cover

Photography and Belief David Levi Strauss,2020-10-27 In this exploration of contemporary photography, David Levi Strauss questions the concept that "seeing is believing" Identifying a recent shift in the dominance of photography, David Levi Strauss looks at the power of the medium in the age of Photoshop, smart phones, and the internet, asking important questions about how we look and what we trust. In the first ekphrasis title on photography, Strauss challenges the aura of believability and highlights the potential dangers around this status. He examines how images produced on cameras gradually gained an inordinate power to influence public opinion, prompt action, comfort and assuage, and direct or even create desire. How and why do we believe technical images the way we do? Offering a poignant argument in the era of "fake news," Strauss draws attention to new changes in the technology of seeing. Some uses of technical images are causing the connection between images and belief (between seeing and believing) to fray and pull apart. How is this shifting our relationship to images? Will this crisis in what we can believe come to threaten our very purchase on the real? This book is an inquiry into the history and future of our belief in images.

The Photo Ark Joel Sartore, 2017 This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

Snapshot Photography Catherine Zuromskis, 2021-08-24 An examination of the contradictions within a form of expression that is both public and private, specific and abstract, conventional and countercultural. Snapshots capture everyday occasions. Taken by amateur photographers with simple point-and-shoot cameras, snapshots often commemorate something that is private and personal; yet they also reflect widely held cultural conventions. The poses may be formulaic, but a photograph of loved ones can evoke a deep affective response. In *Snapshot Photography*, Catherine Zuromskis examines the development of a form of visual expression that is both public and private. Scholars of art and culture tend to discount snapshot photography; it is too ubiquitous, too unremarkable, too personal. Zuromskis argues for its significance. Snapshot photographers, she contends, are not so much creating spontaneous records of their lives as they are participating in a prescriptive cultural ritual. A snapshot is not only a record of interpersonal intimacy but also a means of linking private symbols of domestic harmony to public ideas of social conformity. Through a series of case studies, Zuromskis explores the social life

of snapshot photography in the United States in the latter half of the twentieth century. She examines the treatment of snapshot photography in the 2002 film One Hour Photo and in the television crime drama Law and Order: Special Victims Unit; the growing interest of collectors and museum curators in “vintage” snapshots; and the “snapshot aesthetic” of Andy Warhol and Nan Goldin. She finds that Warhol’s photographs of the Factory community and Goldin’s intense and intimate photographs of friends and family use the conventions of the snapshot to celebrate an alternate version of “family values.” In today’s digital age, snapshot photography has become even more ubiquitous and ephemeral—and, significantly, more public. But buried within snapshot photography’s mythic construction, Zuromskis argues, is a site of democratic possibility.

Berenice Abbott: A Life in Photography Julia Van Haaften,2018-04-10 The comprehensive biography of the iconic twentieth-century American photographer Berenice Abbott, a trailblazing documentary modernist, author, and inventor. Berenice Abbott is to American photography as Georgia O’Keeffe is to painting or Willa Cather to letters. She was a photographer of astounding innovation and artistry, a pioneer in both her personal and professional life. Abbott’s sixty-year career established her not only as a master of American photography, but also as a teacher, writer, archivist, and inventor. Famously reticent in public, Abbott’s fascinating life has long remained a mystery—until now. In Berenice Abbott: A Life in Photography, author, archivist, and curator Julia Van Haaften brings this iconic public figure to life alongside outlandish, familiar characters from artist Man Ray to cybernetics founder Norbert Wiener. A teenage rebel from Ohio, Abbott escaped first to Greenwich Village and then to Paris—photographing, in Sylvia Beach’s words, everyone who was anyone. As the Roaring Twenties ended, Abbott returned to New York, where she soon fell in love with art critic Elizabeth McCausland, with whom she would spend thirty years. In the 1930s, Abbott began her best-known work, Changing New York, in which she fearlessly documented the city’s metamorphosis. When warned by an older male supervisor that nice girls avoid the Bowery—then Manhattan’s skid row—Abbott shot back, I’m not a nice girl. I’m a photographer...I go anywhere. This bold, feminist attitude would characterize all Abbott’s accomplishments, including imaging techniques she invented in her influential, space race-era science photography and her tenure as The New School’s first photography teacher. With more than ninety stunning photos, this sweeping, cinematic biography secures Berenice Abbott’s place in the histories of photography and modern art, while framing her incredible accomplishments as a female artist and entrepreneur.

The World's Work ,1919 A history of our time.

Dear Photograph Taylor Jones,2012-04-24 We all have moments we wish we could relive. We’d give anything to skid down the toboggan hills of our youth, to breathe in the smell of our children as babies or to spend just one more minute with a loved one we’ve lost. Dear Photograph provides a way to link these memories from the past to the present. The idea is simple: hold a photograph from the past up in front of the place where it was originally taken; take a second photograph; add a sentence of dedication about what the photograph means to you. The results, however, are astounding, which is why millions have flocked to the site, and thousands have submitted their own Dear Photographs. This stunning visual compilation includes more than 140 never-before-seen Dear Photographs. By turns nostalgic, charming and poignant, Dear Photograph evokes childhood memories, laments difficult losses and, above all, celebrates the universal nature of love.
