Obliteration James S. Murray, Darren Wearmouth, 2020-06-23 "Scary amazing fun."—Brad Meltzer Evils both above and below ground arise once again, threatening the world and all its inhabitants with extinction in this electrifying science fiction thriller—the final novel set in the Awakened universe—from the #1 internationally bestselling author and star of television's Impractical Jokers and a bestselling science fiction writer. Thanks to the heroics of former New York City Mayor Tom Cafferty and his team, the world is once again safe. The villainous Foundation for Human Advancement has been dismantled, the cities of the world are safe from nuclear annihilation, and Cafferty is now on a hunt to decimate every nest of creatures on the planet. When Cafferty enters a nest underneath the Nevada desert, he is horrified to find it completely empty. It can only mean one thing: the battle for survival is not over. Across the planet, creatures are emerging from their subterranean homes. Now, the all-out war against humanity has begun—a war in which only one apex species will survive. Humankind has finally met its match. Cafferty knows that only one man can help him stop the onslaught. A man who is despised by the world. A man who has already caused the death of millions. A man who is a sworn enemy hell-bent on taking Tom Cafferty down forever: Albert Van Ness. But even this desperate move may not be enough to stop the creatures and save humanity . . .

Obliteration Jamie Zepeda, Amanda Berthault, Kristi King-Morgan, 2019-07-14 The three reprogrammed Replods, Colin McKenzie, Diane Christy, and Kelly Lytton, composing the team known as Silencers, still faithfully serve the United Protectorate under the watchful monitoring of the Central Intelligence Division. The war with the Brelac is not going well, and the Silencers are given an advanced warp-drive ship and sent beyond their home quadrant, Poseidon, to the last known coordinates of a missing ship. They find themselves in the midst of a war between local factions on a planet far from home. They find themselves facing a new enemy that seems invincible. This time, even their Replod powers might not be enough to save them.

End of Academic Freedom William M. Bowen, Michael Schwartz, Lisa Camp, 2014-03-01 This book is premised upon the assumption that the core purpose of universities is to create, preserve, transmit, validate, and find new applications for knowledge. It is written in the perspective of critical university studies, in which university governance processes should take ideas and discourse about ideas seriously, far more seriously than they are often taken within many of today's universities, since doing so is the key to achieving this purpose. Specifically, we assert that the best way for universities to take ideas seriously, and so to best achieve their purpose, is to consciously recognize and conserve the entire range of available ideas. Though the current emphasis upon factors such as student headcounts, increased efficiency and job creation are undoubtedly important, far more is at stake in universities than only these factors. From this premise, we deduce insights and arguments about academic freedom, as well as factors such control and monitoring of the market place of ideas, the structure of information flows within universities, the role of language in university governance, and relationships between administrators, faculty members and students. We identify impediments to achieving the core purpose of universities, including the idea vetting systems of authoritarianism, corporatism, illiberalism, supernaturalism and political correctness. We elucidate how these impediments inhibit successful achievement of the core purpose of the university. In response to these impediments we prescribe relatively autonomous universities characterized by openness, transparency, dissent, and the maintenance of balance between conflicting perspectives, values, and interests.

Ultimate Obliteration Jo Ann Wentzel, 2017-02-01 Local TV reporter Andrew Zenith is very conscientious about his job and his one goal in life is to save the children. The sickening stories Andrew reports daily bring him no closer to helping stop the abuse. Children are under attack and there is no solution in sight. If Andrew fails to save them, the result is broken children and future dysfunctional families. Sexual abuse of children is widespread and even if we catch the perpetrators, jails are too full to incarcerate them. Now that people are reported missing, they cannot even locate the pedophiles. No one knows for sure what is happening to them. Parents fear they cannot protect their own children. With 'end times' approaching and the dystopian nature of their world some people have decided to take the law into their own hands. They have made it their mission to get rid of the perps. Will Andrew find the answers he seeks? Can he save the children?

The McKenzie Files, Book 3: Obliteration Barry K. Nelson, 2015-01-10 The three reprogrammed Brelac Reploids forming the special team Silencers still faithfully serve the United Protectorate under the watchful monitoring of the Central Intelligence Division. Stationed on Maseklos Prime, Colin McKenzie, Diane Christy, and Kelly Lytton are called to a hostage scene and end up with clues that lead to the elusive Dr. Arthur Trevors. Although initially a traitor who worked undercover with the Brelac, Trevors was in large part responsible for the capture and reprogramming of Colin, Diane, and Kelly so they could serve their current function as weapons for the Protectorate. The war with the Brelac is not going well, and the Silencers are given an advanced warp-drive ship and sent beyond their home quadrant, Poseidon, to the last known coordinates of a missing ship. Their mission is to locate the missing ship, part of an original task force of five ships sent out to find other human colonies and enlist their help with the war against the Brelac. As soon as Colin and his team leave the quadrant, they run into trouble, and things go downhill from there. They find themselves in the midst of a war between local factions on a planet far from home and feel obliged to aid the human faction against a clearly superior force that seems to have help from a monster who leaves a wake of death and destruction wherever it goes. The more they find out, the weirder things get, and they end up stranded with no way home, much less any hope of completing their original mission to find the lost task force ship. This new enemy they face seems invincible, and they wonder if they'll survive as everything and everyone around them is destroyed. Maybe this time not even their Reploid powers will save them. But what other hope does humanity have?

On Obliteration Emmanuel Lévinas, 2019 Emmanuel Levinas defines obliteration as a central concept with which to think about art. The interview with Françoise Armengaud is one of Levinas' rare statements focusing on the fine arts. Levinas has become influential in various disciplines through his ethics, which he thinks decisively from the face of the other. Yet his reflections on aesthetics are rarely engaged with, and when questions are asked about the face in art--and thus about the interrelationship of ethics and aesthetics--the main focus has been on his comments on literature. In this interview Levinas talks about the work of the French sculptor Sacha Sosno, and the complex relationship between ethics and aesthetics becomes no longer aligned with the face and language, but with iconic thinking and artistic operations and practices. Levinas understands obliteration as an 'unavailable,' an uncanny, disruptive concept. In doing so, he turns away from the ease and lighthearted casualness of the beautiful and to the processes of material wear and tear and the traces of their repair. He affirms these for their creative potential in developing a uniqueness of presence. The interview is supplemented by photographs by André Villers of Sosno's works, a foreword by Johannes Bennke and an epilogue by Dieter Mersch.

a real mission, one that's critical to the Melisandian Galaxy's survival. They must rid the kingdom of Dr. Julio Bonafache, the evil ruler of the Liquitorian Galaxy.
