Shakespeare and East Asia Alexa Alice Joubin,2021 Structured around modes in which one might encounter Asian-themed performances and adaptations, Shakespeare and East Asia identifies four themes that distinguish post-1950s East Asian cinemas and theatres from works in other parts of the world: Japanese formalistic innovations in sound and spectacle; reparative adaptations from China, Taiwan, and Hong Kong; the politics of gender and reception of films and touring productions in South Korea and the UK; and multilingual, diaspora works in Singapore and the UK. These adaptations break new ground in sound and spectacle; they serve as a vehicle for artistic and political remediation or, in some cases, the critique of the myth of reparative interpretations of literature; they provide a forum where diasporic artists and audiences can grapple with contemporary issues; and, through international circulation, they are reshaping debates about the relationship between East Asia and Europe. Bringing film and theatre studies together, this book sheds new light on the two major genres in a comparative context and reveals deep structural and narratological connections among Asian and Anglophone performances. These adaptations are products of metacinematic and metatheatrical operations, contestations among genres for primacy, or experimentations with features of both film and theatre.

Exploits & Opinions of Doctor Faustroll, Pataphysician Alfred Jarry,1996 The singular novel by the legendary author of the play, UBU ROI, is a book that can only be compared to Rabelais or Sterne. FAUSTROLL recounts the adventures of the inventor of PATAPHYSIC, the 'science of imaginary solutions.' Jarry would have found an audience more readily if he had simply written a work of science fiction, a symbolist narrative, a bawdy tale or a spritual allegory. As it is, FAUSTROLL is all of these at the same time.' - Roger Shattuk'

Moravagine Blaise Cendrars,2004-08-31 At once truly appalling and appallingly funny, Blaise Cendrars's Moravagine bears comparison with Naked Lunch—except that it's a lot more entertaining to read. Heir to an immense aristocratic fortune, mental and physical mutant Moravagine is a monster, a man in pursuit of a theorem that will justify his every desire. Released from a hospital for the criminally insane by his starstruck psychiatrist (the narrator of the book), who foresees a companionship in crime that will also be an unprecedented scientific collaboration, Moravagine travels from Moscow to San Antonio to deepest Amazonia, engaged in schemes and scams as, among other things, terrorist, speculator, gold prospector, and pilot. He also enjoys a busy sideline in rape and murder. At last, the two friends return to Europe—just in time for World War I, when the whole world was doing a Moravagine. This new edition of Cendrars's underground classic is the first in English to include the author's afterword, How I Wrote Moravagine.

Anime Rayna Denison,2015-10-22 Anime: A Critical Introduction maps the genres that have thrived within Japanese animation culture, and shows how a wide range of commentators have made sense of anime through discussions of its generic landscape. From the battling robots that define the mecha genre through to Studio Ghibli's dominant genre-brand of plucky shojo (young girl) characters, this book charts the rise of anime as a globally significant category of animation. It further thinks through the differences between anime's local and global genres: from the less-considered niches like nichijo-kei (everyday style anime) through to the global popularity of science fiction anime, this book tackles the tensions between the markets and audiences for anime texts. Anime is consequently understood in this book as a complex cultural phenomenon: not simply a “genre,” but as an always shifting and changing set of texts. Its inherent changeability makes anime an ideal contender for global dissemination, as it can be easily re-edited, translated and then newly understood as it moves through the world's animation markets. As such, Anime: A Critical Introduction explores anime through a range of debates that have emerged around its key film texts, through discussions of animation and violence, through debates about the cyborg and through the differences between local and global understandings of anime products. Anime: A Critical Introduction uses these debates to frame a different kind of understanding of anime, one rooted in contexts, rather than just texts. In this way, Anime: A Critical Introduction works to create a space in which we can rethink the meanings of anime as it travels around the world.

Yayoi Kusama Midori Yamamura,2024-03-19 An examination of Yayoi Kusama's work that goes beyond the usual biographical interpretation to consider her place in postwar global art history. Yayoi Kusama is the most

famous artist to emerge from Japan in the period following World War II. Part of a burgeoning international art scene in the early 1960s, she exhibited in New York with Andy Warhol, Donald Judd, Claes Oldenburg, and other Pop and Minimalist luminaries, and in Europe with the Dutch Nul and the German Zero artist groups. Known for repetitive patterns, sewn soft sculptures, naked performance, and suggestive content, Kusama's work anticipated the politically charged feminist art of the 1970s. But Kusama and her work were soon eclipsed by a dealer-controlled art market monopoly of white male American artists. Returning to Japan in 1973, Kusama became almost as famous for her self-proclaimed mental illness and permanent residence in a psychiatric hospital as she was for her art. In this book, Midori Yamamura eschews the usual critical fascination with Kusama's biography to consider the artist in her social and cultural milieu. By examining Kusama's art alongside that of her peers, Yamamura offers a new perspective on Kusama's career. Yamamura shows that Kusama, who came of age in totalitarian wartime Japan, embraced art as an anticonformist pursuit, seeking a subjective autonomy that resulted in the singular expression of her art. Examining Kusama's association with European and New York art movements of the 1960s and her creation of psychedelic light-and-sound "Happenings," Yamamura argues that Kusama and her heterogeneous peers defied and undermined various pillars of modernity during the crucial transition from the modern nation-state to global free-market capitalism. The art market rediscovered Kusama in the 1990s, and she has since had a series of high-profile exhibitions. Recounting Kusama's story, Yamamura offers an incisive, penetrating analysis of postwar art's globalization as viewed from the periphery.

The Flight of Icarus Raymond Queneau, 1973 The Flight of Icarus is Raymond Queneau's only novel written in the form of a play: seventy-four short scenes, complete with stage directions. Consciously parodying Pirandello and Robbe-Grillet, it begins with a novelist's discovery that his principal character, Icarus by name, has vanished. This in turn, sets off a rash of other such disappearances.

A Night of Serious Drinking René Daumal, 2003-04-29 The French poet and author of Mount Analogue shares a satirical allegory of the absurdities of intellectual society. As in Rene Daumal's cult classic Mount Analogue, A Night of Serious Drinking concerns an autobiographical protagonist on a mind-expanding journey. But rather than seeking enlightenment, the anonymous narrator recounts an evening getting drunk with a group of friends. As the party becomes intoxicated and exuberant, the narrator's wandering lead him from seeming paradises to the depths of pure hell. The characters our hero encounters go by absurd titles, such as Anthographers, Fabricators of useless objects, Scienters, Nibblists, and Clarificators. Yet the inhabitants of these strange realms are only too familiar: scientists dissecting an animal in their laboratory, a wise man surrounded by his devotees, politicians angling for influence, and poets expounding their rhetoric. Their hilarious antics and intellectual games reveal incisive social commentary that combines poetic imagination and philosophical depth.

Dark Ecology Timothy Morton, 2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in Blade Runner (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

Language Universals and Linguistic Typology Bernard Comrie, 1989-07-15 Here, Comrie (linguistics, U. of Southern Cal.) is particularly concerned with syntactico-semantic universals, devoting chapters to word order, case marking, relative clauses, and causative constructions. Special Air Warfare and the Secret War in Laos Air University Press, Joseph D Celeski, 2019-07-02 The story of special air warfare and the Air Commandos who served for the ambassadors in Laos from 1964 to 1975 is captured through extensive research and veteran interviews.
