THE PEOPLE'S PHARMACY Joe Graedon, 1980

Food Pharmacy Lina Aurell, Mia Clase, 2018-01-02 Food Pharmacy shows the extraordinary power of food to reduce inflammation, restore gut bacteria, and cure disease. Future prescriptions can be filled at the local grocery instead of at the drug store. —Dr. Mark Hyman, New York Times bestselling author of Eat Fat Get Thin The real and practical science behind foods that will reduce inflammation, boost your immune system, and revitalize your health. The key to a healthy life is healthy eating. We know this fact, but how do we make sense of it and live it out with the myriad of information out there on gut health, autoimmune diseases, anti-inflammatory diets, and what foods to eat and not to eat? Food Pharmacy finally tells the complete story of friendly bacteria, intestinal flora, anti-inflammatory superfoods like turmeric, the difference between good and bad fats, vitamin D, and how we can reduce inflammation and heal chronic diseases by regulating our immune system with simply the right natural foods—nature's pharmacy that will never cause you to overdose. Marrying scientific research with seventeen supplementary recipes, practical advice and tips, and a quirky, humorous voice, Food Pharmacy extolls the kitchen's anti-inflammatory heroes—like avocado, cloves, kale, cinnamon, and green bananas—and shows you how to live your healthiest life equipped with the right knowledge and food. With facts substantiated by Professor Stig Bengmark, a former chief surgeon and stomach bacteria research scientist, Food Pharmacy is for anyone interested in learning about how what you put in your mouth affects your body's ecosystem, and is the ultimate guide and manifesto to leading a life as anti-inflammatory and healthy as possible.

First Time Pharmacist Richard Waithe, 2018-05-21 Pharmacists often don't feel like they're ready upon graduation. Along with helping you handle insurance issues, prevent misfills, deal with the workload, and take care of yourself and your license, this book helps pharmacists build great relationships with their patients and their teams. Graduating from the University of Florida with his PharmD, Dr. Richard Waithe now has seven years of community pharmacy experience including Pharmacy Manager of a Target, CVS, and Publix Pharmacy. In his book, *First Time Pharmacist*, Dr. Waithe shares his best practices, keys to success, and biggest lessons he's learned to better prepare you to be the pharmacist you always hoped you'd be.

Metabolical Robert H. Lustig, 2021-05-04 The New York Times bestselling author of *Fat Chance* explains the eight pathologies that underlie all chronic disease, documents how processed food has impacted them to ruin our health, economy, and environment over the past 50 years, and proposes an urgent manifesto and strategy to cure both us and the planet. Dr. Robert Lustig, a pediatric neuroendocrinologist who has long been on the cutting edge of medicine and science, challenges our current healthcare paradigm which has gone off the rails under the influence of Big Food, Big Pharma, and Big Government. You can't solve a problem if you don't know what the problem is. One of Lustig's singular gifts as a communicator is his ability to "connect the dots" for the general reader, in order to unpack the scientific data and concepts behind his arguments, as he tells the "real story of food" and "the story of real food." *Metabolical* weaves the interconnected strands of nutrition, health/disease, medicine, environment, and society into a completely new fabric by proving on a scientific basis a series of iconoclastic revelations, among them: Medicine for chronic disease treats symptoms, not the disease itself You can diagnose your own biochemical profile Chronic diseases are not druggable, but they are foodable Processed food isn't just toxic, it's addictive The war between vegan and keto is a false war—the combatants are on the same side Big Food, Big Pharma, and Big Government are on the other side Making the case that food is the only lever we have to effect biochemical change to improve our health, Lustig explains what to eat based on two novel criteria: protect the liver, and feed the gut. He insists that if we do not fix our food and change the way we eat, we will continue to court chronic disease, bankrupt healthcare, and threaten the planet. But there is hope: this book explains what's needed to fix all three.

The Plant Hunter Cassandra Leah Quave, 2022-06-14 The uplifting, adventure-filled memoir of one groundbreaking scientist's quest to develop new ways to fight illness and disease through the healing powers of plants. "A fascinating and deeply personal journey." —Amy Stewart, author of *Wicked Plants* and *The Drunken Botanist* Traveling by canoe, ATV, mule, airboat, and on foot, Dr. Cassandra Quave has conducted field research everywhere from the flooded forests of the remote Amazon to the isolated mountaintops in Albania and Kosovo—all in search of natural compounds, long-known to traditional healers, that could help save us all from the looming crisis of untreatable superbugs. Dr. Quave is a leading medical ethnobotanist—someone who identifies and studies plants that may be able to treat antimicrobial resistance and other threatening illnesses—helping to provide clues for the next generation of advanced medicines. And as a person born with multiple congenital defects of her skeletal system, she's done it all with just one leg. In *The Plant Hunter*, Dr. Quave weaves together science, botany, and memoir to tell us the extraordinary story of her own journey.

Big Podcast – Grow Your Podcast Audience, Build Listener Loyalty, and Get Everybody Talking About Your Show David Hooper, 2019-03-12 Is it worth doing a podcast if nobody listens? You started your podcast because you want to: – Spread an important message – Share your passion – Make money But your podcast hasn't quite taken off like you thought it would. What happened? This book is for podcasters who can't quite figure out what they're doing

wrong (and are ready to do things right). You'll learn: - Why your "natural personality" may be repelling to people and how to make it attract listeners to your podcast like a magnet (See p198) - What to do when a company tries to "lowball" you on advertising fees (do nothing, except send them the email on p424) - It's easy to screw up an interview. To be sure you don't run into any problems, use my "guest contract" on p311. - A six-word "trick" (learned from a 20-year radio veteran) that will instantly make you a better host (it's on p210) - 9 reasons to kill an interview before it happens - ignore these "red flags" and you'll be sorry (p299) - What Victoria's Secret models know about podcasting (even though you never hear them talk) - this lesson starts on p208! - Nervous on the mic? You have lots of company - 75% of podcasters to be exact. I give you a 5-step way to cure your "stage fright" on p229. - If you're scared of getting bad reviews, don't worry - I have three simple ways to handle critics on p236 (two of which can turn critics into fans) - Why copying top podcasters may be killing your podcast (I share the story on p116) and how to develop a podcasting style that works for you (and will attract more listeners) - My 3-step "episode teaser" formula - it's boring, but it works (get it on p110) - Thinking of doing a "daily" podcast? You must read p103 before you start. - Want to impress a guest? See the chapter starting on p321 for my 3-step followup "ritual" that will make being on your podcast unforgettable (and encourage guests to promote your episodes) And that's just the start ... This book contains my complete system on how to attract listeners, deliver your message effectively, and build a big podcast. You can't build a big podcast on hope. But you can build a big podcast. And if you're ready to do just that, read this book.

Finding Your Unicorn Job for Pharmacists: Financial Freedom, Flexible Hours, and Personal Fulfillment Beyond the Pharmacy Counter Tony Guerra, 2019-05 This book will help you solve the problem of answering: 1) How do I work as a pharmacist if I have to or want to live in a specific geographic place? and/or 2) How do I work as a pharmacist if I can or want to work only certain hours of the day? Only a Unicorn Job, one that fits my place-bound and time-bound needs perfectly, would work well for me and many others. Traditional pharmacist jobs are fundamentally incompatible or unavailable for me to be a present parent and spouse and what's available in the market might not work for you as well.

The Medical Science Liaison Erin Albert, Cathleen Sass, 2007 The Medical Science Liaison (MSL) role was recently reported as one of the best jobs over six figures for healthcare professionals, yet is relatively unknown, even to the medical community. What is a medical science liaison, and what do they do? In this comprehensive must-have guide to the role, the functions of the role of MSL are explored, along with interviews with several MSLs, those that work around them, and most importantly, the customers of the MSL, academic thought leaders. Every healthcare professional, from a pharmacist, to a PhD, to a MD should learn more about one of the greatest jobs that blend business with technical and scientific acumen.

Motivational Interviewing for Health Care Professionals Bruce A. Berger, 2019-12-16 This highly anticipated second edition features two all-new chapters, including *The Human Brain and Social Threat: Impact on Patients and Health Care Professionals* and *How Do I Know What Skill to Use?* Both chapters result from what the authors have learned from their interactions over the past six years with their students and health care professionals. The authors have applied motivational interviewing to the complex behavior change that is central to patients being able to manage chronic illnesses such as diabetes, high blood pressure, high cholesterol, and osteoporosis.. This book identifies critical interactional dynamics to assist health care providers (HCP's) in developing a conversational flow with the patient. How does empathic understanding create a relationship that allows patients to discuss barriers (and benefits) to managing their illnesses? How can the HCP guide patients to choices they can

make to manage their illnesses? How do we encourage patients to talk about how they make sense of their illnesses and what is happening to them? Using MI will enable you to communicate with your patients in a clear, concise, and sensible way that helps open your patients to the possibility of behavior change. By using the tools and skills in this revised second edition, you can have a greater impact on improving your patient outcomes. Key Features: - Two new chapters address the human brain and social threat, and how to know what MI skills to use - Provides a practical, step-by-step approach to the use of MI skills and tools in all practice settings - Includes multiple dialogues between HCPs and patients to illustrate the use of MI skills and tools - Case studies vividly demonstrate the application of MI through extensive dialogues with video links - Review questions at the end of each chapter underscore key concepts

Healthy at Home Tieraona Low Dog, M.D., 2014-01-14 Get the how, when, and why of getting better and staying well with homemade remedies that the doctor orders. National Geographic helps you take charge of health care guided by a physician expert in natural healing, herbal medicine, and home remedies. Never have we needed this advice more than now, as worries about hospital-borne infections, antibiotic resistance, and pandemic threats make us yearn for the days of doctor home visits and mother's chicken soup. We need to rediscover the special care and comfort that comes from caring for health at home, says Dr. Low Dog. In this book she guides us in identifying, responding to, and caring for all the most common ailments, so that when it's time to take care at home, you have a doctor's advice on how. Learn how to make herbal remedies and why you and your family will be healthier for doing so--and get advice on when it's best to consult a health care professional instead.

Get your midlife health education from someone who has worked with hundreds (thousands?) of women one-on-one to balance their hormones, tweak their lifestyles, and most importantly, set them up to live their healthiest lives! This is a book you'll want to refer to again and again throughout your journey—and then share it with all your girlfriends!" ~Shirley Weir, founder, Menopause Chicks and author of MOKITA: How to navigate perimenopause with confidence and ease

The Clinical Use of Antipsychotic Plasma Levels Jonathan M. Meyer, Stephen M. Stahl, 2021-09-02 Clinicians recognize that monitoring psychotropic levels provides invaluable information to optimize therapy and track treatment adherence, but they lack formal training specifically focused on the use of plasma antipsychotic levels for these purposes. As new technologies emerge to rapidly provide these results, the opportunity to integrate this information into clinical care will grow. This practical handbook clarifies confusing concepts in the literature on use of antipsychotic levels, providing clear explanations for the logic underlying clinically relevant concepts

such as the therapeutic threshold and the point of futility, and how these apply to individual antipsychotics. It offers accessible information on the expected correlation between dosages and trough levels, and also provides a clear explanation of how to use antipsychotic levels for monitoring oral antipsychotic adherence, and methods to help clinicians differentiate between poor adherence and variations in drug metabolism. An essential resource for psychiatrists, psychiatric nurse practitioners, and mental health professionals worldwide.

The First Survivors of Alzheimer's Dale Bredesen,2021-08-17 First person stories of patients who recovered from Alzheimer's Disease--and how they did it. It has been said that everyone knows a cancer survivor, but no one has met an Alzheimer's survivor - until now. In his first two books, Dr. Dale Bredesen outlined the revolutionary treatments that are changing what had previously seemed like the inevitable outcome of cognitive decline and dementia. And in these moving narratives, you can hear directly from the first survivors of Alzheimer's themselves--their own amazing stories of hope told in their own words. These first person accounts honestly detail the fear, struggle, and ultimate victory of each patient's journey. They vividly describe what it is like to have Alzheimer's. They also drill down on how each of these patients made the program work for them--the challenges, the workarounds, the encouraging results that are so motivating. Dr. Bredesen includes commentary following each story to help point readers to the tips and tricks that might help them as well. Dr. Bredesen's patients have not just survived; they have thrived to rediscover fulfilling lives, rewarding relationships, and meaningful work. This book will give unprecedented hope to patients and their families.
