**Media Discourse in Contemporary India** Sudeshna Devi, 2022-06-24 This book examines the historical trajectory of the growth of the television news and critically analyzes the role of private television news in framing the nature of public discourse in contemporary India. Set in the context of a transformed media landscape, the book attempts to understand and analyze the role of two private national news channels, NDTV 24x7 and Aaj Tak, in producing mediatized narratives that offer a commentary on the various social, political, cultural, religious and economic issues in the public domain. This is achieved by critically examining the process and techniques of production, representation and consumption of current affairs programs such as studio debates, panel discussions, audience talk shows and documentaries aired on both the channels. Highlighting some of the key trends that impinge on the structure and mode of operation of television news media in contemporary India, the book offers a simultaneous examination of how the production, representation and consumption of the mediatized discourses shape the nature of public discourse and have social-political ramifications for the functioning of Indian democracy. The book will be of interest to researchers in sociology, media and communication studies, popular culture and South Asian Studies.

**Videogames in the Indian Subcontinent** Souvik Mukherjee, 2022-11-25 Videogames in the Indian Subcontinent: Development, Culture(s) and Representations explores the gaming culture of one of the most culturally diverse and populous regions of the world-the Indian subcontinent. Building on the author's earlier work on videogame culture in India, this book addresses issues of how discussions of equality and diversity sit within videogame studies, particularly in connection with the subcontinent, thereby presenting pioneering research on the videogame cultures of the region. Drawing on a series of player and developer interviews and surveys conducted over the last five years, including some recent ones, this book provides a sense of how games have become a part of the culture of the region despite its huge diversity and plurality and opens up avenues for further study through vignettes and snapshots of the diverse gaming culture. It addresses the rapid rise of videogames as an entertainment medium in South Asia and, as such, also tries to better understand the recent controversies connected to gaming in the region. In the process, it aims to make a larger connection between the development of videogames and player culture, in the subcontinent and globally, thus opening up channels for collaboration between the industry and academic research, local and global.

**Holy Science** Banu Subramaniam, 2019-05-15 Behind the euphoric narrative of India as an emerging world power lies a complex and evolving relationship between science and religion. Evoking the rich mythology of comingled worlds where humans, animals, and gods transform each other and

ancient history, Banu Subramaniam demonstrates how Hindu nationalism sutures an ideal past to technologies of the present to make bold claims about the Vedic Sciences and the scientific Vedas. Moving beyond a critique of India's emerging bionationalism, this book explores the generative possibility of myth and story, interweaving compelling new stories into a rich analysis that animates alternative imaginaries and "other" worlds of possibilities.

*The Memory Marketplace* Emilie Pine, 2020-06-30 What happens when cultural memory becomes a commodity? Who owns the memory? In *The Memory Marketplace*, Emilie Pine explores how memory is performed both in Ireland and abroad by considering the significant body of contemporary Irish theatre that contends with its own culture and history. Analyzing examples from this realm of theatre, Pine focuses on the idea of witnesses, both as performers on stage and as members of the audience. Whose memories are observed in these transactions, and how and why do performances prioritize some memories over others? What does it mean to create, rehearse, perform, and purchase the theatricalization of memory? *The Memory Marketplace* shows this transaction to be particularly fraught in the theatricalization of traumatic moments of cultural upheaval, such as the child sexual abuse scandal in Ireland. In these performances, the role of empathy becomes key within the marketplace dynamic, and Pine argues that this empathy shapes the kinds of witnesses created. The complexities and nuances of this exchange—subject and witness, spectator and performer, consumer and commodified—provide a deeper understanding of the crucial role theatre plays in shaping public understanding of trauma, memory, and history.

*Feminist Futures* Kum-Kum Bhavnani, John Foran, Priya A. Kurian, Debashish Munshi, 2016-10-15 Straddling disciplines and continents, *Feminist Futures* interweaves scholarship and social activism to explore the evolving position of women in the South. Working at the intersection of cultural studies,

critical development studies and feminist theory, the book's contributors articulate a radical and innovative framework for understanding the linkages between women, culture and development, applying it to issues ranging from sexuality and the gendered body to the environment, technology and the cultural politics of representation. This revised and updated edition brings together leading academics, as well as a new generation of activists and scholars, to provide a fresh perspective on the ways in which women in the South are transforming our understanding of development.

**My NDTV Days** Sanjay Pinto, 2019-01-24 The life of a television journalist can often be described as full of thrills and the rush of providing 'breaking news' can be inimitable. Throwing a contentious question to then Prime Minister Atal Bihari Vajpayee on his visit to Chennai, escorting an NDTV colleague who had just survived an LTTE attack in Colombo, out of the Chennai Airport, edgy encounters with Boris Becker or humorous ones with Rahul Dravid or Vishwanathan Anand, My NDTV Days presents engaging details of the art of chasing news. At the core of Sanjay Pinto's remarkable recounting of these interesting incidents, the life of a 24X7 journalist comes to the fore with all the unpredictable aspects of the profession.

**Indian Sound Cultures, Indian Sound Citizenship** Laura Brueck, Jacob Smith, Neil Kanwar Harish Verma, 2020-05-14 From the cinema to the recording studio to public festival grounds, the range and sonic richness of Indian cultures can be heard across the subcontinent. Sound articulates communal difference and embodies specific identities for multiple publics. This diversity of sounds has been and continues to be crucial to the ideological construction of a unifying postcolonial Indian nation-state. Indian Sound Cultures, Indian Sound Citizenship addresses the multifaceted roles sound plays in Indian cultures and media, and enacts a sonic turn in South Asian Studies by understanding sound in its own social and cultural contexts. "Scapes, Sites, and Circulations" considers the spatial

and circulatory ways in which sound “happens” in and around Indian sound cultures, including diasporic cultures. “Voice” emphasizes voices that embody a variety of struggles and ambiguities, particularly around gender and performance. Finally, “Cinema Sound” make specific arguments about film sound in the Indian context, from the earliest days of talkie technology to contemporary Hindi films and experimental art installations. Integrating interdisciplinary scholarship at the nexus of sound studies and South Asian Studies by questions of nation/nationalism, postcolonialism, cinema, and popular culture in India, *Indian Sound Cultures, Indian Sound Citizenship* offers fresh and sophisticated approaches to the sonic world of the subcontinent.

*Memoirs* Habib Tanvir, 2014-05-15 As the man who brought the popular and the demotic into modern Indian theatre, Habib Tanvir is one of Asia’s most important and gifted theatre directors. In this memoir, touching on both the private and the public aspects of his life with startling candour, he takes us on a journey from his childhood in Raipur to the Bombay film world of the 1940s and thence to the Indian Theatre People’s Association, offering an invaluable window into twentieth-century India. Whether he is describing his family members, friends or actors, Habib Tanvir is superbly observant and sharply insightful, capturing both the quotidian and the quirky in his distinct style and delightful voice. Written with great warmth and humour, these memoirs provide a memorable portrait of an extraordinary man.

*Our Time Has Come* Alyssa Ayres, 2017-12-05 Over the last 25 years, India's explosive economic growth has vaulted it into the ranks of the world's emerging major powers. India's middle class has grown by leaps and bounds, and the country's sheer scale—possessing what will very soon be the world's largest population and an economy of more than \$2 trillion—means its actions will have a major global impact. While it is clearly on the path to becoming a great power, India has not abandoned all

of its past policies: its economy remains relatively protectionist, and it still struggles with the legacy of its longstanding foreign policy doctrine of non-alignment. India's vibrant democracy encompasses a vast array of parties who champion dizzyingly disparate policies. And India isn't easily swayed by foreign influence; the country carefully guards its autonomy, in part because of its colonial past. For all of these reasons, India tends to move cautiously and deliberately in the international sphere. In *Our Time Has Come*, Alyssa Ayres looks at how the tension between India's past and its ongoing integration into the global economy will shape its trajectory. By focusing on how India's unique perspective shapes its approach to global affairs, this new, updated paperback edition of *Our Time Has Come* helps the world make sense of India's rise.

**Foreign policy annual** Mahendra Gaur, 2007 (In Fourteen Volumes) *Foreign Policy Annual* is the first publication of its type that provides a reliable chronicle of events in contemporary Indian Foreign Policy on a day-to-day basis. It covers India's participation in the deliberations of international organizations, and relations with her neighbours, regional and super powers; also contains chronicle of world events in which India reacted in defence of its national interests. The events deal with India's political, economic and strategic relations as well as unofficial opinion on world affairs. During all these eventful years as an independent nation, there has been phenomenal growth in our foreign contacts so much so that diplomatic relations have been established with almost all the countries of the world. Besides as a member of hundreds of international organizations, India has to participate in their periodic deliberations. The VIP visits and those numerous other groups have become common occurrences of the day. Hardly any country has the opportunity to extend hospitality in one single year to so many distinguished visits which are not merely acts of diplomatic courtesy. Then due to the growth of the political consciousness among our people, interest in world developments has assumed

a new dimension. Our countrymen have grown critical of our government's international activities than of its doings on the home front. The vigilant press kept watchful eye on every initiative that govt. took or the way it reacted to different issues that arose from time to time. All this underlines the very fact that in view of India's growing importance in world politics, its increasing activities in the international sphere need to be viewed and chronicled periodically. The publication as such was introduced first time in 2001 and it has been continuing pleased at its lofty and lasting utility proven to the Indian as well as people from the foreign lands. Published in two volumes every year, saliently featured, it contains the documents in the first volume while the events with all accuracy are chronicled in the second one. The events have taken place either on our own land or on the foreign. And the documents, really rare to the provision to the commonly reach of the people or organizations, will in actual sense be proved invaluable, at ease, and these comprise of various kinds of documents- such as, addresses, international reports, bilateral or multilateral treaties, conventions, international agreements etc. proving to be highly beneficial to the people having the characters, of economic, politic, sociatic, health and hygiene, environment etc. This publication will certainly prove to be a storehouse for knowledge, information and reference in many measures. The people will find it an easy access to the things which earlier either swam in air or rested in the books of the higher offices, meaning thereby beyond the complete reach.

**Mumbai and Goa - Time Out** Editors of Time Out, 2011-03-03 A chaotic, 13-million-strong melting pot of ethnic groups from all over India, Mumbai is India's economic engine and home to the world's largest film industry. 600 kilometres away, the golden beaches of Goa feel like another country. Drawing on insider expertise, this book discusses both locales.

**The Absent Dialogue** Anit Mukherjee, 2019 Civilian control over the military is widely hailed as among the biggest successes of India's democracy. This is a rarity, especially among post-colonial states, and is rightfully celebrated. But has this come at a cost? In *The Absent Dialogue*, Anit Mukherjee argues that the pattern of civil-military relations in India has hampered its military effectiveness. Indian politicians and bureaucrats have long been content with the formal and ritualistic exercise of civilian control, while the military continues to operate in institutional silos, with little substantive engagement between the two. In making this claim, the book closely examines the

variables most closely associated with military effectiveness -- weapons procurement, jointness (the ability of separate military services to operate together), officer education, promotion policies, and defense planning. India's pattern of civil-military relations -- best characterized as an absent dialogue -- adversely affects each of these processes. Theoretically, the book adopts the 'unequal dialogue' framework proposed by Eliot Cohen but also argues that, under some conditions, patterns of civil-military relations maybe more closely resemble an 'absent dialogue.' Informed by more than a hundred and fifty interviews and recently available archival material, the book represents a deep dive into understanding the power and the limitations of the Indian military. It sheds new light on India's military history and is essential reading for understanding contemporary civil-military relations and recurring problems therein. While the book focuses on India, it also highlights the importance of civilian expertise and institutional design in enhancing civilian control and military effectiveness in other democracies--

By exploring the international dimensions of this regional hotspot, Gordon Chang, Bernard Cole, James Fanell, Bill Hayton, and others examine how the military, diplomatic, and economic strategies of the major global actors have both contributed to solutions and exacerbated the potential for conflict. As editor of this volume, Anders Corr seeks to juxtapose the grand strategies of the great powers to determine the likely outcomes of the South China Sea dispute, as well as evaluate the ways to possibly defuse tensions in the region.

Relocating Television Jostein Gripsrud, 2012-07-26 For over half a century, television has been the most central medium in Western democracies – the political, social and cultural centrepiece of the public sphere. Television has therefore rarely been studied in isolation from its socio-cultural and political context; there is always something important at stake when the forms and functions of

television are on the agenda. The digitisation of television concerns the production, contents, distribution and reception of the medium, but also its position in the overall, largely digitised media system and public sphere where the internet plays a decisive role. The articles in this comprehensive collection are written by some of the world's most prominent scholars in the field of media, communication and cultural studies, including critical film and television studies. *Relocating Television* offers readers an insight into studying television alongside the internet, participatory media and other technocultural phenomena such as DVDs, user-generated content and everyday digital media production. It also focuses on more specific programmes and phenomena, including *The Wire*, MSN, amateur footage in TV news, Bollywoodization of TV news, YouTube, fan sites tied to e.g. *Grey's Anatomy* and *X Factor*. *Relocating Television* will be highly beneficial to both students and academics across a wide range of undergraduate and postgraduate courses including media, communication and cultural studies, and television and film studies.
