Jivanta Schöttli

**India Tomorrow** Pradeep Chhibber, Harsh Shah, 2020-08-14 The next generation of political leaders will determine India's future. We know their names, but not what lies behind what we hear or see of them in the event/news-focussed coverage in newspapers and television channels. For instance, what moves them? Who inspires them? What are their passions and interests outside of politics? Where do they stand on some of India's most contentious political issues? Do they have any regrets about their political careers? How do they explain some of the inconsistencies in their words and actions? Have their career choices come with significant personal costs? This book provides a snapshot of contemporary Indian politics, and its future, through conversations with twenty of the country's most prominent next-generation politicians. It explores issues and tensions that lie at the heart of Indian politics and society. In doing so, it also challenges facile and sweeping generalizations about the next generation of political leaders, compelling us to consider Indian politicians as complex, thinking individuals with unique personalities, differing visions for India, and their place in history.

**India Tomorrow** Pradeep Chhibber, Harsh Shah, 2020 A deep-dive into the current domain of Indian politics and pre-empt the course the young republic will take in decades to come. The authors interview many prominent young and dynamic politicians in India - below the age of 50 - from across the country and the vast political parties' spectrum. The exercise taps into their brand of politics; local, national, and global concerns; challenges and goals, as well as the political future each of them imagines for their constituencies and the country.

**Power and Influence in India** Pamela Price, Arild Engelsen Ruud, 2012-07-26 Taking cognisance of the lack of studies on leadership in modern India, this book explores how leadership is practiced in the Indian context, examining this across varied domains — from rural settings and urban neighbourhoods to political parties and state governments. The importance of individual leaders in the projection of politics in South Asia is evident from how political parties, mobilisation of movements and the media all focus on carefully constructed personalities. Besides, the politically ambitious have considerable room for manoeuvre in the institutional setup of the Indian subcontinent. This book focuses on actors making their political career and/or aspiring for leadership roles, even as it also foregrounds the range of choices open to them in particular contexts. The articles in this volume explore the variety of strategies used by politically engaged actors in trying to acquire (or keep) power — symbolic action, rhetorical usage, moral conviction, building of alliances — illustrating, in the process, both the opportunities and constraints experienced by them. In taking a qualitative approach and tracking both political styles and transactions, this book provides insights into the nature of democracy and the functioning of electoral politics in the subcontinent.

**Vision and Strategy in Indian Politics** Jivanta Schöttli,2012-02-20 The 1950s in India were a crucial transition phase where the legacy and institutions of British rule had to be transformed to fit the needs of a post-colonial state. This period is closely associated with India's first Prime Minister, Jawaharlal Nehru (1947 – 64). Selecting three key policies closely associated with him, the book traces the political origins of the Panchasheela Agreement with China in 1954, the Hindu Code Bills of 1955 and 1956 and the founding of the Planning Commission in 1950. Each provides a window into the compulsions of Indian domestic politics at the time as well as the parameters of parliamentary debate. The book goes on to discuss how these policies correspond to the pillars of Nehru's vision for a modern, independent India that encapsulated socialism, nonalignment and secularism and assesses their long-run impact in Indian politics. With a growing recognition of the resilience of India's political arrangements, the analysis is particularly relevant to those interested in the politics of transition and modernisation, and contributes to studies on Political Institutions and South Asian Politics.

**Prophet and Statesmen in Crafting Democracy in India** Fabio Leone,2019-09-05 Addressing the relationship between the leadership and democratization processes in India, this study examines how political leaders can successfully steer the process of regime change within complex, hostile, and

undemocratic conditions.

**Political Leadership and Charisma** Michael Brecher, 2016-09-23 This book is unique in illuminating and comparing the charismatic role of two political leaders, Jawaharlal Nehru and David Ben-Gurion, along with assessments of many other 20th century political leaders. Its aim is to enrich our knowledge of an important dimension of global politics: charismatic leadership. The central role of political leaders in shaping the behavior of states has been universally recognized since the political systems of antiquity in East Asia, the Middle East, and Europe. With the massive increase of independent states since the end of World War II, from 55 initial members of the United Nations to more than 200 today, and especially the emergence of awesome weapons of mass destruction, the centrality of political leaders in the survival of the planet has grown exponentially. Both India and Israel have experienced the crucial role of charismatic leaders, Nehru and Ben Gurion, who dominated their states and societies for a near-identical formative period in their political independence, 1947-64 and 1948-63 respectively, as charismatic leaders. Their impact, Brecher shows, extended far beyond their states to both their geographic regions and global politics.

**Interpreting Politics** John Echeverri-Gent, Kamal Sadiq, 2020-09-10 In careers that spanned six decades, Padma Bhushan award winners Lloyd and Susanne Rudolph elaborated seminal insights about Indian politics. The Rudolphs' rigorous and remarkably empathetic study of India coupled with their extensive reading of social science theory served as the basis for their development of a broader interpretive mode of political analysis centered on the complex processes by which people construct meaning and motivation for political action. The eminent contributors to this volume pay tribute to the Rudolphs' scholarship by

examining its contributions to their own cutting-edge research as they advance the frontiers of the study of Indian politics and social science writ large. Their engaging essays analyze vital topics including how 'situated knowledge' shapes discourse, moral imagination, political strategies, and institutional change. They apply this interpretive approach to Indian politics to illuminate how the interaction of caste, class, gender, and religion has structured political mobilization, how changing social and political relations have affected education policy and civil–military relations, and how political leadership is forging the future of Indian politics.
