No Prob-Llama Llamadrama Planner,2018-12-24 Get it Done with this no frills 150 page, four month daily planner that is designed to empower you to set goals, reflect, plan your life by day, week, month or year. We've found that by planning ahead and writing down your goals in small increments you are better prepared to accomplish your projects and achievements. In this planner you'll start off with a year view, followed by four months of 2019: September, October, November, December. Then we break it down to a week view, followed by your daily pages. Month Use the month view to plan your monthly goals and projects as well as log important dates and appointments. Week Then in the beginning of each week you'll have a page to plan your week ahead with three sections: Goals, Chores, and Gratitude. Keep your goals short and attainable. Nobody likes chores bogging you down while you're trying to be your best self. You can prioritize these chores by listing them in the beginning of the week so you know what you have ahead of you. Lastly, an attitude of gratitude can take you a long way! Day Your day view is broken down by the hour from 6 am to 8 pm so you can block out specific hours in the day. Be as strict or as lenient as you like. The ink on the pages is a light grey so you should have no problem coloring outside the lines. You will also find an area on this page for tasks as well as notes. So you can take note of your accomplishments for the day as well as log anything important that needs to be done but doesn't have a specific time; you just need to get it done! I hope you enjoy our planner and look forward to the following Beast Mode Planners for the rest of 2019. Happy Planning!
