Windows XP Power Hound Preston Gralla, 2004-09-30 Windows XP can be a great tool, but it is all too easy to trip over Windows XP's annoying traits more often than you leverage its productivity. Windows XP power-users troll online resources, documentation, and the expertise (or lucky finds) of friends for valuable tips and tricks--a keyboard shortcut here, an undocumented double-click there--to eliminate annoyances, save time, and take control of their Windows XP. But what if there was an easier way? This new book presents literally hundreds of problems and solutions, amazing power tips, cool tricks, and clever workarounds in one clearly organized, easy to use, and portable resource. Truly insightful and amusing, Windows XP Power Hound gives Windows XP users practical hints for everything from the desktop to Office programs to the registry, and includes documented (but little-known) tips as well as previously undocumented tricks. Windows XP Power Hound moves far beyond mere productivity and explores what's possible with Windows XP--including cool things you probably never thought of doing. An understanding of Windows XP basics will get the job done. But discovering the most useful I didn't know that! tips and shortcuts will make using Windows XP a far richer and less frustrating experience. The practical, concise format of Windows XP Power Hound makes it easy to dip into for a quick tip from time to time; the warm, jargon-free tone makes it easy to read cover to cover. Anyone who wants to smooth out Windows XP's speed bumps and get some serious speed to accelerate through the bottlenecks will find that even a handful of these useful, to-the-point tips will make Windows XP Power Hound worth its weight in chocolate.

Placekicking in the NFL Rick Gonsalves, 2013-12-03 NFL placekicking has an extensive history, from the early days of the dropkick, to the placekick, to kicking barefoot, to soccer style kicking. Each season, approximately 30 percent of all games in pro football are won by field goals. Field goals and extra points account for 20 percent of the league's yearly total points. This book discusses all aspects of NFL placekicking in historical perspective: the effectiveness of different kicking styles; the use of artificial turf and the development of domed stadiums as they relate to placekicking accuracy; individual kickers who helped to change the way a football is kicked; the mental aspects of the skill, so vital to a kicker's success; the development of the square-toe kicking shoe used by straight-on kickers to make better contact with the ball; changes in goal posts and the shape of the ball; and the fine points of centering, blocking and holding

for the kicker.

Computers Helping People with Special Needs Klaus Miesenberger, Joachim Klaus, Wolfgang Zagler, Arthur Karshmer, 2008-07-04 Welcome to the proceedings of ICCHP 2008. We were proud to welcome participants from more than 40 countries from all continents to ICCHP. The International Programme Committee, encompassing 102 experts from all over the world, selected 150 full and 40 short papers out of 360 abstracts submitted to ICCHP. Our acceptance rate of about half of the submissions, demonstrates the scientific quality of the programme and in particular the proceedings you have in your hands. An impressive group of experts agreed to organize "Special Thematic Sessions" (STS) for ICCHP 2008. The existence of these STS sessions helped to bring the meeting into sharper focus in several key areas of assistive technology. In turn, this deeper level of focus helped to bring together the state-of-the-art and mainstream technical, social, cultural and political developments. Our keynote speaker, Jim Fruchterman from BeneTech, USA highlighted the importance of giving access to ICT and AT at a global level. In another keynote by Harold Thimbleby, Swansea University, UK, the role of user-centred design and usability engineering in assistive technology and accessibility was addressed. And

finally, a combination keynote and panel discussion was reserved for WAI/WCAG2.0, which we expect to be the new reference point for Web accessibility from the summer of 2008 and beyond.
