*The Report: Qatar 2016* Oxford Business Group,2016-01-25 Qatar's sizeable oil and natural gas reserves have underpinned its rapid economic growth over the past two decades. Home to the world's largest non-associated gas field, the country is the world's fourth-largest producer of dry natural gas and the largest producer of liquefied natural gas, with hydrocarbons revenues forming the bulk of national income as a result. Although the drop in global energy prices has impacted export revenues, rigorous economic diversification drives in recent years have paid dividends, and in 2015 non-hydrocarbons growth reached 7.7%, compared to a 0.1% contraction for hydrocarbons growth during the same period. The country's financial sector has continued to evolve; Islamic banking in particular has witnessed significant progress. Meanwhile,

*Dates* A. Manickavasagan,M. Mohamed Essa,E. Sukumar,2012-04-20 Of the many varieties of date palms, the species *Phoenix dactylifera* Linn. is cultivated extensively and traded and consumed worldwide. *Dates: Production, Processing, Food, and Medicinal Values* draws from a broad spectrum of contributors to present a comprehensive survey of this particular species. The book explores a range of essential facets of what many consider to be a wonder plant—from its cultivation to its potential for medicinal purposes. Divided into four parts, the book begins by examining cultural practices and their implications for date quality. The contributors discuss tissue culture studies, farm water management, mechanization approaches in pollination and harvesting operations, and marketing aspects. The second section focuses on postharvest operations such as drying and explores alternatives for methyl bromide fumigation and value-added products. It also reviews biofuel production from by-products and discusses the issue of waste generated from industry. The third part of the book highlights the physical, chemical, and structural characteristics of dates. It reviews fermentative products that use dates as substrate, discusses the fruits as a substitute for added sugar in food, and explores date palm feeding to livestock. The final section discusses the possibilities for nutritional and medicinal use and reviews the use of dates in indigenous medicine. Exploring essential properties and agricultural implications, this volume is a reliable resource for understanding the many aspects of the *Phoenix dactylifera* Linn.

*The Report: Qatar 2014* Oxford Business Group,2014-04-15 2013 saw the transition of power from the former Emir, Sheikh Hamad bin Khalifa Al Thani, to Sheikh Tamim bin Hamad Al Thani, his fourth son and second son with Sheikha Moza bint Nasser, a move unprecedented elsewhere in the Gulf but not unexpected in Qatar. With sustained, long-term economic growth, the highest per capita income in the world, a stable and well-capitalised banking sector, a sovereign wealth fund that is of true global significance and one of the largest reserves of natural gas just offshore, Qatar today has many advantages. It is clear that the country is in a strong position from which to continue its robust economic performance, and the years ahead will see a vast construction drive, in line with the principles of Qatar National Vision 2030 and catalysed by preparations for the 2022 FIFA World Cup. Oil and gas accounted for around 51.5% of Qatar's economic output in 2013, while developing downstream facilities that add value to energy by-products, for example, has helped build a portfolio of petrochemicals, chemicals and fertiliser companies and looks set to see Qatar's economic strength continue. With more than \$222bn of projects in the pipeline, the construction sector's growth has been forecast at 15% for 2014, while spending on infrastructure is set to reach \$150bn in the run-up to the 2022 FIFA World Cup. Against this backdrop, Qatar looks set to continue offering a wide variety of opportunities for foreign investors.

**Ver sacrum seu flores musici (Salzburg, 1677), Part 1** Andreas Hofer,2021-05-01 Andreas Hofer's Ver sacrum seu flores musici is the first printed collection of paraliturgical music for the archiepiscopal court of Salzburg published in a modern edition, an important reparative to the overemphasis on the court's instrumental virtuosos, Heinrich Biber and Georg Muffat. The eighteen pieces of the collection are ordered liturgically, with each composition assigned to a specific feast day. Hofer's texts are a unique collection of centonized scripture, poetry, and prose, which, through creative manipulation of instrumentation, texture, and style, the composer musically dramatizes for the celebration of each feast. Referred to in the note to the reader as works "for the offertory" (despite the absence of any prescribed liturgical texts), these pieces demonstrate the malleable nature of the musical genre in the early modern period.

**The Electrocaloric Effect** Andrei L. Kholkin,Oleg V. Pakhomov,Alexander A. Semenov,Alexander Tselev,2023-02-16 The Electrocaloric Effect: Materials and Applications reviews the fundamentals of the electrocaloric effect, the most relevant electrocaloric materials, and electrocaloric measurements and device applications. Finally, there is a review of the latest techniques in measurement and applications in refrigeration and cooling and a discussion of the advantages, challenges and perspectives of the future of electrocaloric refrigeration. Provides a comprehensive introduction to the electrocaloric effect including experimental techniques to measure, model, and simulate the effect Reviews the most relevant electrocaloric materials such as composites, polymers, metal oxides, ferroelectric materials, and more Touches on the design and application of electrocaloric materials for devices with potential cooling and refrigeration applications

**Service? Learning to Advance Social Justice in a Time of Radical Inequality** Alan S. Tinkler,Barri E. Tinkler,Virginia M. Jagla,Jean R. Strait,2015-12-01 When considering inequality, one goal for educators is to enhance critical engagement to allow learners an opportunity to participate in an inquiry process that advances democracy. Service?learning pedagogy offers an opportunity to advance engaged?learning opportunities within higher education. This is particularly important given the power dynamics that are endemic within conversations about education, including the conversations around the Common Core, charter schools, and the privatization of education. Critical inquiry is central to the ethos of service?learning pedagogy, a pedagogy that is built upon community partner participation and active reflection. Within higher education, service?learning offers an important opportunity to enhance practice within the community, allowing students to engage stakeholders and youth which is particularly important given the dramatic inequalities that are endemic in today's society.

**The Arabs in Antiquity** Jan Retso,2013-07-04 The history of the Arabs in antiquity from their earliest appearance around 853 BC until the first century of Islam, is described in this book. It traces the mention of people called Arabs in all relevant ancient sources and suggests a new interpretation of their history. It is suggested that the ancient Arabs were more a religious community than an ethnic group, which would explain why the designation 'Arab' could be easily adopted by the early Muslim tribes. The Arabs of antiquity thus resemble the early Islamic Arabs more than is usually assumed, both being united by common bonds of religious ideology and law.

**The Story of Karbala** Ayatolla Ali Nazari Munfarid,2019-06-20 "Oh, Allah, You are my only trust in every calamity. You are my only hope in every hardship. You are the only promise in anxiety and distress, in which hearts become weak and (human) action becomes slight, whereby one is deserted and forsaken by his own friends, and the enemies take malicious pleasure and rejoice at his misfortunes. Oh, Allah, I submit myself to You. My complaint is to You alone against my enemies, and to You alone is my desire and request. Who else other than You can relieve me from grief? You alone are the custodian of every blessing and the master of every excellence and the last resort for every desire." —the prayer of the Imam-Husayn (AS) on the Day of Ashura
