David Matthews

Calendars of India Dr Vinod K. Mishra,2020-01-01 Calendars are created by civilisations to give meaning to the continuous flow of time according to their world-views. Over the past millennia, India has developed its own unique collection of many calendars for regulating its religious and cultural life. The current book presents a comprehensive account of their structure and relative importance at the present time and places them in the context of other calendars prevalent outside India. Suggestions have also been made for making some changes to bring them in line with our current astronomical knowledge. This book will be very useful to students and anyone who is curious about calendars.

Masculinity and Modern Slavery in Nepal Matthew Maycock, 2018-12-21 South Asia is the region with the highest number of slaves globally according to the Global Slavery Index. Bonded labour affects between 15 and 20 million labourers within the region, and is shaped by locally specific interconnections between ethnicity, class, caste and, critically, gender structures. *Masculinity and Modern Slavery in Nepal* explores the role of masculinity in shaping the structures and experience of slavery and subsequent freedom. While many I/NGOs and human rights organisations use freedom from slavery as a powerful and emotive goal, the lived reality of freedom for many bonded labourers often results in disappointment and frustration as they navigate diverse expectations of masculinity. Taking Nepal as a case study, the book illustrates how men's gendered experiences of bondedness and freedom can inform perspectives on the transition to freedom and modernity in South Asia more broadly. Researchers of modern slavery, gender studies, and South Asian studies will be interested in the rich analysis on offer in this book.

Cultural Expertise and Litigation Livia Holden, 2011-05-30 *Cultural Expertise and Litigation* addresses the role of social scientists as a source of expert evidence, and is a product of their experiences and observations of cases involving litigants of South Asian origin. What is meant in court by culture, custom and law? How are these concepts understood by witnesses, advocates, judges and litigants? How far are cross-cultural understandings facilitated - or obscured - in the process? What strategies are adopted? And which ones turn out to be successful in court? How is cultural understanding - and misunderstanding - produced in these circumstances? And how, moreover, do the decisions in these cases not only reflect, but impact, upon the law and the legal procedure? *Cultural Expertise and Litigation* addresses these questions, as it elicits the patterns, conflicts and narratives that characterize the legal role of social scientists in a variety of de facto plural settings - including immigration and asylum law, family law, citizenship law and criminal law.

Course in Nepali David Matthews, 2013-01-11 Nepali has also been adopted by peoples of the Himalayan region who belong to different linguistic groups, and is now understood throughout the whole of Nepal, the Darjeeling region of West Bengal, Sikkim, Bhutan and parts of Tibet, where it has functioned as a language of trade and commerce for well over two centuries. The aim of this course, which covers the whole grammar and all the constructions of modern Nepali, is to present a full description of both the spoken and written forms of modern standard Nepali, and to enable the student to understand, speak and read most types of Nepali he or she is likely to encounter. The earlier lessons concentrate mainly on the spoken style, and the conversation passages whilst the later lessons concern religious, political and literary topics. Nepal is a land which already provides great enjoyment to the increasing number of visitors from the west. A knowledge of the language leads to a deeper understanding of the culture of its people, and the object of *A Course in Nepali* is to provide the means of learning it without much difficulty. Earlier editions of this course have been the standard book for students at the School of Oriental and African Studies, and it is without question the established market leader.

A Course in Nepali David Matthews, 1998 This course, covering the full grammar and all constructions of modern Nepali, presents a full description of written and spoken Nepali, enabling students to understand, speak and read most types of Nepali encountered today.

Historical Dictionary of Nepal Nanda R. Shrestha, 2017-02-10 Nepal is a living example of contrasts and contradictions. It is a country that was born in medieval times, grew up in the 16th century, and now finds itself engulfed in the high-tech gadgets and material marvels of the 21st century. Nepal has its share of problems which include inadequate economic development and social infrastructure, poverty and corruption, plus worsening pollution, but now it finally has relative peace and quiet after a hasty Maoist uprising. Indeed, it has passed through several democratic elections, and finally seems to be getting on the right track. This second edition of *Historical Dictionary of Nepal* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Nepal.

The Role of Renewable Energy Technology in Holistic Community Development Alexander Zahnd, 2014-01-25 This thesis documents almost twenty years of the author's work on the development and implementation of a new approach to holistic community development in remote and disadvantaged villages in Nepal. It describes the theoretical basis of the work, the main research activities, and the practical outcomes of the implemented programs. One of the fundamental cornerstones of holistic community development is the provision of appropriate and sustainable solutions for the long-term development of local communities. This requires that people's own identified needs be recognized and addressed in partnership with them in holistic ways. The author explains the many synergies that result from this holistic approach to community development. Another cornerstone of his approach is to utilise the communities' locally available renewable resources for long-term sustainable development. One of the key findings of the thesis is that improved access to energy services, such as cooking with a smokeless metal stove in a clean indoor environment, basic indoor lighting, and increased food production and safe food storage (through a greenhouse and a solar drier respectively), need to be at the very heart of any long-term holistic community development project. The thesis demonstrates that tapping into locally available renewable energy resources and converting them, through contextualized and locally manufactured renewable energy technologies, has a central role in

long-term holistic community development programs. Such programs are successful because they provide both appropriate technologies and life-changing experiences for the local users involved.

Countering Insurgencies and Violent Extremism in South and South East Asia Shanthie Mariet D'Souza,2019-01-08 This volume of case studies examines the rise in violent extremism, terrorism and insurgency in South and South East Asia, and subsequent state responses. The South and South East of Asia has experienced various forms of extremism and violence for years, with a growing demand for academic or policy-relevant work that will enhance understanding of the reasons behind this. The violent challenges in this area have taken a variety of forms and are often exacerbated by lack of governance, tie-ins to existing regional criminal networks,

colonial legacies and a presence of international terrorist movements. Written by experts with field experience, this volume analyzes the key element of successful response as the appropriate application of doctrine following nuanced assessment of threat. In practice, this often means counterinsurgency doctrine. The essays also analyze the need for irregular war practitioners to systematically examine the changing character of intrastate violent irregular challenges. The volume fills a gap in the understanding of patterns, drivers, organizations and ideologies of various insurgent and terrorist groups, and state responses. It also provides a set of recommendations for addressing the unfolding situation. This book will be of much interest to students of terrorism and political violence, counterinsurgency and counterterrorism, Asian politics and security studies in general.
