*Period. End of Sentence.* Anita Diamant, 2021-05-25 Explores the subject of menstruation, from toxic historic and religious roots to how young activists are challenging the silence and shame that can erode self-esteem and even threaten lives ...--Page 4 of cover.

Under Wraps Sharra Louise Vostral, 2008 Menstruation provides one of the few shared bodily functions that most women will experience during their lifetimes. Yet, these experiences are anything but common. In the United States, for the better part of the twentieth century, menstruation went hand-in-glove with menstrual hygiene. But how and why did this occur? This book looks at the social history of menstrual hygiene by examining it as a technology. In doing so, the lens of technology provides a way to think about menstrual artifacts, how the artifacts are used, and how women gained the knowledge and skills to use them. As technological users, women developed great savvy in manipulating belts, pins, and pads, and using tampons to effectively mask their entire menstrual period. This masking is a form of passing, though it is not often thought of in that way. By using a technology of passing, a woman might pass temporarily as a non-bleeder, which could help her perform her work duties and not get fired or maintain social engagements like swimming at a summer party and not be marked as having her period. How women use technologies of passing, and the resulting politics of secrecy, are a part of women's history that has remained under wraps.

*The Period Book* Karen Gravelle, Jennifer Gravelle, 2017-06-20 This bestselling, essential illustrated guidebook for adolescent girls is a trusty friend that can help girls feel confident about this new phase of

their lives. What is my period exactly? Do I need to see a doctor? What does it feel like to wear a pad? What if I get my period at school? Karen Gravelle and her fifteen-year-old niece, Jennifer Gravelle, have written a down-to-earth and practical book that answers any questions you might have about your period, from what it is and what it feels like, to how to choose pads and tampons, to how to talk to your parents about it. The Period Book will help guide you through all the physical, emotional, and social changes that come with your period, as well as related issues like dealing with pimples, mood swings, and new expectations from friends and family. Debbie Palen's funny and sympathetic cartoons ease the confusion and exasperation you might feel, and celebrate the new sense of power and maturity that your period can bring.

Panty Pad: Marketing Menstrual Pads to the Japanese Market Weng Marc Lim, 2012-02-08 Research Paper (undergraduate) from the year 2009 in the subject Communications - Public Relations, Advertising, Marketing, Social Media, grade: 1, Monash University Malaysia, Sunway Campus, language: English, abstract: This book presents a new innovative version of menstrual pads – Panty Pad, and illustrates how it can be marketed in Japan. The rationale behind this innovative invention is to provide superior customer value in terms of convenience, comfort, fashion, and economical pricing. Panty Pad is a product in which a menstrual pad is sewn intact onto a soft cotton long-lasting disposable panty. The design of this offering is in a low cut cutting which aims to keep the panty unseen even though the user is wearing a low-cut pants or skirt. In addition, there would be some fragrance in the pad to prevent any bad odour from long-hour wearing. The first half of this book presents an in-depth and extensive environmental analysis of Japan

including any possible impact of the current financial crisis as groundwork for marketing menstrual pads. Accordingly, analyses presented in the first half of this book would focus on how attractive are the economic environment, cultural environment, and political and legal environment of Japan in providing a marketing opportunity success for Panty Pad. This analysis would also account for any potential impact of the current financial crisis towards Panty Pad's sustainable competitiveness in the Japanese market.

**The Palgrave Handbook of Critical Menstruation Studies** Chris Bobel, Inga T. Winkler, Breanne Fahs, Katie Ann Hasson, Elizabeth Arveda Kissling, Tomi-Ann Roberts, 2020-07-24 This open access handbook, the first of its kind, provides a comprehensive and carefully curated multidisciplinary and genre-spanning view of the state of the field of Critical Menstruation Studies, opening up new directions in research and advocacy. It is animated by the central question: “what new lines of inquiry are possible when we center our attention on menstrual health and politics across the life course?” The chapters—diverse in content, form and perspective—establish Critical Menstruation Studies as a potent lens that reveals, complicates and unpacks inequalities across biological, social, cultural and historical dimensions. This handbook is an unmatched resource for researchers, policy makers, practitioners, and activists new to and already familiar with the field as it rapidly develops and expands.

The Period Comic-Girls' Easy Guide to Puberty & Periods-Ages 9-15. An illustrated book Florence Igboayaka, 2019 Join these three friends of Hamilton Primary School – Anabel, Ada and Misha on an interesting and exciting weekend adventure of discovery. They may be of different ethnicities, but for them, one thing is common: the wonderful changes that occur in their bodies as they grow. Period or

menstruation is not a choice but rather an integral part of most girls lives as they reach puberty. However, there is a huge gap in period education and awareness. This is because most parents or caregivers find it an awkward topic to discuss. In other cases, it is a topic shrouded in secrecy as though it were a taboo. This should not be so because period is part of the reproductive system of a girl. The Period Comic has been illustrated to help young girls learn about periods in a fun and intriguing way, build their confidence and knowledge about the changes happening in their bodies as they grow. It is a must have for all girls from age 9

Period. End of Sentence. Anita Diamant, 2021-05-25 From beloved New York Times bestselling author and award-winning journalist Anita Diamant comes a timely collection of essays to help inspire period positive activism around the globe. When Period. End of Sentence. won an Oscar in 2019, the film's co-producer and Executive Director of The Pad Project, Melissa Berton, told the audience: "A period should end a sentence, not a girl's education." Continuing in that revolutionary spirit and building on the momentum of the acclaimed documentary, this book outlines the challenges facing those who menstruate worldwide and the solutions championed by a new generation of body positive activists, innovators and public figures. Including interviews from people on the frontlines—parents, teachers, medical professionals, and social-justice warriors—Period. End of Sentence. illuminates the many ways that menstrual injustice can limit opportunities, erode self-esteem, and even threaten lives. This powerful examination of the far-ranging and quickly evolving movement for menstrual justice introduces today's leaders and shows us how we can be part of the change. Fearless, revolutionary, and fascinating, Period. End of Sentence. is an

essential read for anyone interested in empowering women, girls, and others around the world. To learn more about The Pad Project, go to [ThePadProject.org](http://ThePadProject.org).

Period JoAnn Loulan, Bonnie Worthen, 2001 Discusses the physical and psychological changes at the onset of menstruation. Includes a guide for parents and teachers.

**Everyday Discourses of Menstruation** Victoria Louise Newton, 2016-05-24 Menstruation is a topic which is both everyday and sensitive. From Leviticus to Pliny, to twentieth-century debates around 'menotoxin', to advertising and 'having the painters in', Victoria Newton's book offers a lively and innovative exploration of the social and cultural dimensions of menstruation. Through in-depth interviews with men and women, the book explores the many different ways in which this sensitive topic is spoken about in British culture. Looking specifically at euphemism, jokes, popular knowledge, everyday experience and folklore, the book provides original insights into the different discourses acting on the menstruating body and encourages debate about how these help to shape our everyday attitudes towards menstruation.

**The Managed Body** Chris Bobel, 2018-10-19 The Managed Body productively complicates ‘menstrual hygiene management’ (MHM)—a growing social movement to support menstruating girls in the Global South. Bobel offers an invested critique of the complicated discourses of MHM including its conceptual and practical links with the Water, Sanitation and Hygiene (WASH) development sector, human rights and ‘the girling of development.’ Drawing on analysis of in-depth interviews, participant observations and the digital materials of NGOs and social businesses, Bobel shows how MHM frames problems and solutions to capture attention and direct resources to this highly-tabooed topic. She asserts that MHM organizations often inadvertently rely upon weak evidence and spectacularized representations to make the claim of a ‘hygienic crisis’ that authorizes rescue. And, she argues, the largely product-based solutions that follow fail to challenge the social construction of the menstrual body as dirty and in need of concealment. While cast as fundamental to preserving girls’ dignity, MHM prioritizes ‘technological fixes’ that teach girls to discipline their developing bodies vis a vis consumer culture, a move that actually accommodates more than it resists the core problem of menstrual stigma.

Period Power Nadya Okamoto, 2018-10-16 PERIOD founder and Harvard College student Nadya Okamoto offers a manifesto on menstruation and why we can no longer silence those who bleed—and how to engage in youth activism. Throughout history, periods have been hidden from the public. They’re taboo.

They're embarrassing. They're gross. And due to a crumbling or nonexistent national sex ed program, they are misunderstood. Because of these stigmas, a status quo has been established to exclude people who menstruate from the seat at the decision-making table, creating discriminations like the tampon tax, medicines that favor male biology, and more. *Period Power* aims to explain what menstruation is, shed light on the stigmas and resulting biases, and create a strategy to end the silence and prompt conversation about periods.
