The Reverse Coloring BookTM Kendra Norton,2021-08-31 Coloring books became a thing when adults discovered how relaxing and meditative they were. Jigsaw puzzles roared back into popularity as an immersive activity, not to mention a great alternative to television. How exciting is it, then, to introduce an activity that tops them both: reverse coloring, which not only confers the mindful benefits of coloring and puzzling but energizes you to feel truly creative, even when you're weary and just want to zone out. It's so simple, yet so profoundly satisfying. Each page in The Reverse Coloring Book has the colors, and you draw the lines. Created by the artist Kendra Norton, these beautiful and whimsical watercolors provide a gentle visual guide so open-ended that the possibilities are limitless. Trace the shapes, draw in figures, doodle, shade, cover an area with dots. Be realistic, with a plan, or simply let your imagination drift, as if looking at clouds in the sky. Each page is an invitation to slow down, let go, and thoughtfully (or thoughtlessly) let your pen find its way over the image. The Reverse Coloring Book includes 50 original works of art, printed on sturdy paper that's single-sided and perforated. And unlike with traditional coloring books, all you need is a pen.

A Guide to Historic Artists' Home and Studios Valerie Balint,2020-06-02 From the desert vistas of Georgia O'Keeffe's New Mexico ranch to Jackson Pollock and Lee Krasner's Hamptons cottage, step into the homes and studios of illustrious American artists and witness creativity in the making. Celebrating the twentieth anniversary of the Historic Artists' Homes and Studios program of the National Trust for Historic Preservation, this is the first guidebook to the forty-four site museums in the network, located across all regions of the United States and all open to the public. The guide conveys each artist's visual legacy and sets each site in the context of its architecture and landscape, which often were designed by the artists themselves. Through portraits, artwork, and site photos, discover the powerful influence of place on American greats such as Andrew Wyeth, Grant Wood, Winslow Homer, and Donald Judd as well as lesser-known but equally creative figures who made important contributions to cultural history—photographer Alice Austen and muralist Clementine Hunter among them.

Six Drawing Lessons William Kentridge,2014-09-01 Over the last three decades, the visual artist William Kentridge has garnered international acclaim for his work across media including drawing, film, sculpture, printmaking, and theater. Rendered in stark contrasts of black and white, his images reflect his native South Africa and, like endlessly suggestive shadows, point to something more elemental as well. Based on the 2012 Charles Eliot Norton Lectures, Six Drawing Lessons is the most comprehensive collection available of Kentridge's thoughts on art, art-making, and the studio. Art, Kentridge says, is its own form of knowledge. It does not simply supplement the real world, and it cannot be purely understood in the rational terms of traditional academic disciplines. The studio is the crucial location for the creation of meaning: the place where linear thinking is abandoned and the material processes of the eye, the

hand, the charcoal and paper become themselves the guides of creativity. Drawing has the potential to educate us about the most complex issues of our time. This is the real meaning of “drawing lessons.” Incorporating elements of graphic design and ranging freely from discussions of Plato’s cave to the Enlightenment’s role in colonial oppression to the depiction of animals in art, *Six Drawing Lessons* is an illustration in print of its own thesis of how art creates knowledge. Foregrounding the very processes by which we see, Kentridge makes us more aware of the mechanisms—and deceptions—through which we construct meaning in the world.

Studio A Benjamin Hedin, 2004 Gathers over 50 articles, poems, essays, speeches, literary criticisms and interviews, many of whom have never been published before.

Motherless Brooklyn Jonathan Lethem, 2011-04-20 NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • A compulsively readable riff on the classic detective novel from America's most inventive novelist. A half-satirical cross between a literary novel and a hard-boiled crime story narrated by an amateur detective with Tourette's syndrome.... The dialogue crackles with caustic hilarity.... Unexpectedly moving. —The Boston Globe Brooklyn's very own self-appointed Human Freakshow, Lionel Essrog is an orphan whose Tourettic impulses drive him to bark, count, and rip apart our language in startling and original ways. Together with three veterans of the St. Vincent's Home for Boys, he works for small-time mobster Frank Minna's limo service cum detective agency. Life without Frank Minna, the charismatic King of Brooklyn, would be unimaginable, so who cares if the tasks he sets them are, well, not exactly legal. But when Frank is fatally stabbed, one of Lionel's colleagues lands in jail, the other two vie for his position, and the victim's widow skips town. Lionel's world is suddenly topsy-turvy, and this outcast who has trouble even conversing attempts to untangle the threads of the case while trying to keep the words straight in his head. *Motherless Brooklyn* is a brilliantly original, captivating homage to the classic detective novel by one of the most acclaimed writers of his generation.

Monumental Dreams Caroline Seebom, 2014-04-29 In 1929, the Museum of Modern Art opened its doors, showing the astonishing paintings of Picasso, Matisse, and other avant garde artists. Young American artists quickly responded by experimenting with impressionism, cubism, and abstraction. In *Monumental Dreams*, author Caroline Seebom tells the riveting story of how Ann Norton (1905–1982)—a child of the South who had eschewed her Alabama roots to become a sculptor in New York City—joined this new guard. She studied with John Hovannes and Jose de Creeft and was studio assistant to Alexander Archipenko. Her work was well received, and by age 35, she had already participated in group shows at MOMA and the Whitney Museum of American Art. Despite her burgeoning career, Norton found New York a difficult place to live. In search of paying work, she moved to Florida, where she became a teacher at the Norton Gallery and School of Art, founded by retired Acme Steel president Ralph Hubbard Norton. The two built a relationship based on love as well as common aesthetic values, and after his death, she built her finest and lasting work. Today, her monolithic sculptures—in the spirit of Stonehenge, Henry Moore, and Buddhist temple art—can be admired in the Ann Norton Sculpture Gardens.

Mary Norton of New Jersey David L. Porter, 2013-06-20 The book tells the compelling story of Mary Norton of New Jersey, who served 13 terms in the United States House of Representatives (1925–1951) and was the first female elected to the United States Congress from the Democratic Party, an eastern state, or urban section east of the Mississippi River and to chair a major congressional

committee. Besides chairing the District of Columbia Committee, she steered through the Labor Committee and the House the landmark Fair Labor Standards Act of 1938 and inspired young women of limited educational and meager financial background to participate in politics.

Twenty short profiles are presented in the introduction, with a single iconic photograph and a concise, informative text; eighty are profiled at length, in chronological order, with superb colour photography and texts recounting the stories of these remarkable designs. Representing every style from minimalism, Art Nouveau and Neo-traditional to Gesamtkunstwerk creations that defy definition, these iconic interiors are elegant compositions that endure as lasting creations.

Poetics in a New Key David Jonathan Bayot, 2015 This collection of interviews and essays presents an entertaining and provocative introduction to the critical thought of Marjorie Perloff. The fourteen interviews -- conducted by accomplished scholars, poets, and critics from the United States, Denmark, Norway, France, and Poland -- cover many topics: poetry's nature as a literary genre, its current state, and its relation to art, politics, language, theory, and technology. The volume also features three essays by Perloff: an academic memoir, an exploration of poetry pedagogy, and an essay on the (re)constitution of the intellectuals in the 21st century. It will be an inspiring resource for both scholars and poets who care to live a life of attention, on and off the page of poetry.

Art in the Making Glenn Adamson, 2016-06-21 The first book to address the significance of the materials and methods used to make contemporary artworks Today, artists are able to create using multiple methods of production—from painting to digital technologies to crowdsourcing—some of which would have been unheard of just a few decades ago. Yet, even as our means of making art become more extraordinary and diverse, they are almost never addressed in their specificity. While critics and viewers tend to focus on the finished products we see in museums and galleries, authors Glenn Adamson and Julia Bryan-Wilson argue that the materials and processes behind the scenes used to make artworks are also vital to current considerations of authorship and to understanding the economic and social contexts from which art emerges. This wide-ranging exploration of different methods and media in art since the 1950s includes nine chapters that focus on individual processes of making: Painting, Woodworking, Building, Performing, Tooling Up, Cashing In, Fabricating, Digitizing, and Crowdsourcing. Detailed examples are interwoven with the discussion, including visuals that reveal the intricacies of techniques and materials. Artists featured include Ai Weiwei, Alice Aycock, Isa Genzken, Los Carpinteros, Paul Pfeiffer, Doris Salcedo, Santiago Sierra, and Rachel Whiteread.
