National Dish Anya von Bremzen,2023-06-20 In this engrossing and timely journey to the crossroads of food and identity award-winning writer Anya von Bremzen explores six of the world's most fascinating and iconic culinary cultures—France, Italy, Japan, Spain, Mexico, and Turkey—brilliantly weaving cuisine, history, and politics into a work of scintillating connoisseurship and charm We all have an idea in our heads about what French food is—or Italian, or Japanese, or Mexican, or . . . But where did those ideas come from? Who decides what makes a national food canon? Recipient of three James Beard awards, Anya von Bremzen has written definitive cookbooks on Russian, Spanish, and Latin American cuisines, as well as her internationally acclaimed memoir Mastering the Art of Soviet Cooking. Now in National Dish, she sets out to investigate the truth behind the eternal cliché—“we are what we eat”—traveling to six storied food capitals, going high and low, from world-famous chefs to scholars to strangers in bars, in search of how cuisine became connected to place and identity. Paris is where the whole idea of food as national heritage was first invented, and so it is where Anya must begin. With an inquisitive eye and unmistakable wit, she ponders the codification of French food and the current tension between locavorism and globalization. From France, she's off to Naples, to probe the myth and reality of pizza, pasta, and Italian-ness. Next up, Tokyo, where Anya and her partner Barry explore ramen, rice, and the distance between Japan's future and its past. From there they move to Seville, to search for the community-based essence of Spain's tapas traditions, and then Oaxaca, where debates over postcolonial cultural integration find expression in maize and mole. In Istanbul, a traditional Ottoman potluck becomes a lens on how a former multicultural empire defines its food heritage. Finally, they land back in their beloved home in Queens, for a dinner centered on Ukrainian borsch, a meal that has never felt more loaded, or more precious and poignant. A unique and magical cook's tour of the world, National Dish brings us to a deep appreciation of how the country makes the food, and the food the country.

The Emergence of National Food Atsuko Ichijo,Venetia Johannes,Ronald Ranta,2019-02-21 What do deep fried mars bars, cod, and Bulgarian yoghurt have in common? Each have become symbolic foods with specific connotations, located to a very specific place and country. This book explores the role of food in society as a means of interrogating the concept of the nation-state and its sub-units, and reveals how the nation-state in its various disguises has been and is changing in response to accelerated globalisation. The chapters investigate various stages of national food: its birth, emergence, and decline, and why sometimes no national food emerges. By collecting and analysing a wide range of case studies from countries including Portugal, Mexico, the USA, Bulgaria, Scotland, and Israel, the book illustrates ways in which various social forces work together to shape social and political realities concerning food. The contributors, hailing from anthropology, history, sociology and political science, investigate the significance of specific food cultures, cuisines, dishes, and ingredients, and their association with national identity. In so doing, it becomes clearer how these two things interact, and demonstrates the scope and direction of the current study of food and nationalism.

Real Ukrainian Cookbook Anna Melher,2018-01-16 Later, the formation of the Ukrainian cuisine has caused a number of its features. First, it was created on the basis of already existing in each of the regional parts of Ukraine elements of culinary culture. Secondly, despite the fact that these elements were highly heterogeneous, due to the vastness of the territory, stretching from the Carpathians to the Azov sea and the Pripyat river to the Black sea, the differences of natural conditions and historical development of individual parts of it, sosedstvuyut of many Nations (Russians, Belarusians, Tatars, Nogai, Hungarians, Germans, Moldavians, Turks, Greeks), Ukrainian cuisine proved to be extremely solid, even somewhat one-sided as the selection of characteristic national food raw materials, and the principles of his cooking. Third, the national Ukrainian cuisine does not include the traditions of ancient cuisine, communication with which was lost after the Mongol invasion. That distinguishes Ukrainian cuisine from Russian and Belarusian, where the ancient tradition, although changed, but, nevertheless, persisted for many centuries. However, Ukrainian cuisine perceived as some technological methods, not only German and Hungarian cuisine, but Tatar and Turkish, in his partially modifying them. So, roasting products in perekalennoe oil, typical of Turkic cuisines, was transformed into Ukrainian smirenje (i.e. passerovannye the vegetables going into the soup or a second dish), which, for example, it is not characteristic of Russian cuisine. Perimenopause dish of Turkish cuisine dyush-Vara turned to Ukrainian dumplings, and then in the dumplings with a distinctive national fillings - cherries, cheese, onions (Tsybulya), bacon. From German cuisine was perceived fragmentation products, which found concrete expression in various Ukrainian sichenyky - kotloobraznye the dishes of minced meat (cut, ground meat, eggs, carrots, cabbage, mushrooms, etc.). As for food raw materials, it was selected for Ukrainian cuisine in contrast with Eastern cuisines. For example, in opposition to infidels Ukrainian Cossacks began to cultivate in the XVI-XVIII centuries. the use of lard. At the same time, consumption of beef, widespread among the Russian population, was a relatively minor Ukrainians, as oxen in the Ukraine was not productive, as a worker, beasts of burden and their meat was not only less tasty and more rigid in comparison with pork, but to some extent it was considered not quite clean. At the same time received a distribution of certain foreign products such as vegetable oil - olie. It was considered more valuable than cow butter, because it came from Greece, a country with which the Ukrainian lands were bound by religious ties. At the same time, the eggplant, used in the Turkish kitchen and a well appeared in the South of Ukraine, have not found use in the Ukrainian national dishes like infidel meals. These principles of selection of food raw materials that are common to all Ukrainians in the XVII-XIX centuries. regardless of their places of settlement, made Ukrainian cuisine in the result is strikingly uniform and yet unique and distinctive. The peculiarity of Ukrainian cuisine is expressed, first, in the primary usage of such products as pork, bacon, beets, wheat flour and some Other, and secondly, in such features of cooking technology, as a combined heat treatment of a large number of components of meals in the background of one main and defining what a classic example is the borscht where the beets add two dozen components that are not overwhelming beet taste, but only a hint and develop it. Favorite and most used product is bacon as a standalone food, mainly in the roasted form, in the form of so-called greaves, and a variety of seasonings and fat basis a variety of dishes. This attitude to pork unites Ukrainian cuisine with cuisine of the Western Slavs and Hungarians and neighbors of the Ukrainians, Belarusians, however, the use of lard in the Ukrainian cuisine.

Simple And Healthy Spanish Recipes Claudio Pitassi,2021-08-22 We may not realize it, but many of our favorite foods--from guacamole to tamales to chocolate--were discovered, developed, and refined centuries ago in the Maya world. Guatemala does not have a national dish, but there are many foods that have become a part of the everyday diet. Just as during the time of the Mayans, corn continues to be a staple food. It is most often eaten in the form of a tortilla (a thin corn pancake). These are usually served warm and wrapped in cloth. Black beans (frijoles), another Mayan staple, are eaten at almost every meal. They are usually refried (volteados), mashed, or simply eaten whole (parados). Rice, eggs, and cheese are also widely consumed. Chicken, turkey, and beef (roasted, grilled, or fried) are the country's most popular meats and are normally accompanied by beans and rice (frijoles con Arroz). Meats are often served in stews (caldos) or cooked in a spicy chili sauce, though whole chickens may occasionally be served with the feet still attached. Pepián, a thick meat and vegetable stew, is a common dish in the area of Antigua (a town just outside of Guatemala City, the country's capital). Seafood is most common along the coasts and is usually prepared with various spices.
