Arcade Game Typography Toshi Omigari, 2019-11-05 The definitive survey of '70s, '80s, and early '90s arcade video game pixel typography. *Arcade Game Typography* presents readers with a fascinating new world of typography: the pixel typeface. Video game designers of the '70s, '80s, and '90s faced color and resolution limitations that stimulated incredible creativity. With each letter having to exist in a small pixel grid, artists began to use clever techniques to create elegant character sets within a tiny canvas. This book presents typefaces on a dynamic and decorative grid, taking reference from high-end type specimens while adding a suitably playful twist. *Arcade Game Typography* recreates that visual aesthetic, fizzing with life and color. Featuring pixel typefaces

carefully selected from the first decades of arcade video games, Arcade Game Typography presents a completist survey of a previously undocumented outsider typography movement, accompanied by insightful commentary from author Toshi Omagari, a Monotype typeface designer himself. Gathering an eclectic range of typography, from hit games such as Super Sprint, Marble Madness, and Space Harrier to countless lesser-known gems, Arcade Game Typography is a vivid nostalgia trip for gamers, designers, and illustrators alike.
