The Animal Activists' Handbook Matt Ball, Bruce Friedrich, 2009 Matt Ball and Bruce Friedrich take the plight of the world's animals seriously and have dedicated their lives to ending their suffering. The Animal Activists' Handbook argues that meaning in life is to be found, quite simply, in turning away from the futile pursuit of more, and focusing instead on leaving the planet a better place than you found it. The critical component of creating a better world for all is thoughtful, deliberate, and dedicated activism that takes suffering seriously. The authors build a ground-up case for reasoned, impassioned, and joyous activism that makes the most difference possible, and suggest a variety of ways to live a meaningful life through effective and efficient advocacy.

The PETA Practical Guide to Animal Rights Ingrid Newkirk, 2009-05-26 With more than two million members and supporters, People for the Ethical Treatment of Animals (PETA) is the world's largest animal-rights organization, and its founder and president, Ingrid Newkirk, is one of the most well-known and most effective activists in America. She has spearheaded worldwide efforts to improve the treatment of animals in manufacturing, entertainment, and elsewhere. Every day, in laboratories, food factories, and other industries, animals by the millions are subjected to inhumane cruelty. In this accessible guide, Newkirk teaches readers hundreds of simple ways to stop thoughtless animal cruelty and make positive choices. For each topic, Newkirk provides hard facts, personal insight, inspiration, ideas, and resources, including: • How to eat healthfully and compassionately • How to adopt animals rather than support puppy mills • How to make their vote count and change public opinion • How to switch to cruelty-free cosmetics and clothing • How to choose amusements that protect rather than exploit animals. With public concern for the well-being of animals greater than ever—particularly among young people—this timely, practical book offers exciting and easy ways to make a difference.

Animalkind Ingrid Newkirk, Gene Stone, 2021-01-19 The founder and president of PETA, Ingrid Newkirk, and bestselling author Gene Stone explore the wonders of animal life with “admiration and empathy” (The New York Times Book Review) and offer tools for living more kindly toward them. In the last few decades, a wealth of new information has emerged about who animals are: astounding beings with intelligence, emotions, intricate communications networks, and myriad abilities. In *Animalkind*, Ingrid Newkirk and Gene Stone present these findings in a concise and awe-inspiring way, detailing a range of surprising discoveries, like that geese fall in love and stay with a partner for life, that fish “sing” underwater, and that elephants use their trunks to send subsonic signals, alerting other herds to danger miles away. Newkirk and Stone pair their tour through the astounding lives of animals with a guide to the exciting new tools that allow humans to avoid using or abusing animals as we once did. Whether it's medicine, product testing, entertainment, clothing, or food, there are now better options to all the uses animals once served in human life. We can substitute warmer, lighter faux fleece for wool, choose vegan versions of everything from shrimp to marshmallows, reap the benefits of animal-free medical research, and scrap captive orca exhibits and elephant rides for virtual reality and animatronics. *Animalkind* provides a fascinating look at why our fellow living beings deserve our respect, and lays out the steps everyone can take to put this new understanding into action.

PETA Files Dave P. Workman, 2003 Workman delivers a damning indictment of animal rights fanaticism, unraveling the web of extremism that starts with the organization known as People for the Ethical Treatment of Animals (PETA) and extending to the far outer violent edges of the movement.

One Can Make a Difference Ingrid E Newkirk, Jane Ratcliffe, 2009-08-18 “People say, ‘Oh, it’s easy for you to make an impact. But I’m no one of importance. No one would listen to me.’ If I have learned

anything, it is that they are wrong. Dead wrong. The world is just waiting to hear from them, just as it is waiting to hear from you.” —Ingrid Newkirk When Ingrid Newkirk almost single-handedly set into motion the largest animal-rights organization in the world, she knew that one person can make a difference. In this book, Ingrid has collected the wisdom, stories, and insight of dozens of activists and world-changers who have proven that one person can make a movement. This engaging and enlightening collection is a call to action for readers everywhere. Because one can make a difference.

We Animals Jo-Anne McArthur, 2013-12-01 Drawn from a thousand photos taken over fifteen years, *We Animals* illustrates and investigates animals in the human environment: whether they're being used for food, fashion and entertainment, or research, or are being rescued to spend their remaining years in sanctuaries. Award-winning photojournalist and animal advocate Jo-Anne McArthur provides a valuable lesson about our treatment of animals, makes animal industries visible and accountable, and widens our circle of compassion to include all sentient beings.

Empathy Roman Krznaric, 2014-11-04 Discover the Six Habits of Highly Empathic People A popular speaker and co-founder of The School of Life, Roman Krznaric has traveled the world researching and lecturing on the subject of empathy. In this lively and engaging book, he argues that our brains are wired for social connection. Empathy, not apathy or self-centeredness, is at the heart of who we are. By looking outward and attempting to identify with the experiences of others, Krznaric argues, we can become not only a more equal society, but also a happier and more creative one. Through encounters with groundbreaking actors, activists, designers, nurses, bankers and neuroscientists, Krznaric defines a new breed of adventurer. He presents the six life-enhancing habits of highly empathic people, whose skills enable them to connect with others in extraordinary ways – making themselves, and the world, more truly fulfilled.

Why PETA Kills Nathan Winograd, Jennifer Winograd, 2017-11-26 Why? Why does PETA kill thousands of dogs and cats every year? Why are PETA employees instructed to acquire animals by any means necessary - which has included lying and theft - in order to kill those animals? Why do they encourage others to kill them? And why do they embrace and defend even abusive animal shelters? Former PETA employees say it is the result of the deeply perverse version of animal activism promoted by PETA founder and President, Ingrid Newkirk. They can explain how employees are made to watch heart wrenching films about animal abuse to instill into them the belief that people are incapable of caring for animals and that PETA is doing what is best for animals by killing them. PETA also claims that animals cannot live without human care, which is why they round up animals living outdoors in order to put them to death. The animals are, in short, damned either way and thus killing them is a gift. Collected within are interviews with former PETA employees, documents from civil and criminal court cases against PETA, photos of animals killed by PETA, inspection reports by the State Veterinarian in Virginia where PETA is headquartered, as well as admissions of killing, and support for killing, by Ingrid Newkirk herself. Together, this information leads to a tragic and disturbing conclusion: PETA is letting loose upon the world individuals who not only believe that killing is a good thing and that the living want to die, but who are legally armed with lethal drugs which they have already proven - at least 32,744 times in the last 13 years - that they are not averse to using.

Compassionate Cook Ingrid Newkirk, 2008-06-03 From PETA, the largest animal rights organization in the world, comes a repackaged collection of over 200 healthy and humane vegan recipes that cover everything from breakfast to dinner and beyond. The *Compassionate Cook* offers easy-to-make recipes that are tasty, healthy, and most importantly, humane. This collection covers breakfast, lunch and dinner, as

well as snacks, appetizers and side dishes. These inventive and fun recipes will inspire readers to experiment with new dishes, cooking methods, and ingredients. With this special selection of recipes, mindful eaters can enjoy delicious food, satisfied with the knowledge that they are helping to protect animals.

She is a British citizen who founded the organization People for the Ethical Treatment of Animals (PETA). Newkirk has spent her adult life advocating for the rights of earth's nonhuman inhabitants, sometimes in very provocative ways. The book provides a thorough recap of a career dedicated to action.

Animals and World Religions Lisa Kemmerer, 2012-01-19 Despite increasing public attention to animal suffering, human beings continue to exploit billions of animals in factory farms medical laboratories, and elsewhere. This wide-ranging study shows how spiritual teachings in seven major religious traditions can help people consider their ethical obligations towards other creatures.

A Rat Is a Pig Is a Dog Is a Boy Wesley J. Smith, 2012-07-17 Over the past thirty years, as Wesley J. Smith details in his latest book, the concept of animal rights has been seeping into the very bone marrow of Western culture. One reason for this development is that the term "animal rights" is so often used very loosely, to mean simply being nicer to animals. But although animal rights groups do sometimes focus their activism on promoting animal welfare, the larger movement they represent is actually advancing a radical belief system. For some activists, the animal rights ideology amounts to a quasi religion, one whose central doctrine declares a moral equivalency between the value of animal lives and the value of human lives. Animal rights ideologues embrace their beliefs with a fervor that is remarkably intense and sustained, to the point that many dedicate their entire lives to "speaking for those who cannot speak for themselves." Some believe their cause to be so righteous that it entitles them to cross the line from legitimate advocacy to vandalism and harassment, or even terrorism against medical researchers, the fur and food industries, and others they accuse of abusing animals. All people who love animals and recognize their intrinsic worth can agree with Wesley J. Smith that human beings owe animals respect, kindness, and humane care. But Smith argues eloquently that our obligation to humanity matters more, and that granting "rights" to animals would inevitably diminish human dignity. In making this case with reason and passion, A Rat Is a Pig Is a Dog Is a Boy strikes a major blow against a radically antihuman dogma.

Animal Experimentation Kathrin Herrmann, Kimberley Jayne, 2019 Animal Experimentation: Working Towards a Paradigm Change critically appraises current animal use in science and discusses ways in which we can contribute to a paradigm change towards human-biology based approaches.

Bushyhead Peta-Gaye Nash,2021-03 *Bushyhead* is the story of a young girl, Miranda May, who is teased at school because of her bushy hair. She wishes she had different hair. Her mother takes her to a children's hospital where the children in the ward have no hair. Her mother suggests that Miranda May cut and donate her hair to make wigs for kids who have no hair. They go to the hair salon and the hairdresser cuts Miranda May's hair and donates it. The story is a gentle introduction to the topic of compassion, self-esteem, black hair pride, looking for solutions that help others, and about cancer and hair loss.

Animal Rights Karen D. Povey,2009-06-26 According to PETA (People for the Ethical Treatment of Animals), people who recognize animal rights believe that all animals have an inherent worth that is separate from their usefulness to humans. This informative edition presents a discussion of animal rights, covering topics such as farming animals for food, animal experimentation, animals used in sports and entertainment, and the tactics of animal rights activists.

Trading Bases Joe Peta,2014-03-04 An ex–Wall Street trader improved on Moneyball's famed sabermetrics and beat the Vegas odds with his own betting methods. Here is the story of how Joe Peta turned fantasy baseball into a dream come true. Joe Peta turned his back on his Wall Street trading career to pursue an ingenious—and incredibly risky—dream. He would apply his risk-analysis skills to Major League Baseball, and treat the sport like the S&P 500. In *Trading Bases*, Peta takes us on his journey from the ballpark in San Francisco to the trading floors and baseball bars of New York and the sportsbooks of Las Vegas, telling the story of how he created a baseball “hedge fund” with an astounding 41 percent return in his first year. And he explains the unique methods he developed. Along the way, Peta provides insight into the Wall Street crisis he managed to escape: the fragility of the midnineties investment model; the disgraced former CEO of Lehman Brothers, who recruited Peta; and the high-adrenaline atmosphere where million-dollar sports-betting pools were common.

Earth is Hiring Peta Kelly,2018-01-31 Is ‘hustle and grind’ really the message of The New Way? Is financial freedom really what it's about? Is ‘living life on our terms’ really the summit of this mission? Is The New Way about becoming more successful than our generations before us? This book is a conversation about The New Way to Live, Lead, Earn, and Give. It is a collection of insights and ideas about how we can, and how we are, changing the world. It's an invitation to the New Superheroes—the people all over the world who give a sh*t about each other and our earth—to lighten up in our work as Game Changers. It's a time stamp so that our kids and their kids can read it and say, “oh, so that's what you were growing through back then...” The New Way is not just about having more money at the end of the month. Success as we'd been taught isn't sufficient. Success to our generation looked and felt completely different to what it looked and felt like to generations before us. We millennials do not thrive off gains in a capitalist society. The religious separation that our parents' generation know is torturing our hearts. Our planet isn't a place for us to holiday, but a place of permanent residence with the requirement that we nurture and love our Mother Earth as our one collective mother. There is no 'top' when it comes to leadership, but instead we're all about the power of tribe. We don't care to move forward at lightning speed, but would rather to stop

and go back to our indigenous roots and ensure that ancient wisdoms are never forgotten. Taking care of our brothers and sisters who are without basic necessities is the only way we all win. Play is everything. We're here to change the world, but we've gotta stop taking it so seriously. We're here to use our talents and abilities to create epic sh*t, but we've gotta stop missing the point along the way. It's time for us to thrive like no generation before us ever has. It's time for us to show the world how good it's really meant to be. This book is for the millennial conscious leaders and entrepreneurs- those ushering in the new paradigm through their work, art, businesses, leadership.

Peta Lyre's Rating Normal Anna Whateley, 2020-04-28 'I'm Peta Lyre,' I mumble. Look people in the eye if you can, at least when you greet them. I try, but it's hard when she is smiling so big, and leaning in. Peta Lyre is far from typical. The world she lives in isn't designed for the way her mind works, but when she follows her therapist's rules for 'normal' behaviour, she can almost fit in without attracting attention. When a new girl, Sam, starts at school, Peta's carefully structured routines start to crack. But on the school ski trip, with romance blooming and a newfound confidence, she starts to wonder if maybe she can have a normal life after all. When things fall apart, Peta must decide whether all the old rules still matter. Does she want a life less ordinary, or should she keep her rating normal? A moving and joyful own voices debut. 'Honest, perceptive and gutsy; I loved tuning into Peta's world.' - Emily Gale
