Stalingrad To Berlin - The German Defeat In The East [Illustrated Edition] Earl F. Ziemke, 2014-08-15 Contains 72 illustrations and 42 maps of the Russian Campaign. After the disasters of the Stalingrad Campaign in the Russian winters of 1942-3, the German Wehrmacht was on the defensive under increasing Soviet pressure; this volume sets out to show how did the Russians manage to push the formerly all-conquering German soldiers back from Russian soil to the ruins of Berlin. Save for the introduction of nuclear weapons, the Soviet victory over Germany was the most fateful development of World War II. Both wrought changes and raised problems that have constantly preoccupied the world in the more than twenty years since the war ended. The purpose of this volume is to investigate one aspect of the Soviet victory-how the war was won on the battlefield. The author sought, in following the march of the Soviet and German armies from Stalingrad to Berlin, to depict the war as it was and to describe the manner in which the Soviet Union emerged as the predominant military power in Europe.

Moscow To Stalingrad - Decision In The East [Illustrated Edition] Earl F. Ziemke, 2014-08-15 Contains 92 illustrations and 45 maps of the Russian Campaign. A brilliant modern history of the German invasion of Russia to their bloody crushing defeat by the re-invigorated Russian forces at the siege of Stalingrad. During 1942, the Axis advance reached its high tide on all fronts and began to ebb. Nowhere was this more true than on the Eastern Front in the Soviet Union. After receiving a disastrous setback on the approaches to Moscow in the winter of 1941-1942, the German armies recovered sufficiently to embark on a sweeping summer offensive that carried them to the Volga River at Stalingrad and deep into the Caucasus Mountains. The Soviet armies suffered severe defeats in the spring and summer of 1942 but recovered to stop the German advances in October and encircle and begin the destruction of the German Sixth Army at Stalingrad in November and December. This volume describes the course of events from the Soviet December 1941 counteroffensive at Moscow to the Stalingrad offensive in late 1942 with particular attention to the interval from January through October 1942, which has been regarded as a hiatus between the two major battles but which in actuality constituted the period in which the German fortunes slid into irreversible decline and the Soviet forces acquired the means and capabilities that eventually brought them victory. These were the months of decision in the East.

Moscow to Stalingrad Earl F. Ziemke,Magna E. Bauer,1987 The second of a three-volume history of the German-Soviet conflict in World War II. In this volume, the German and Soviet forces initially confront each other on the approaches to Moscow, Leningrad, and Rostov in the late-1941 battles that produced the first major German setbacks of the war and gave the Soviet troops their first tastes of success. Later, the pendulum swings to the Germans' side, and their armies race across the Ukraine and into the Caucasus during the summer of 1942. In the course of a year, the Soviet Command goes from offensive to defensive and, finally, at Stalingrad, decisively to the offensive--meanwhile, frequently in desperate circumstances, building the strength and proficiency that will enable it to mount the relentless thrusts of the succeeding years. --Foreword.
