**Barbara A. West**

*To Nepal With Love* Cristi Hegranes, 2013-10-01 Nepal is far more than a few video nights in Kathmandu and a brief taste of the Himalayas. This book gives a tempting and comprehensive view of where to go and what to do in the farthest reaches of this little-known country. With tips on learning Nepali, where to spend a day or two as a volunteer, where to embark upon a course of meditation, as well as favorite places to eat, shop, and explore, *To Nepal With Love* gives travelers the chance to enjoy and experience the country as residents and knowledgeable travelers do.

*Fatalism and Development* Dor Bahadur Bista, 1991 The book concentrates on the social and cultural factors which lie behind the current Nepal crisis locating the root cause in the Brahmin-Chhetri minority which dominates Kathmandu and other towns. Fatalism and the caste system still flourish behind the facade of modern bureaucracy, at all levels of government, in education, foreign aid, politics and administration. The author attempts to distill all his experience into a portrait of his society.

*Glimpses of Nepal* Naresh Chandra Sangal, 1998

**Nepal and Bangladesh** Nanda R.

Shrestha, 2002-09-13 This authoritative, thorough volume covers a broad range of topics from history to culture to current struggles in these fascinating countries. Often overshadowed on the world stage by issues surrounding India and Pakistan, Nepal and Bangladesh are nonetheless vital players in this theater of Asia. *Nepal and Bangladesh* brings a refreshing level of clarity to a wide variety of topics surrounding both nations including history, current affairs, business and economics, culture, literature, political science, and travel. Written in a voice that speaks to general audiences from secondary instructors to interested business people and travelers to the region, this handbook

paints a portrait of both countries that is at once complete and accessible. Beginning with far-reaching narrative histories of both nations the text also contains a compendium of important people and events and concludes with an exhaustive reference section.

*Unleashing Nepal* Sujeev Shakya, 2013-09-04

*Unleashing Nepal* tells the story of Nepal's changing economy, from the time of unification to a remittance economy driven by the labour of Nepal's diaspora. Acclaimed columnist and business leader Sujeev Shakya examines not only the squandered opportunities of the past but also what Nepali citizens need to do to escape from a feudal history of dependence and powerlessness. Here is a Nepal that could be an Asian Tiger. Here are resourceful village communities who manage their own electricity, aspirational Nepali youth, energetic migrant workers, and driven foreign-aid workers, who can make this dream a reality. Compelling and eminently readable, this updated and enriched version brings the country alive with its acute business understanding, humour and local colour.

**Asian Models Of Entrepreneurship - From The Indian Union And Nepal To The Japanese Archipelago: Context, Policy And Practice (2nd Edition)** Leo-paul

Dana, 2014-06-13 In this book, Leo-Paul Dana makes it clear that much can be learnt about the nature of entrepreneurial activity when we delve into the unique characteristics of different nations of South Asia, South-east Asia and East Asia. Through in-depth analyses and comprehensive reviews of many Asian countries, the profound differences both among and within countries of the region become vividly apparent. Dana juxtaposes the explosion in entrepreneurial growth within China against the struggles to build an entrepreneurial community in Japan, or the enlightened public policy leadership in Singapore against

the crisis-driven developments in Korea. The range of factors identified within each of the 15 countries examined by Dana is not an example of random influences on the entrepreneurial process, because they can be construed in more systematic and logical ways. Thus, the book uncovers the Chinese model of gradual transition, the Royal Cambodian model, and the Doi-Moi model, among many others. The reader is challenged to grasp these different models, and identify their commonalities and differences.

#### Military and Democracy in Nepal Indra

Adhikari, 2015-06-12 This book explores the development of the military as an organization and looks at the patterns of civil-military relations that have emerged in modern Nepal, especially after the rise of King Prithvi Narayan Shah, who founded the unified state of Nepal. It combines astute analyses with up-to-date data to present a comprehensive account of the relations between monarchy, military and civil government and their impact on the democratization process in the country. The author underlines the pressing need for establishing civilian supremacy over the military, through developing and strengthening civilian supervisory

mechanisms. The book will be an important resource to researchers, scholars, students of politics, military studies, peace and conflict studies, and history, particularly those concerned with Nepal. It will also interest policy-makers, security experts and military personnel.

*The Maoist Insurgency in Nepal* Mahendra Lawoti, Anup Kumar Pahari, 2009-10-13 The book deals with the dynamics and growth of a violent 21st century communist rebellion initiated in Nepal by the Communist Party of Nepal (Maoist) - CPN(M). It contextualizes and explains why and how a violent Maoist insurgency grew in Nepal after the end of the Cold War, in contrast to the decline of other radical communist movements in most parts of the world. Scholars from diverse disciplinary backgrounds employ a wide variety of approaches and methods to unravel different aspects of the rebellion. Individual chapters analyze the different causes of the insurgency, factors that contributed to its growth, the organization, agency, ideology and strategies employed by the rebels and the state, and the consequences of the insurgency. New issues are analysed in conjunction with the insurgency, such as the role of the Maoist student organization, Maoist's cultural troupes, the organization and strategies of the People's Army and the Royal Nepal Army, indoctrination and recruitment of rebels, and international factors. Based on original field work and a thorough analysis of empirical data, this book fills an existing gap in academic analyses of the insurgency in Nepal.

*Theatre of Nepal and the People Who Make It* Carol C. Davis, 2019-04-30 Theatre of Nepal and the People Who Make It is the first comprehensive look at Nepali theatre for readers outside of Nepal. Charting Nepali theatre from ancient times to the present and from the metropolis of Kathmandu to far-flung regions, this book highlights the

history of formal theatre and connects it to shifting political and social conditions in the country. Sourcing extensive fieldwork, it takes us back stage to meet individual theatre makers and learn their unique attributes and stories. From these intimate glimpses and the intertwining of political history with theatrical expression, a portrait emerges that conveys the character of Nepalis who, in spite of adversities, continue to dramatize their hopes, fears, principles, and priorities through theatrical means.

**China's Soft Power and Higher Education in South Asia** Romi Jain, 2021-05-17 This empirical work illuminates how China uses the higher education mechanism in South Asia to advance its national interests and investigates the outcomes for China, including both challenges and opportunities. Using a soft power theoretical framework, this book employs the case study of Nepal, a South Asian country of profound geostrategic value for the two competing powers of China and India. Illustrating how higher education is the mechanism for achieving soft power goals, it draws on data analysis based on archival sources and interviews with China and South Asia experts, including academics and politico-bureaucratic elites, as well as interviews with Nepalese students and alumni. Importantly though, this book advances an innovative conceptual model of geointellect to trace the evolving dimensions of China's global dominance in higher education, research, and innovation paradigm, especially in the context of the Belt and Road Initiative and ultimately reveals how foreign policy and higher education policy reinforce each other in the context of China. China's Soft Power and Higher Education in South Asia provides an empirically rich resource for students and scholars of education, international relations, Asian studies, and China's soft

power.

Lesser-Known Languages of South Asia Anju

Saxena, Lars Borin, 2008-08-22 The increasing globalization and centralization in the world is threatening the existence of a large number of smaller languages. In South Asia some locally dominant languages (e.g., Hindi, Urdu, Nepali) are gaining ground beside English at the expense of the lesser-known languages. Despite a long history of stable multilingualism, language death is not uncommon in the South Asian context. We do not know how the language situation in South Asia will be affected by modern information and communication technologies: Will cultural and linguistic diversity be strengthened or weakened as they become increasingly prevalent in all walks of life? This volume brings together areas of research that so far do not interact to any significant extent: traditional South Asian descriptive linguistics and sociolinguistics, documentary linguistics, issues of intellectual and cultural property and fieldwork ethics, and language technology. Researchers working in the areas of documentary linguistics and language technology have become aware of each other in the last few years, and of how work in the other area could be potentially useful in furthering their own aims. Similarly, the insights of documentary linguistics are making their way into descriptive linguistics and sociolinguistics. However, the potential for synergy among these areas of research is almost limitless. This volume provides the reader, not so much with a do-it-yourself recipe for applying modern technology to the problem of language shift in South Asia

today, but rather with some basic knowledge about the problems involved and some directions from which solutions could be forthcoming, a toolbox rather than a blueprint, for helping to shape the linguistic future of South Asia.
