Indian Nobel Laureates Arun Anand, 2013-01-01 Indian Nobel Laureates Established by the philanthropist inventor Alfred Nobel, the Nobel Prize is awarded for exemplary work in different fields. Since its inception in 1895, the recipients of this prize have been from various countries. Many Indians too have received this prestigious award. In this book the life and achievements of all those Indians who have won the Nobel Prize has been diligently accounted. The one common thread that runs through their lives is the unflinching determination to pursue something, surmounting all odds and achieving the seemingly impossible. Their achievement is commendable proving that where there is a will there is a way. The lives of these great achievers are truly inspiring.

The Nobel Prize Agneta Wallin Levinovitz, Nils Ringertz, 2001-08-14 The Nobel Prize, as founded in Alfred Nobel's will, was the first truly international prize. There is no other award with the same global scope and mission. The Nobel Prizes in Physics, Chemistry, Physiology or Medicine, Literature, Peace, and the Bank of Sweden Prize in Economic Sciences (from 1969) have not only captured the most significant contributions to the progress of mankind, they also constitute distinct markers of the major trends in their respective areas. The main reason for the prestige of the Prize today is, however, the lasting importance of the names on the list of Laureates and their contributions to human development. In celebration of the centennial of the Nobel Prize in 2001, this book offers a clear perspective on the development of human civilization over the past hundred years. The book serves to present the major trends and developments and also provide information about the life and philosophy of Alfred Nobel, the history of the Nobel Foundation, and the procedure for nominating and selecting Nobel Laureates. Contents: Introduction (M Sohlman) Life and Philosophy of Alfred Nobel (T Frängsmyr) The Nobel Foundation: A Century of Growth and Change (B Lemmel) Nomination and

Keywords:Reviews:“This wonderful book gives a comprehensive review of the Nobel prizes awarded since 1901 ... The Beginner's Guide to Winning the Nobel Prize Peter Doherty, 2006 In The Beginner's Guide to Winning the Nobel Prize, Doherty recounts his unlikely path to becoming a Nobel Laureate. Beginning with his humble origins in Australia, he tells how he developed an interest in immunology

and describes his award-winning, influential work with Rolf Zinkernagel on T-cells and the nature of immune defense. In prose that is at turns amusing and astute, Doherty reveals how his nonconformist upbringing, sense of being an outsider, and search for different perspectives have shaped his life and work. Doherty offers a rare, insider's look at the realities of being a research scientist. He lucidly explains his own scientific work and how research projects are selected, funded, and organized; the major problems science is trying to solve; and the rewards and pitfalls of a career in scientific research. For Doherty, science still plays an important role in improving the world, and he argues that scientists need to do a better job of making their work more accessible to the public. Throughout the book, Doherty explores the stories of past Nobel winners and considers some of the crucial scientific debates of our time, including the safety of genetically modified foods and the tensions between science and religion. He concludes with some tips on how to win a Nobel Prize, including advice on being persistent, generous, and culturally aware, and he stresses the value of evidence. The Beginner's Guide to Winning the Noble Prize is essential reading for anyone interested in a career in science.

VS Naipul's India Vasant S. Patel, 2005 The book V.S. Naipaul's India-A Reflection is an interesting and comprehensive analysis of India presented by V.S. Naipaul, a Nobel laureate in his books An Area of Darkness, India-A Wounded Civilization and India-Million Mutinies Now. This book reflects the views and approach of V.S. Naipaul to Indian Life and Culture. The book presents a remarkable and thorough socio-political analysis. The book also gives an analysis of V.S. Naipaul's style. The Swedish Academy awards him the Nobel Prize for writing about 'Peripheral People' with 'suppressed histories'. The book shows that he is primarily concerned with displaced individuals, with uprooted immigrants without 'home' but longing for home. This book thoroughly examines sociopolitical forces that threaten the very existence of Indian democracy and secularism in India. In addition, his observation is apt and largely expectable. What other writers may narrate in a dozen of pages Naipaul's can do in just a paragraph or a page. Naipaul uses minimum sentences to produce maximum effect. In short, this book on Naipaul's non-fiction on India is comprehensive and effective. It is in no way laudatory, it points out the drawbacks of Naipaul's misunderstanding of Indian leaders, be he Gandhiji or Jay Prakash Narayan. Fifth Chapter, 'Some Errors in Naipaul's Observations on India'

is very insightful and factual.

Gitanjali Rabindranath Tagore,2017-06-25T16:22:32Z Widely regarded as one of the most important figures in Indian (and more specifically Bengali) literary history, Rabindranath Tagore was the first Indian—indeed, the first person outside Europe—to win the Nobel Prize in Literature, largely in recognition of his “spiritual offering of songs,” Gitanjali. Tagore himself translated the poems from the original Bengali, taking many liberties in the process. His English translation is rightly recognized as a work distinct from the Bengali original, consisting of major revisions, many elisions, and many poems originally published in other collections. Tagore’s lyrical simplicity, vivid imagery, and themes of nature, spirituality, death, and transcendence combine to produce a truly unique, powerfully moving work of thoughtful beauty. For many who read it, Tagore’s words in Song XCVI ring true: “What I have seen is unsurpassable. I have tasted of the hidden honey of this lotus that expands on the ocean of light, and thus I am blessed.” This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Nobel Prizes and Life Sciences Erling Norrby,2010 The Nobel Prizes in natural sciences have achieved the reputation of being the ultimate accolade for scientific achievements. This book gives a unique insight into the selection of Nobel Prize recipients, in particular the life sciences. The evolving mechanisms of selection of prize recipients are illustrated by reference to archives, which have remained secret for 50 years. Many of the prizes subjected to particular evaluation concern awards given for discoveries in the field of infectious diseases and the interconnected field of genetics. The book illustrates the individuals and environments that are conducive to scientific creativity. Nowhere is this enigmatic activity-- the mime mover in advancing the human condition highlighted as lucidly

as by identification individuals worthy of Nobel Prizes. --Book Jacket.

Banker To The Poor Muhammad Yunus, 2007-03-31 The inspirational story of how Nobel Prize winner Muhammad Yunus invented microcredit, founded the Grameen Bank, and transformed the fortunes of millions of poor people around the world. Muhammad Yunus was a professor of economics in Bangladesh, who realized that the most impoverished members of his community were systematically neglected by the banking system -- no one would loan them any money. Yunus conceived of a new form of banking -- microcredit -- that would offer very small loans to the poorest people without collateral, and teach them how to manage and use their loans to create successful small businesses. He founded Grameen Bank based on the belief that credit is a basic human right, not the privilege of a fortunate few, and it now provides \$24 billion of micro-loans to more than nine million families. Ninety-seven percent of its clients are women, and repayment rates are over 90 percent. Outside of Bangladesh, micro-lending programs inspired by Grameen have blossomed, and serve hundreds of millions of people around the world. The definitive history of micro-credit direct from the man that conceived of it, Banker to the Poor is the moving story of someone who dreamed of changing the world -- and did.

Poor Economics Abhijit V. Banerjee, Esther Duflo, 2012-03-27 The winners of the Nobel Prize in Economics upend the most common assumptions about how economics works in this gripping and disruptive portrait of how poor people actually live. Why do the poor borrow to save? Why do they miss out on free life-saving immunizations, but pay for unnecessary drugs? In *Poor Economics*, Abhijit V. Banerjee and Esther Duflo, two award-winning MIT professors, answer these questions based on years of field research from around the world. Called marvelous, rewarding by the Wall Street Journal, the book offers a radical rethinking of the economics of poverty and an intimate view of life on 99 cents a day. *Poor Economics* shows that creating a world without poverty begins with understanding the daily decisions facing the poor.
