Grindhouse Austin Fisher, Johnny Walker, 2016-09-22 The pervasive image of New York's 42nd Street as a hub of sensational thrills, vice and excess, is from where "grindhouse cinema," the focus of this volume, stemmed. It is, arguably, an image that has remained unchanged in the mind's eye of many exploitation film fans and academics alike. Whether in the pages of fanzines or scholarly works, it is often recounted how, should one have walked down this street between the 1960s and the 1980s, one would have undergone a kaleidoscopic encounter with an array of disparate "exploitation" films from all over the world that were being offered cheaply to urbanites by a swathe of vibrant movie theatres. The contributors to Grindhouse: Cultural Exchange on

42nd Street, and Beyond consider “grindhouse cinema” from a variety of cultural and methodological positions. Some seek to deconstruct the etymology of “grindhouse” itself, add flesh to the bones of its cadaverous history, or examine the term's contemporary relevance in the context of both media production and consumerism. Others offer new inroads into hitherto unexamined examples of exploitation film history, presenting snapshots of cultural moments that many of us thought we already knew.

Copyrighting Culture Ronald V. Bettig,2018-10-08

Launching into a complete analysis of copyright law in our capitalistic and hegemonistic political system, Ronald Bettig uncovers the power of the wealthy few to expand their fortunes through the ownership and manipulation of intellectual property. Beginning with a critical interpretation of copyright history in the United States, Bettig goes on to explore such crucial issues as the videocassette recorder and the control of copyrights, the invention of cable television and the first challenge to the filmed entertainment copyright system, the politics and economics of intellectual property as seen from both the neoclassical economists and the radical political economists points of view, and methods of resisting existing laws. }Launching into a complete analysis of copyright law in our capitalistic and hegemonistic political system, Ronald Bettig uncovers the power of the wealthy few to expand their fortunes through the ownership and manipulation of intellectual property. Beginning with a critical interpretation of copyright history in the United States, Bettig goes on to explore such crucial issues as the videocassette recorder and the control of copyrights, the invention of cable television and the first challenge to the filmed entertainment copyright system, the politics and economics of intellectual property as seen from both the neoclassical economists and the radical political economists points of view, and methods of resisting existing laws.Beautifully written and well argued, this book provides a long, clear look at how capitalism and capitalists seize and control culture through the ownership of copyrights, thus perpetuating their own ideologies and economic superiority. }

Canadian Film and Video Loren R. Lerner,1997-01-01 This extensive bibliography and reference guide is an invaluable resource for researchers, practitioners, students, and anyone with

an interest in Canadian film and video. With over 24,500 entries, of which 10,500 are annotated, it opens up the literature devoted to Canadian film and video, at last making it readily accessible to scholars and researchers. Drawing on both English and French sources, it identifies books, catalogues, government reports, theses, and periodical and newspaper articles from Canadian and non-Canadian publications from the first decade of the twentieth century to 1989. The work is bilingual; descriptive annotations are presented in the language(s) of the original publication. Canadian Film and Video / Film et vidéo canadiens provides an in-depth guide to the work of over 4000 individuals working in film and video and 5000 films and videos. The entries in Volume I cover topics such as film types, the role of government, laws and legislation, censorship, festivals and awards, production and distribution companies, education, cinema buildings, women and film, and video art. A major section covers filmmakers, video artists, cinematographers, actors, producers, and various other film people. Volume II presents an author index, a film and video title index, and a name and subject index. In the tradition of the highly acclaimed publication Art and Architecture in Canada these volumes fill a long-standing need for a comprehensive reference tool for Canadian film and video. This bibliography guides and supports the work of film historians and practitioners, media librarians and visual curators, students and researchers, and members of the general public with an interest in film and video.

Cross-border Cultural Production Janet Wasko, 2008 This volume addresses issues revolving around the production of mediated cultural products across borders. More specifically, the authors consider cross-border cultural production in the film and television industries and how it affects and is affected by media centers, and, more recently, established production locations. The film and television industries have long been recognized as playing important economic, political and cultural roles. And while it could be argued that, historically, these forms of cultural production

often have been international endeavors, the choice of production sites has become an especially contentious issue during the last few decades as global production has expanded. While some factions, notably from the US film and television industries, refer to this issue as runaway production, this book takes a much broader look at the implications and consequences of this phenomenon. Basically, cross-border production involves the expansion of production away from traditional centers, whether to other countries or to other locations within the same country. Thus, this study covers a wide range of issues involving economic and political considerations, as well as creative and aesthetic decision-making.
