**Dying to Be Me** Anita Moorjani,2022-03-08 THE NEW YORK TIMES BESTSELLER! I had the choice to come back ... or not. I chose to return when I realized that 'heaven' is a state, not a place In this truly inspirational memoir, Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down—overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she entered into an extraordinary near-death experience where she realized her inherent worth . . . and the actual cause of her disease. Upon regaining consciousness, Anita found that her condition had improved so rapidly that she was released from the hospital within weeks—without a trace of cancer in her body! Within this enhanced e-book, Anita recounts—in words and on video—stories of her childhood in Hong Kong, her challenge to establish her career and find true love, as well as how she eventually ended up in that hospital bed where she defied all medical knowledge. In *Dying to Be Me*, Anita Freely shares all she has learned about illness, healing, fear, being love, and the true magnificence of each and every human being!

*You Know You Live near a Factory Farm When Your Kids Go Fishing with a Pool Skimmer* Doug Baird,2018-08-24 In Rural America the biggest threat to the health and well-being of the community is the same activity that once strengthened and nurtured it - farming. Industrial farming is rolling the dice against a dystopian future of environmental meltdown, antibiotic-resistant pathogens, and genetically modified organisms in a race to quickly amass wealth. Using a simple picture-book style, and the buoyancy of humor, this book navigates the flood of destructive farming practices that have already engulfed the rural community, and are spreading.

**Infranomics** Adrian V. Gheorghe,Marcelo Masera,Polinpapilinho F. Katina,2013-12-03 This book provides a rough entry into the interdisciplinary field of Infranomics. It enables better decision making in an increasing ambiguous, complex, emergent, interdependent, and uncertain world where we attempt to anticipate modern society trends and patterns in order to react appropriately. However, as with any emerging discipline, much research is needed at the applications and conceptual level. The applications level may require development and testing of methods, tools, and techniques to enable analysis and decision-making in ambiguous, complex, emergent, interdependent, and uncertain conditions while the conceptual level may require tapping into driving philosophies, theories, and methodologies that form the basis for Infranomics. Striking the right balance between applications and conceptual foundation (theory) requires rigorous research. This book provides a springboard for robust discussions on applications, theory, and transformation of current thinking to better deal with modern society's problematic issues using Infranomics.

**Beach Like You Live Here** Kristin Higgins,2023-11-12 Get away from the crowds and Beach Like You Live Here! I lived on Oahu from 2009 to 2023 and these are my favorite local beaches. I spend a lot of lunch hours at these beaches and have been taking visiting friends and family to them for years. They are always amazed that there are hardly ever any tourists and so grateful that they got to experience these secret special places! Unlike Waikiki or other well-known, popular beaches such as Lanikai, Hanauma, Sandys, Makapu'u, Sunset and Waimea Bay, my favorite beaches are usually pretty empty, especially on weekdays. While mostly unknown to tourists, you can easily reach all of them by public transport or rental car. The beaches recommended, which won't be found together on any other guide site, include detailed directions with maps and addresses, facilities (restrooms, showers, etc.) nearby food and drink options, nearby 'tie-in' activities with links. parking and bus stop info, lifeguards on-site or not, and loads of recent, personally taken photos. There is also a bonus section of tips that will be invaluable on your trip!

**Wisdom of Near-Death Experiences** Dr. Penny Sartori,2014-03-25 A doctor recounts patient stories from her five-year clinical study of Near-Death Experiences, revealing how this phenomenon is more powerful than we realize Dr. Penny Sartori is a registered nurse who began researching

Near-Death Experiences (NDEs) in 1995 after one of her long-term intensive care patients begged her to let him die in peace. Inspired by this encounter, she went on to research NDEs in a PhD program, where she learned profound spiritual lessons and made startling discoveries that she now shares in *The Wisdom of Near-Death Experiences*. During her academic work, Dr. Sartori studied three samples of ICU patients during a five-year period. Here, she recounts the eye-opening stories of those patients who experienced NDEs and out-of-body experiences (OBEs). In one group, as many as 18% of patients experienced an NDE—though Patient #10 stood out among the others. After being unresponsive, he awoke to report he had experienced an OBE. He was able to describe what happened in the hospital room while he was unconscious and claimed he met not only his deceased father but a Jesus-like figure. Most shocking of all, he had regained the use of his hand—which had been paralyzed since birth. When talking about the biggest takeaways from her research, Dr. Sartori shares how her findings have made her question the common belief that the brain gives rise to consciousness. Most importantly, she has gained a deeper appreciation for death—an experience she now views with less fear and anxiety. In addition to detailing dozens of case studies, *The Wisdom of Near-Death Experiences* also discusses childhood NDEs, the differences in NDEs among different cultures, and the after-effects of NDEs.

*Children’s Images of Identity* Jill Brown,Nicola F. Johnson,2015-06-25 The understandings which children have of Indigenous identity provide means by which to explore the ways in which Indigenous identity is both projected and constructed in society. These understandings play a powerful part in the ways in which Indigenous peoples are positioned in the mainstream society with which they are connected. The research presented in this edited collection uses children’s drawings to illuminate and explore the images children, both mainstream and Indigenous, have of Indigenous peoples. The data generated by this process allows exploration of the ways in which Indigenous identity is understood globally, through a series of locally focussed studies connected by theme and approach. The data serves to illuminate both the space made available by mainstream groups, and aspects of modernity accommodated within the Indigenous sense of self. Our aim within this project has been to analyse and discuss the ways in which children construct identity, both their own and that of others. Children were asked to share their thoughts through drawings which were then used as the basis for conversation with the researchers. In this way the interaction between mainstream modernity and traditional Indigenous identity is made available for discussion and the connection between children’s lived experiences of identity and the wider global discussion is both immediately enacted and located within broader international understandings of Indigenous cultures and their place in the world.
