Online-Marketing Julia Erbe,2000-01-03 Inhaltsangabe:Abstract: In the 1990s, people are being more and more confronted with the rapid developments in the information and communication technology sector. Computers seem to be indispensable not only in professional areas of life, but also in educational and private contexts. Commercial e-mails can be classified as a form of advertising, which is considered to be a type of persuasive discourse. Due to the fact that advertisers are supposed to be striving to alter behaviour, awareness, knowledge, and attitudes in a way that would be beneficial to them, advertising is informative only on the surface. Therefore, no more distinction between informative and persuasive advertising is made. Accordingly, commercial e-mails are expected to have a persuasive intent which is assumed to be mirrored in a number of [...]
