Re-solving the Economic Puzzle Walter Rybeck,2011-04-01
Pinpointing a flaw in prevailing economic practices that explains why so many families in the richest nation on earth are mired in poverty, homelessness, joblessness, and hunger, this study suggests that a reform is available to correct this flaw that is corroding the enterprise system. This flaw is widely accepted and enshrined in law; certain taxation and land policies enable a powerful few to skim off a large share of the wealth created by the mass of citizens. How this injustice plays a major role in generating destructive boom and bust cycles is important, but the overprivileged who benefit from “legalized theft” are not vilified. Rather, the book calls for correcting the public policies that make slum ownership, land speculation, and other forms of parasitic and exploitive behavior more profitable than honest labor and productive enterprise. Accounts of places in the United States and elsewhere that are applying the proposed reform are presented, proving that it is politically feasible, and offers an ethical cleansing of the economy so that all people can enjoy all the fruits of their efforts.

Who Is Ozymandias? John Fuller, 2011-05-12 Part of the pleasure of poetry is unravelling the mysteries and difficulties it contains and solving the puzzles that lie within. Who, for instance, is Ozymandias? What is the Snark? Who is the Emperor of Ice-Cream? Or indeed, who is 'you' in a poem? In this perceptive and playful new book, acclaimed poet John Fuller looks at some of our greatest poems and considers the number of individual puzzles at their heart, casting light on how we should approach these conundrums as readers. From riddling to double entendres, mysterious titles to red herrings, Fuller unpicks the puzzles in works that range from Browning to Bishop, Empson to Eliot, Shelley to Stevens, to help us reach the rewards and revelations that lie at the centre of some of our best-loved poems.

Urban Space: experiences and Reflections from the Global South Hernández García, Jaime, Cárdenas-O'Byrne, Sabina, García Jerez, Adolfo, BB Beza, 2018-12-14 The structuring of Urban Space is as topical as ever in this era of climate change, hyper-urbanisation, post-digital labour markets, and geo-political power shifts. Scholarship of the contemporary urban condition is dominated by studies and examples drawn from the global north. Yet, cities of the global south are distinctive from those of the

global north. Socio-political conditions structure patterns and practices of urban reproduction and, in turn, Urban Space reflects conditions in the Global South. The result is different space related outcomes. This is the central topic of this collection. In this book, a unique collection of case study-based accounts posits both English and Spanish academic literature to interpret and reinterpret the appropriation, negotiation and reconfiguration of Urban Space in cities, from Colombia to Namibia. This collection will be of particular interest to urban scholars and others interested in contemporary urban change, especially those with an interest in the Global South. Readers will encounter new perspectives on the State's enduring influence in urban land and territory reconfiguration and the contrasting wider rhetoric that affords and legitimises a key role for the private sector. The case studies also illuminate opportunities and possibilities for grassroots organising to challenge prevailing city actor hierarchies. They also highlight the political-economic consequences of particular cases of bus rapid transport projects for spatial and social segregation. Across these and other topics, recurring themes of inequality, governance, and environment are investigated in contested urban terrains. The result is a unique collection of viewpoints, with a common, critical narrative on the present and future challenges facing cities of the Global South.

Examining the Evolution of Gaming and Its Impact on Social, Cultural, and Political Perspectives Valentine, Keri

Duncan, Jensen, Lucas John, 2016-06-20 With complex stories and stunning visuals eliciting intense emotional responses, coupled with opportunities for self-expression and problem solving, video games are a powerful medium to foster empathy, critical thinking, and creativity in players. As these games grow in popularity, ambition, and technological prowess, they become a legitimate art form, shedding old attitudes and misconceptions along the way. Examining the Evolution of Gaming and Its Impact on Social, Cultural, and Political Perspectives asks whether videogames

have the power to transform a player and his or her beliefs from a sociopolitical perspective. Unlike traditional forms of storytelling, videogames allow users to immerse themselves in new worlds, situations, and politics. This publication surveys the landscape of videogames and analyzes the emergent gaming that shifts the definition and cultural effects of videogames. This book is a valuable resource to game designers and developers, sociologists, students of gaming, and researchers in relevant fields.

Margaret Truman's Murder on the Metro Margaret Truman, Jon Land, 2021-02-16 In *Margaret Truman's Murder on the Metro*, Jon Land's first thrilling addition to the New York Times bestselling Capital Crimes series, Robert Brixton uncovers a sinister plot threatening millions of American lives! A roller coaster of a novel. —David Baldacci, New York Times bestselling author *Israel: A drone-based terrorist attack kills dozens on a sun-splashed beach in Caesarea. Washington: America awakens to the shattering news that Vice President Stephanie Davenport has died of an apparent heart attack. That same morning, a chance encounter on the Washington Metro results in international*

private investigator Robert Brixton thwarting an attempted terrorist bombing. Brixton has no reason to suspect that the three incidents have anything in common, until he's contacted by Kendra Rendine, the Secret Service agent who headed up the vice president's security detail. Rendine is convinced the vice president was murdered and needs Brixton's investigative expertise to find out why. In Israel, meanwhile, legendary anti-terrorist fighter Lia Ganz launches her own crusade against the perpetrators of that attack which nearly claimed the lives of her and granddaughter. Ganz's trail will ultimately take her to Washington where she joins forces with Brixton to uncover an impossible link between the deadly attack on Caesarea and the attempted Metro bombing, as well as the death of the vice president. The connection lies in the highest corridors of power in Washington where a deadly plot with unimaginable consequences has been hatched. With the clock ticking toward doomsday, Brixton and Ganz race against time to save millions of American lives who will otherwise become collateral damage to a conspiracy destined to change the United States forever. Margaret Truman's Murder in the Metro is a spectacular international thriller of intrigue and conspiracy that I could . . . not . . . put . . . down. —Mark Greaney, New York Times bestselling author At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Mama Sutra Anne Cushman, 2019-04-16 A “beautifully written and self-revealing” memoir of motherhood—in all its messy glory—as a spiritual practice, by a longtime yoga and dharma teacher (Tara Brach, author of *Radical Acceptance*) Sutra is the Sanskrit name for a short spiritual teaching, and it comes from the same root as the English word suture, or stitch. This story of motherhood as a path to awakening is, says yoga and meditation teacher Anne Cushman, “an homage to the long threads that run through all human lives, stitching up what’s shredded in our hearts.” The *Mama Sutra* spans an eighteen-year journey through motherhood as a spiritual practice, chronicling Cushman’s first pregnancy, her daughter’s tragic stillbirth, the joyful birth of her son, the “home retreat” of early motherhood, the challenges of parenthood, the diagnosis and gifts of her son’s developmental differences, the meltdown of her nuclear family and its reconfiguration into a new and joyful form, and more. This is a powerful story of the rawness and beauty of life.

The 10-minute Detective Christopher Golden, 1997 They call me Case. Justin Case, detective for the Metro P.D. You see a lot of nutty things in this crazy business. I mean, who would guess that a fortune in Chinese artifacts would just disappear from the Metro Museum? Or that someone would lace a supermodel’s lipstick with deadly poison? And then there’s that Rayzor Sharpe. I put the clueless little punk away for life, but then he breaks out. Now he’s on the loose and hungry for revenge, and I’m Numero Uno on his menu. I don’t like to brag, but I haven’t seen a crime that I couldn’t solve. How about you? Let’s see if you can crack these cases from my files. I’ve even provided some of the crime-scene sketches to help you out. But watch your back! You never know when Rayzor Sharpe will turn up next—like maybe the next time you turn the page. About the Author Christopher Golden is the author of several science fiction, fantasy, and horror novels, including the bestselling trilogy *X-Men: Mutant Empire*. He is the regular writer for the popular comic book series *Shi* and has also

written for other comics. He recently launched his own horror/action comics line, The Terrorist Saga.

Metrospiritual Sean Benesh, 2011-02-24 Metrospiritual: The Geography of Church Planting is about church planting in the city. There is an outpouring of new expressions of church being started throughout metro areas across North America. Where are these new churches being started? Maybe a more subterranean question is, Why? Why are churches being started where they are and why is there is a bias towards one part of the city and an overall neglect of other parts? Metrospiritual explores these questions and more as it builds off of recent research and surveys of hundreds of church planters in seven large cities in the United States and Canada. There is a deeper look at pivotal issues such as gentrification, the Creative Class, community transformation, urban renewal, and the role new churches play in all of these.

Shaping the Metropolis Zack Taylor, 2019-05-23 Rising income inequality and concentrated poverty threaten the social sustainability of North American cities. Suburban growth endangers sensitive ecosystems, water supplies, and food security. Existing urban infrastructure is crumbling while governments struggle to pay for new and expanded services. Can our inherited urban governance institutions and policies

effectively respond to these problems? In *Shaping the Metropolis* Zack Taylor compares the historical development of American and Canadian urban governance, both at the national level and through specific metropolitan case studies. Examining Minneapolis-St Paul and Portland, Oregon, in the United States, and Toronto and Vancouver in Canada, Taylor shows how differences in the structure of governing institutions in American states and Canadian provinces cumulatively produced different forms of urban governance. Arguing that since the nineteenth century American state governments have responded less effectively to rapid urban growth than Canadian provinces, he shows that the concentration of authority in Canadian provincial governments enabled the rapid adoption of coherent urban policies after the Second World War, while dispersed authority in American state governments fostered indecision and catered to parochial interests. Most contemporary policy problems and their solutions are to be found in cities. *Shaping the Metropolis* shows that urban governance encompasses far more than local government, and that states and provinces have always played a central role in responding to urban policy challenges and will continue to do so in the future.
