Netflix, Dark Fantastic Genres and Intergenerational Viewing

Djoyimi Baker, Jessica Balanzategui, Diana Sandars, 2023-07-04 Focusing on Netflix's child and family-orientated platform exclusive content, this book offers the first exploration of a controversial genre cycle of dark science fiction, horror, and fantasy television under Netflix's Family Watch Together TV tag. Using a ground-breaking mix of methods including audience research, interface, and textual analysis, the book demonstrates how Netflix is producing dark family telefantasy content that is both reshaping child and family-friendly TV genres and challenging earlier broadcast TV models around child-appropriate family viewing. It illuminates how Netflix encourages family audiences to watch together through intergenerational dynamics that work on and offscreen. The chapters in this book explore how this Netflixication of family television developed across landmark examples including *Stranger Things*, *A Series of Unfortunate Events*, *The Dark Crystal: Age of Resistance*, and even *Squid Game*. The book outlines how Netflix is consolidating a new dark family terrain in the streaming sector, which is unsettling older concepts of family viewing, leading to considerable audience and critical confusion around target audiences and viewer expectations. This book will be of particular interest to upper-level undergraduates, graduates, and scholars in the fields of television studies, screen genre studies, childhood studies, and cultural studies.

Netflix and the Re-invention of Television Mareike

Jenner, 2018-07-24 This book deals with the various ways Netflix reconceptualises television as part of the process of TV IV. As television continues to undergo a myriad of significant changes, Netflix has proven itself to be the dominant force in this

development, simultaneously driving a number of these changes and challenging television's existing institutional structures. This comprehensive study explores the pre-history of Netflix, the role of binge-watching in its organisation and marketing, and Netflix's position as a transnational broadcaster. It also examines different concepts of control and the role these play in the history of ancillary technologies, from the remote control to binge-watching as Netflix's iteration of giving control to the viewers. By focusing on Netflix's relationship with the linear television schedule, its negotiations of quality and marketing, as well as the way Netflix integrates into national media systems, *Netflix and the Re-invention of Television* illuminates the importance of Netflix's role within the processes of TV IV.

Netflix and Streaming Video Amanda D. Lotz, 2022-07-22 Netflix and Streaming Video is the first book to provide a comprehensive foundation for understanding the business of subscriber-funded streaming video and its implications for the role of these services in culture. Drawing on Lotz's two decades of research, it highlights the similarities and differences among streaming video services (Netflix; Amazon) and video distribution technologies (broadcast; satellite; internet). Making a number of provocative and thought-provoking arguments, the book first reveals how the reliance on subscriber payment and video on demand produces different norms and strategies compared to previous video businesses. It then investigates Netflix and how its particular blend of characteristics distinguishes it from other subscriber-funded video on demand services. The author expertly shows that, by understanding the underlying economic and technological dynamics of these services (and their differences), it is possible to better assess the actions taken by the companies and what

the future of video may encompass. The book is a must-read for students and scholars of Media and Communications Studies, as well as those wishing to learn more about Netflix and streaming video services.

Netflix's Speculative Fictions Colin Jon Mark Crawford, 2020-12-10
Netflix's Speculative Fictions: Financializing Platform Television argues that Netflix's scaled expansion has hinged upon its ability not only to create, but more importantly to communicate, new forms and flows of potential value in platform capitalism, wherein capital is mobilized not only from direct revenue streams but also the new value assigned to inputs and investments of data, debt, attention, behavior, taste, time, sociality, and speculation. To interpret and critique these new communications and projections of value, Colin Jon Mark Crawford performs a discursive analysis of the platform television industry leader Netflix and its 'investor lore': the multi-sited narrative of value found in the company's investor relations materials and corporate communications, such as letters to shareholders, financial earnings reports, executive interviews, press releases, and blog posts. Netflix best represents the increasingly ubiquitous nexus of culture, tech, and finance industries that is platform television. To better understand the emergent financial logics of this relatively new media industry, we must first understand the speculative narratives and discourses of value which organize it. Scholars of media studies, television studies, technology studies, and economics will find this book particularly useful.

Complex Serial Drama and Multiplatform Television Trisha Dunleavy, 2017-11-22 This book examines the creative strategies, narrative characteristics, industrial practices and stylistic tendencies of complex serial drama. Exemplified by shows like HBO's *The Sopranos*,

AMC's *Mad Men* and *Breaking Bad*, Showtime's *Dexter*, and Netflix's *Stranger Things*, complex serials are distinguished by their conceptual originality, narrative complexity, transgressive lead characters and serial allure. As a drama form that continues to expand and diversify in today's television, HBO's *Boardwalk Empire* and *Game of Thrones*, Netflix's *Orange Is the New Black* and Hulu's *The Handmaid's Tale* provide further examples. Dunleavy investigates the strategies that underpin the innovations, influence and success of complex serial drama, giving students and scholars a nuanced understanding of this contemporary TV form.

Digital Media Distribution Paul McDonald, Courtney Brannon Donoghue, Timothy Havens, 2021-09-07 This book examines the current state of global media distribution today, including legacy and born-digital media industries, and the social, cultural, and economic impact of the digital distribution ecosystem--

The Design of Sites van Duyne (Douglas K.), James A. Landay, Jason I. Hong, 2003 Creating a Web site is easy. Creating a well-crafted Web site that provides a winning experience for your audience and enhances your profitability is another matter. It takes research, skill, experience, and careful thought to build a site that maximizes retention and repeat visits.

Sulwe Lupita Nyong'o, 2019-10-15 A New York Times bestseller! Featured in its own episode in the Netflix original show *Bookmarks: Celebrating Black Voices!* Recipient of a Coretta Scott King Illustrator

Honor Award Recipient of an NAACP Image Award for Outstanding Children's Literary Work From Academy Award–winning actress Lupita Nyong'o comes a powerful, moving picture book about colorism, self-esteem, and learning that true beauty comes from within. Sulwe has skin the color of midnight. She is darker than everyone in her family. She is darker than anyone in her school. Sulwe just wants to be beautiful and bright, like her mother and sister. Then a magical journey in the night sky opens her eyes and changes everything. In this stunning debut picture book, actress Lupita Nyong'o creates a whimsical and heartwarming story to inspire children to see their own unique beauty.

Handbook of Research on Smart Management for Digital Transformation Barbosa, Belem,Filipe, Sandra,Santos, Claudia Amaral,2022-03-11 In a global and digital society, businesses are constantly being challenged by innovative and disruptive management strategies. The dramatic changes that took place in all corners of the world during the COVID-19 pandemic confirmed that companies need to update their resources and anticipate trends. The current changes introduced by digitalization offer endless innovation scenarios and strategic opportunities to companies but also demand an accurate and structured analysis of drivers, motivations, and determinants for success in this transformation. The Handbook of Research on Smart Management for Digital Transformation analyzes the drivers of digital transformation in businesses and assesses digital transformation success factors in the short, medium, and long run. This critical reference source is comprised of theoretical and empirical chapters as well as case studies on digital adoption by companies in different business sectors. Covering topics such as brand messaging, digital media platforms, and success determinants, this book is an

essential resource for managers, researchers, educators of higher education, business students, digital strategists, business associations, communication and marketing agencies, entrepreneurs, and academicians.

Global TV Horror Stacey Abbott, Lorna Jowett, 2021-03-01 The Horror genre has become one of the most popular genres of TV drama with the global success and fandom surrounding *The Walking Dead*, *Supernatural* and *Stranger Things*. Horror has always had a truly international reach, and nowhere is this more apparent than on television as explored in this provocative new collection looking at series from across the globe, and considering how Horror manifests in different cultural and broadcast/streaming contexts. Bringing together established scholars and new voices in the field, *Global TV Horror* examines historical and contemporary TV Horror from Australia, Brazil, Canada, Denmark, France, Iran, Japan, Spain, New Zealand, USA and the UK. It expands the discussion of TV Horror by offering fresh perspectives, examining new shows, and excavating new cultural histories, to render what has become so familiar – Horror on television – unfamiliar yet again.

Handbook of Research on Transmedia Storytelling, Audience Engagement, and Business Strategies Hernández-Santaolalla, Víctor, Barrientos-Bueno, Mónica, 2020-04-24 As media evolves with technological improvement, communication changes alongside it. In particular, storytelling and narrative structure have adapted to the new digital landscape, allowing creators to weave immersive and enticing experiences that captivate viewers. These experiences have great potential in marketing and advertising, but the medium's methods are so young that their potential and effectiveness is not yet fully understood. *Handbook of Research on Transmedia Storytelling*,

Audience Engagement, and Business Strategies is a collection of innovative research that explores transmedia storytelling and digital marketing strategies in relation to audience engagement. Highlighting a wide range of topics including promotion strategies, business models, and prosumers and influencers, this book is ideally designed for digital creators, advertisers, marketers, consumer analysts, media professionals, entrepreneurs, managers, executives, researchers, academicians, and students.

Digital Platforms and the Global South Philippe

Bouquillion,Christine Ithurbide,Tristan Mattelart,2023-12-01 This book addresses the issues raised by digital platforms in the Global South, with an emphasis on the cultural stakes involved. It brings together an interdisciplinary team of researchers – including political economists, socio-economists, geographers, media sociologists or anthropologists – who each explore these issues through an insightful case study at a local, national, regional or international scale. While studying the strategies of some of the main US-based Big Tech platforms or video streaming platforms towards the Global South, the chapters also consider the often-neglected active role local or regional actors play in the expansion of those Western digital players, and highlight the existence of a constellation of local or regional platforms that have emerged in Africa, Asia, Latin America or the Middle East. In addition to analysing the complex relationships of competition, collaboration or dependence between these diverse actors, this volume examines the ways in which the rise of these digital platforms has generated new forms of cultural entrepreneurship and participated in the reconfiguring of the conditions in which cultural contents are produced and circulated in the Global South. This volume will appeal to readers interested in the transnationalisation of cultural industries or

in the social, political, economic, cultural and geopolitical dimensions of digital transformations and will be an important resource for students, teachers and researchers in media, communication, cultural studies, international relations and area studies programmes.

Netflix Nostalgia Kathryn Pallister, 2019-04-15 Netflix Nostalgia examines Netflix as both a creator and a distributor of nostalgic content, with contributions from scholars from around the world. The chapters examine the role of nostalgia in Netflix's brand identity, ideological messages about nostalgia in Netflix content, and audience responses to nostalgia on the Netflix platform.

Winning the Long Game Steven Krupp, Paul J.H.

Schoemaker, 2014-12-02 Are you winning the battle but losing the war? Every leader has to deliver the goods—make budget, meet deadlines, and deftly manage people—to provide the inspirational fuel that keeps their business running day-in and day-out. But therein lies the danger of winning today's battle and losing the war—that is the long game of creating sustainable value in a volatile, uncertain world that is becoming ever-more complex and ambiguous. The greater purpose—today's number one business challenge—is winning the long game by being more strategic; developing the skills to look outside the four walls of the organization and see the world from the future back. Steven Krupp and Paul J. H. Schoemaker bridge the gap between what many see as the separate domains of strategy and leadership to show how to develop the discipline of strategic leadership in a world of growing uncertainty. While pragmatic to the core, *Winning the Long Game* creates vivid insights into the discipline of strategic leadership by applying it systemically through personal portraits of successful business leaders. The book profiles Elon Musk, Richard Branson, and Sara Blakely, as well as world-renowned figures like

Pope Francis, Oprah Winfrey, and Nelson Mandela. What makes these strategic leaders successful is highlighted by contrasting them with others who are either mediocre or outright failures. Winning the Long Game is the must-have playbook for every leader and for any manager seeking to become more strategic in today's topsy-turvy world.

The Netflix Effect Kevin McDonald, Daniel Smith-Rowsey, 2018-02-22 Netflix is the definitive media company of the 21st century. It was among the first to parlay new Internet technologies into a successful business model, and in the process it changed how consumers access film and television. It is now one of the leading providers of digitally delivered media content and is continually expanding access across a host of platforms and mobile devices. Despite its transformative role, however, Netflix has drawn very little critical attention-far less than competitors such as YouTube, Apple, Amazon, Comcast, and HBO. This collection addresses this gap, as the essays are designed to critically explore the breadth and diversity of Netflix's effect from a variety of different scholarly perspectives, a necessary approach considering the hybrid nature of Netflix, its inextricable links to new models of media production, distribution, viewer engagement and consumer behavior, its relationship to existing media conglomerates and consumer electronics, its capabilities as a web-based service provider and data network, and its reliance on a broader technological infrastructure.

Adaptive Marketing Norm Johnston, 2015-09-28 Adapt or die is really the 21st century mantra for business. Authors Norm Johnston provides guidance on how to adopt an Adaptive Marketing model to ensure you are not only prepared for this new data world, but also winning against both traditional competitors and new disrupters.

Netflix Recommends Mattias Frey, 2021-10-05 Introduction --

Why we need film and series suggestions -- How algorithmic recommender systems work -- Cracking the code, part I : developing Netflix's recommendation algorithms -- Cracking the code, part II : unpacking Netflix's myth of big data -- How real people choose films and series -- Afterword : robot critics vs. human experts -- Appendix : designing the empirical audience study.

Netflixd Gina Keating, 2012-10-11 Netflix has come a long way since 1997, when two Silicon Valley entrepreneurs, Marc Randolph and Reed Hastings, decided to start an online DVD store before most people owned a DVD player. They were surprised and elated when launch-day traffic in April 1998 crashed their server and resulted in 150 sales. Today, Netflix has more than 25 million subscribers and annual revenues above \$3 billion. Yet long-term success-or even survival-is still far from guaranteed. Journalist Gina Keating recounts the absorbing, fast-paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business. First it engaged in a grueling war against video-store behemoth Blockbuster, transforming movie rental forever. Then it jumped into an even bigger battle for online video streaming against Google, Hulu, Amazon, and the big cable companies. Netflix ushered in such innovations as DVD rental by mail, a patented online queue of upcoming rentals, and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals. Yet for all its success, Netflix is still a polarizing company. Hastings is often heralded as a visionary-he was named Business Person of the Year in 2010 by Fortune-even as he has been called the nation's worst CEO. Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever. The quest to become

the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet. Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter, Keating makes this tale as absorbing as it is important.
