**Access Network Speed Tests** Organisation for Economic Co-operation and Development,2014 This report examines the approaches being taken to measure broadband performance by reviewing information on official speed tests to date as well as their strengths and drawbacks in methodologies, emerging good practices and the challenges in undertaking a harmonised approach across OECD countries. Measurement projects for Internet connection performance face greater potential hurdles than for traditional telecommunication networks, while at the same time, new opportunities are emerging in terms of crowd-sourced data collected through applications installed by users. The report provides classification of those measurement approaches with suggestions on how they can be selected and implemented depending on different policy goals.

**Broadband Speed** Martin Laurence,2015-09-14 Have you ever had frustratingly slow Broadband? Did you know that your very house; the architecture, how far away you are from your Router or even your phone line could be causing the slowdowns? I explain the various methods, simplistic, yet innovative ways to get the maximum from your Internet connection that anyone can do. 7 Reasons you can become the MacGyver of your home Broadband with the tips and tricks provided in this book: 1) Introduction to Broadband Speed Problems 2) How to Know if your Phone Line is Working Correctly 3) Learn the difference between Hard-Wiring and Wi-Fi 4) List of Equipment and Tools - many of which you'll have to do the job 5) Guide of How to Move your Router in your House 6) Guide of How to cable direct from your Router to your computer 7) All connections and Testing We

spend a huge amount of our time on the internet both work and socially and when it goes wrong it can cause chaos. But this doesn't mean you can't solve the problems yourself. From moving your Router to cabling a hard-wired link, your entire online life will change once you learn these hacks. As a Data and Telecommunications Engineer for over 15 years I've encountered almost every type of problem many people are struggling with their broadband. One of the biggest speed restrictions is Wi-Fi. Did you know Wi-Fi is an incredibly ineffective way of using the Internet? In most cases it's the house that is the problem; thick walls, perhaps there's metal inside the construction, multiple floors, and/or you may simply be out of range. This is common if your Router is at the front of the house and you're trying to use a computer at the rear of the house. The signal can't reach that far. So I explain the various solutions which are to move your Router or Hard-Wire a cable from the Router direct to your computer. I go into what equipment you will need to cable to the data socket, the actual data cabling - looking for the best cable route, what to avoid, and neatness. I go into connecting your new socket and finally testing. The simple aim of this book is to give someone a simple "How to" to max out your broadband speed. Chapters Cover: 1. Introduction to Broadband Problems 2. Line Quality 3. Checking Your Optimal Speed 4. Hard-Wiring Vs Wi-Fi 5. Using Only Wi-Fi and Maximising it 6. Equipment Needed to Move Hard-Wire a Data link 7. Equipment Needed to Move the Router 8. Preparation 9. Cabling from the Router - Data Sockets 10. Moving the Router - A New Socket 11. Connecting a Data Cable 12. Connecting a Line Socket 13. Testing the Hard-Wired Socket 14. Testing the Router 15. Faster and Finished! So number 1 before we even get into the rest of the book - let's check our Broadband speed right now. With everything

as it is, what ever you're using - W-Fi or Hard-Wiring. You can go onto websites like 'Speed Checker' and it will tell you your maximum 'Upload' and 'Download' speed. This is a barometer for us to know where we stand right now and gives us a guide as to how much we can improve. Write both numbers down. Okay done that? We now have our current speed - now let's improve it! Download your copy of 'How To Maximize Router Speed' to learn these innovative ideas, tips, and tricks of getting the maximum speed from your Broadband. Spending thousands on engineers to come out isn't necessary when you can follow these secrets. Scroll up and grab a copy.

ITNG 2021 18th International Conference on Information Technology-New Generations Shahram Latifi,2021-06-04 This volume represents the 18th International Conference on Information Technology - New Generations (ITNG), 2021. ITNG is an annual event focusing on state of the art technologies pertaining to digital information and communications. The applications of advanced information technology to such domains as astronomy, biology, education, geosciences, security, and health care are the among topics of relevance to ITNG. Visionary ideas, theoretical and experimental results, as well as prototypes, designs, and tools that help the information readily flow to the user are of special interest. Machine Learning, Robotics, High Performance Computing, and Innovative Methods of Computing are examples of related topics. The conference features keynote speakers, a best student

award, poster award, service award, a technical open panel, and workshops/exhibits from industry, government and academia. This publication is unique as it captures modern trends in IT with a balance of theoretical and experimental work. Most other work focus either on theoretical or experimental, but not both. Accordingly, we do not know of any competitive literature.

**High-Performance IT Services** Terry Critchley,2016-10-04 This book on performance fundamentals covers UNIX, OpenVMS, Linux, Windows, and MVS. Most of the theory and systems design principles can be applied to other operating systems, as can some of the benchmarks. The book equips professionals with the ability to assess performance characteristics in unfamiliar environments. It is suitable for practitioners, especially those whose responsibilities include performance management, tuning, and capacity planning. IT managers with a technical outlook also benefit from the book as well as consultants and students in the world of systems for the first time in a professional capacity.
