Fricke,H. Hefele,I. Heinrich,W. Hofmann,D.

Zech,2013-12-14 Astronomy and Astrophysics  
Abstracts, which has appeared in semi-annual  
volumes since 1969, is devoted to the recording,  
summarizing and indexing of astronomical  
publications throughout the world. It is prepared  
under the auspices of the International  
Astronomical Union (according to a resolution  
adopted at the 14th General Assembly in 1970).  
Astronomy and Astrophysics Abstracts aims to

present a comprehensive documentation of literature in all fields of astronomy and astrophysics. Every effort will be made to ensure that the average time interval between the date of receipt of the original literature and publication of the abstracts will not exceed eight months. This time interval is near to that achieved by monthly abstracting journals, compared to which our system of accumulating abstracts for about six months offers the advantage of greater convenience for the user. Volume 31 contains literature published in 1982 and received before July 15, 1982; some older literature which was received late and which is not recorded in earlier volumes is also included. We acknowledge with thanks contributions to this volume by Dr. J. Bouska, Prague, who surveyed journals and publications in Czech and supplied us with abstracts in English .
