Nepal Pradyumna Prasad Karan, Hiroshi Ishii, 1996 Locked within rugged mountain ranges, Nepal was cut off from most of the world for centuries. It was in the mid-1950s that Nepal took its first concrete steps towards development, and in this book the authors describe the growth and change that have occurred in this Himalayan kingdom from that time until the present. Emphasizing Nepal's land-locked situation, the authors point to the particular development challenges posed by a small, resource-poor, mountainous and land-locked country. The discussion covers geographical aspects (environment and natural resources, land use, forests, agriculture), the human dimension (human resources, cultural patterns, demography and urbanization), and issues related to industrial development, communications, and tourism. The concluding chapters take up three specific development challenges Nepal faces: (1) sustainability and conservation, (2) poverty alleviation, and (3) population planning. Nepal is presently experiencing a period of major changes in its economy, society, and environment. This book sheds light on some of the most crucial issues facing the Kingdom as it continues its development efforts, and, in addition, offers insight to scholars and planners interested in the development of other small, land-locked countries.

The Negro Motorist Green Book Victor H. Green, The idea of The Green Book is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Academic E-Books Suzanne M. Ward, Robert S. Freeman, Judith M. Nixon, 2015-11-15 Academic E-Books: Publishers, Librarians, and Users provides readers with a view of the changing and emerging roles of electronic books in higher education. The three main sections contain contributions by experts in the publisher/vendor arena, as well as by librarians who report on both the challenges of offering and managing e-books and on the issues surrounding patron use of e-books. The case study section offers perspectives from seven different sizes and types of libraries whose librarians describe innovative and thought-provoking projects involving e-books. Read about perspectives on e-books from organizations as diverse as a commercial publisher and an association press. Learn about the viewpoint of a jobber. Find out about the e-book challenges facing librarians, such as the quest to control costs in the patron-driven acquisitions (PDA) model, how to solve the dilemma of resource sharing with e-books, and how to manage PDA in the consortial environment. See what patron use of e-books reveals about reading habits and disciplinary differences. Finally, in the case study section, discover how to promote scholarly e-books, how to manage an e-reader checkout program, and how one library replaced most of its print collection with e-books. These and other examples illustrate how innovative librarians use e-books to enhance users' experiences with scholarly works.
