These combinations are the most common lexical collocations, so others should be disregarded. The different kinds of collocations are examined concerning their behaviour in a sentence and the possibility they suggest to be substituted. After this examination the paper summarizes the structure of grammatical collocation. In the next part, Cowie's understanding of collocation is presented. He distinguishes between restricted and open collocations, which will be explained in this section. The next part of the paper contains some aspects one has to take account of when collocations are translated.
