Winklatsch Dascal Fernandes, Persis Varghese, 2017-04-06 Stories help us know each other and build community. It is the most kinaesthetic of all literature. Writing stories can be fun but at the same time can be a challenge. The phenomenal success of Winklatch Volume 1 has encouraged our young writers to introduce you to Volume 2 which is packed with entertaining stories and illustrations that will inspire you. Each story is a painted sketch of their lives, as they used imagination and exciting characters to express ideas and feelings as well as to describe experiences. It is an exploration of their life. They were able to organize their thoughts and use written language to communicate with readers in a variety of ways. Their stories share fun ideas with an audience who have a wild imagination.

Cinemachines Garrett Stewart, 2020-04-21 The hero stands on stage in high-definition 3-D while doubled on a crude pixel screen in Billy Lynn's Long Halftime Walk. Alien ships leave Earth by dissolving at the conclusion of Arrival. An illusory death spiral in Vertigo transitions abruptly to a studio set, jolting the spectator. These are a few of the startling visual moments that Garrett Stewart examines in Cinemachines, a compelling, powerful, and witty book about the cultural and mechanical apparatuses that underlie modern cinema. Engaging in fresh ways with revelatory special effects in the history of cinematic storytelling—from Buster Keaton's breaching of the film screen in Sherlock Jr. to the pixel disintegration of a remotely projected hologram in Blade Runner 2049—Stewart's book puts unprecedented emphasis on technique in moving image narrative. Complicating and revising the discourse on historical screen processes, Cinemachines will be crucial reading for anyone interested in the evolution of the movies from a celluloid to a digital

medium.

El apocalipsis Juan Villoro, 2020-09-04 Un guía turístico de Chichén Itzá da una conferencia sobre la teoría maya del fin del mundo para impresionar a una mujer y traicionar de paso todo en lo que ha creído. Tras una caminata iniciática por la ciudad, una niña empieza a sospechar que su papá convive con una familia alternativa en el mundo de los muertos. Un hombre que se dedica a la estadística tiene un tórrido romance con una desconocida que miente cuando está excitada. Personajes que delatan su clandestinidad estando en su propio país; que miran hundirse el terruño desde la cómoda nostalgia del exilio; que cruzan una y otra vez sus fronteras sólo para mirar con ojos frescos el derrumbe de siempre. Los cuentos de Apocalipsis (todo incluido) avanzan con soltura por caminos cuesta arriba: dudosas herencias familiares, arrestos que derivan en partidos de fútbol llanero, amigos de toda la vida que funcionan como el mejor de los enemigos; pero también remontan corrientes traicioneras: la necesidad de reinventarse en medio de cada crisis, de

sobrevivir a las batallas que se pierden por goliza. Con precisión y enorme sentido del humor Villoro retrata a ciudadanos empeñados en ignorar su desgracia, ya sea por sobrevivencia o por deporte, pero también porque esperan que cuando el mundo se resquebraje en mil pedazos, les toque algo mejor.

Éstos utilizan modelos teóricos que combinan tanto los dos enfoques predominantes para el estudio del libro, como el menos explorado. Encontramos así, el que se podría denominar ideológico, el cual considera al libro como reflejo parcial de las mentalidades de las culturas donde se desarrolla; por otro

lado está el enfoque comercial, aquel en que se pone especial atención a la circulación de los libros y por último el menos explorado, el denominado material, que atiende el desarrollo, la evolución y las aplicaciones de los aspectos materiales en el libro.
