This volume summarizes a series of studies undertaken to better understand the current socioeconomic context of the Northern and Eastern provinces in Sri Lanka. Nearly a decade after the end of the Sri Lankan civil war, the Northern and Eastern provinces lag in key social and economic measures. The study was made up of six background studies focused on (i) the provincial economies and economic structures of the North and East; (ii) labor force dynamics; (iii) demographic changes and impacts on vulnerability; (iv) the psychosocial needs of the local population; (v) community and social institutions; and (vi) livelihood trends and impacts of the war on productive assets. These studies were informed by both primary data collection, as well as secondary data sources and literature. The key findings from the assessment show that significant public investments in the Northern and Eastern provinces have resulted in growth and convergence between these provinces and the rest of the country. However, pockets of poverty and deprivation remain across these provinces, and the economic base of

the region has yet to fully recover from the impacts of the civil war. Social vulnerabilities were persistent across the Northern and Eastern provinces, and were closely linked with poverty rates. With the demographic impacts of the war, vulnerabilities for women are growing in the region. There was a high rate of psychosocial needs recorded, and evidence that the social fabric has not been fully restored since the war. Citizen engagement, trust, and accountability remain important priorities, alongside economic revival, job creation, and restoring the social fabric and local institutions.

Sri Lanka, Challenges of the New Millennium G. H. Peiris, 2006 Articles predominantly on economic development, poverty, environmental degradation, and ethnic conflict.

Decentralization and Development of Sri Lanka Within a Unitary State N.S. Cooray, Sirimal Abeyratne, 2017-09-19 This comprehensive volume provides uniquely diverse insights into various aspects of decentralization and development from both developed and developing countries, with special reference to Sri Lanka. For a quarter century, Sri Lanka was battered by its prolonged civil war, which ended in 2009, but has now achieved relative peace and stability. Having developed rapidly, Sri Lanka offers a classic example for developing countries. There is, however, a strong need, particularly in the context of postwar conflict, to formulate policies for reconciliation, peace building, and development at all levels—local, provincial, and national. Decentralization itself is not a new

subject; however, how to devolve power to local administrative levels within a unitary system and how to link the devolved power to make local administrative systems more conducive to development and provide better services for citizens are challenging tasks in many countries. Taking into account the developmental, governance, and conciliatory needs and the sensitivity of central–local relations, this volume critically examines the local government systems in Sri Lanka. It also proposes a viable, effective and autonomous local-level administrative unit based, which draws on experiences from Japan and other countries, and identifies the role and functions of such a unit. The book presents commissioned papers from a three-year research project undertaken by internationally respected experts with financial support by the Japan Society for the Promotion of Science (JSPS) under a Grant-in-Aid for Scientific Research.

The "traditional Homelands" of the Tamils K. M. De Silva, 1995 This essay critically examines the arguments advanced in support of Tamil separatist claims for the Northern and Eastern Provinces of Sri Lanka and part of the North-Western Province, a region that the Tamils refer to as their traditional homelands. The author is a historian and Executive Director of the International Centre for Ethnic Studies in Sri Lanka. The evolution of the concept of Tamil traditional homelands is traced and the validity of the historical references the separatists use to legitimise their claims are evaluated. The author sees these claims

as a contemporary example of the development of a political myth, where myth is taken to mean a tale told to justify some aspect of social order, based on a particular interpretation of facts already present in the culture. The final part of the essay looks at the debate about the homelands during the years 1985-1994, a period which closes with Sinhalese political opinion insisting that the current amalgamation of the Northern and Eastern Provinces be undone. Comparisons are made with other separatist claims in Asia, such as those of the Moros in the Philippines.

Ethnic Unrest in Modern Sri Lanka Haraprasad Chattopadhyaya, 1994 The study presents a comprehensive account of the current ethnic conflict between the Sri Lankan Tamils and the Sinhalese Government. Staking their claim as the earliest immigrants into the island, a claim challenged by the tamils, the sinhalese in course of time, assumed political sovereignty over the island including the Tamils in the Socio-economic-educational fields as well.

Sri Lankan Ethnic Crisis R. B. Herath, 2002 This book is a result of years of research on the Sri Lankan ethnic crisis. It gives a vivid description of the crisis, analyses the numerous factors that influence it, and explains a way to end it by democratic means. *Sri Lankan Ethnic Crisis: Towards a Resolution* is a unique book among those written on the Sri Lankan ethnic crisis for a

number of reasons. It is the only book on the market that looks at the Sri Lankan ethnic crisis in a comprehensive manner. Every other book written on the subject focuses only on some selected aspects of the crisis. At the same time those written before do not help the reader understand the present intricacies of the crisis. A close look at all the books so far written on the subject reveals that Sri Lankan Ethnic Crisis: Towards a Resolution is the first book to: reach readers in both the academic and non-academic environments; help the reader fully understand the historic context of the ethnic crisis in Sri Lanka; discover and discuss in a co-ordinated manner the hidden factors that influence the crisis; expose the disguise of the elite and dynastic-type post-colonial rule as democracy, and the unbuddhist influence of some Buddhist monks on the ethnic crisis; remind the British, the last colonial power of Sri Lanka, of their responsibility for the present predicament of the Sinhalese peasantry and stateless Indian Tamils; suggest a complete solution to the crisis with a new democratic model of governance, which is equally applicable in principle to other countries suffering from ethnic strife; and Outline a way to implement the solution in the present political climate. This is the first time a person outside social science academia and the journalistic world has written a book on the subject, giving the citizen's point of view on the ethnic crisis combined with a democratic solution. In his solution, the author suggests a new, bottom-up approach to the crisis, with the people at the

centre of the decision making process, instead of the top-down approach that has so far failed. The Sri Lankan Ethnic Crisis: Towards a Resolution is a book of 85,000 words. It also includes a number of explanatory maps, tables, and charts. It is an easy-to-read, concise and up-to-date book that has the answers to the burning questions raised by those committed to finding a lasting solution to the Sri Lankan ethnic crisis. It is a book of interest to everyone everywhere interested in the phenomenon of identity politics, and in matters of democratic processes to ensure the civil, human and political rights of the entire citizenry. Sri Lankan Ethnic Crisis: Towards a Resolution has five chapters. The first chapter introduces the reader to the Sri Lankan ethnic crisis and the objectives and organisation of the book. The second chapter gives a historical background to the crisis. It takes the reader through three phases of Sri Lankan history: pre-colonial, colonial and post-colonial. It is useful for the reader to know the historical background of the crisis to fully understand its present complexities. The third chapter identifies the root cause of the crisis and explains 10 main factors that have contributed to its escalation into a separatist war since independence in 1948. The fourth chapter stresses the importance of a new political beginning for Sri Lanka as a multiethnic independent nation, and explains eight basic factors that should constitute the foundation for such a new beginning. Then it discusses the varied governing systems developed in other democracies in the world, and proposes a

new democratic governing model for Sri Lanka. The model addresses the ethnic issues in Sri Lanka and formulates a way to establish genuine democracy in the country, giving the power of self-determination to all its peoples. This chapter also explains how the country would be able to implement such a new mo

Sri Lanka Walter Nubin, 2002 This book provides an overview of the development of a small country, which on the one hand, is unique, and on the other hand, is also an interesting reflection and microcosm of the global economy. Sri Lanka's development is one of the contrasts, complicated by social conflicts and ethnic tensions. Social, political, economic and constitutional developments are considered. This is in accordance with the Sri Lankan tradition of seeing the world as a connected whole. The Democratic Socialist Republic of Sri Lanka (formerly known as Ceylon) is an island in the Indian Ocean approximately 18 miles off the south-eastern coast of India with a population of about 19 million. Density is highest in the south-west where Colombo, the country's main port and industrial centre, is located. Sri

Lanka is ethnically, linguistically, and religiously diverse. Sri Lanka follows a non-aligned foreign policy. It participates in multilateral diplomacy, particularly at the United Nations, where it seeks to promote sovereignty, independence, and development in the developing world.
