Translations of scientific and technical monographs and articles.

Multiethnic Regionalisms in Southeastern Europe Dejan Stjepanović, 2017-09-18 This book is based on a comparative study of regionalisms in Croatia's regions of Dalmatia and Istria as well as Serbia's Vojvodina. The monograph's main focus is on regionalist political party strategies since 1990, and within that, each case study considers history and historiography, inter-group relations, economics, and region-building. The analysis demonstrates that many of the common assumptions about the causal determinants of territorial autonomy projects and outcomes, as well as about a teleological and unidirectional path from regionalism to nationalism, do not stand up to scrutiny. The author introduces original concepts such as plurinational, multinational and sectional regionalism to theories of nationalism and territorial politics. This book will appeal to scholars and upper-level students interested in territorial politics, federalism, nationalism and comparative politics.

**Hemp** Pierre Bouloc, 2013-09-16 Hemp production for industrial purposes continues to grow worldwide, and is currently being used for many applications including house insulation, paper making, animal bedding, fabric, rope making and also as a biofuel. This book brings together international experts to examine all aspects of industrial hemp production, including the origins of hemp production, as well as the botany and anatomy, genetics and breeding, quality assessment, regulations, and the agricultural and industrial economics of hemp production. A translation of *Le Chanvre Industriel*, this book has been revised and updated for an international audience and is essential reading for producers of industrial hemp, industry personnel and agriculture researchers and students.
