Blah Blah Blah Card Game MRS WORDSMITH, 2020-02-25 Finally, a way to make practising phonics fun! Master decoding words using phonics with these three decks of increasing difficulty. Race to get rid of your cards by matching sounds and letters, and play wild cards to trip up your opponents! Blah Blah Blah is a hilariously fun card game, perfect for kids who are just starting to learn to read. Master decoding words using phonics with these three decks of increasing difficulty. Race to get rid of your cards by matching sounds and letters, and play wild cards to trip up your opponents! How does Blah Blah Blah work? Every card features a word consisting of three letters (or groups of letters). Each player takes seven cards. One card is placed face-up on the table with the rest of the deck in a pile, face-down. Players must play a card from their hand that contains at least one of the letters that are in the word on the table. The first player to get rid of all their cards wins. But beware! Wild cards hidden in the deck can force you to skip your turn or draw more cards. Blah Blah Blah was developed with a unique proprietary algorithm by our machine learning team to make sure it works. And it was tested with teachers and kids to make sure they love it! Why are phonics so important? English consists of about 44 phonemes (sound variations), but more than 170 graphemes (different written representations for these sounds). This means that English has no strict one-to-one correspondence between letters and sounds, but it's also not entirely irregular. It involves numerous patterns and regularities. Phonics is the method that helps children become aware of these regularities, and it's proven to be very effective.

Silly Words Word Searches Julie Harper,2012-08-01 This book has 108 word searches which are silly in one way or another. For example, a word might be a combination of two different animals, like “rhinophant,” which is part rhinoceros and part elephant. Some words sound funny (like “phooey”), some words are a play on the English language (like “gooder” and “badder”), and some words include a name as part of the word (like “banJoe”). Other words are silly in yet other ways. All of the words in the same word search puzzle have something in common. A brief note at the bottom of the word search puzzle explains what is silly about each word list. In some cases, if you read the words of the word list in order they will form a wacky sentence. Solve these silly word searches the same way that ordinary word searches are solved – by finding and circling each word in the word list. Words read horizontally, vertically, and diagonally, forward and backward. Solutions are included in the back of the book so that you can check your answers. May you or your children enjoy solving these silly word search puzzles.
