Mixing Music Russ Hepworth-Sawyer,Jay Hodgson,2016-12-01 This series, *Perspectives On Music Production*, collects detailed and experientially informed considerations of record production from a multitude of perspectives, by authors working in a wide array of academic, creative, and professional contexts. We solicit the perspectives of scholars of every disciplinary stripe, alongside recordists and recording musicians themselves, to provide a fully comprehensive analytic point-of-view on each component stage of record production. Each volume in the series thus focuses directly on a distinct aesthetic moment in a record's production, from pre-production through recording (audio engineering), mixing and mastering to marketing and promotions. This first volume in the series, titled *Mixing Music*, focuses directly on the mixing process. This book includes: References and citations to existing academic works; contributors draw new conclusions from their personal research, interviews, and experience. Models innovative methodological approaches to studying music production. Helps specify the term record production, especially as it is currently used in the broader field of music production studies.

Styling Your Writing Jen McConnel,2022-05-11 This text helps developing writers in the academy and beyond think through their writing process and develop strategies for styling their writing to meet the demands of a wide range of goals. The book imagines writing as an assortment of outfits-- bundles of styles and strategies through which one approaches a writing purpose, such as writing focused on experimentation and growth or writing focused on a professional task. By assessing the outfits writers feel most and least confident in, and examining how to be more at home in the outfits that matter to them, this book helps students develop both specific skills and their overall identity as writers. Readers are guided through before-, during-, and after-writing strategies and techniques, including: freewriting, outlining, visual planning, and composing in multimodal forms. Readers are also introduced to the importance of setting clear writing goals and sharing their work in a variety of ways, both in preparation for classroom success through peer review and writing center visits, and beyond the classroom in virtual and in-person spaces. This book serves as a core or supplemental text for writing courses at the undergraduate, graduate, or high school level, or as a writing guide for individual readers.
