**Pyro** Earl W. Emerson,2005 To a firefighter, there is nothing worse than an arsonist. Seattle's Lt. Paul Wolff hates a pyro more than most. Twenty years ago, an arsonist killed his father, triggering a chain of events that left Wolff seething in anger and isolation. When a pyromaniac starts to turn Seattle into his private little hell, Wolff begins to see a pattern: the fires are getting closer and closer to his station. And when a crucial piece of evidence turns up, Wolff suspects the unthinkable: this pyro is after him! In his pulse-pounding thriller, Earl Emerson, a lieutenant in the Seattle Fire Department, takes readers into the heart of a metropolitan firefighting unit.

*Media Education Goes to School* Allison Butler,2010 Media Education Goes to School

examines the struggles involved in integrating media education across the curriculum at a small urban school. Based on quasi-ethnographic research - specifically semi-formal individual and group interviews with twenty-one participants and participant-observation - the text focuses on how students understand and make meaning of media education in their schools, and what they know about urban education and urban school reform. The book argues against the neoliberal ethos that continuously harms urban youth and the rhetoric of new school reform that replicates, not heals, subjected social positions. Media education is a necessity in secondary schooling, but it cannot be thoroughly integrated into schools until significant structural changes are made in education: this book positions the site of change through the struggles students express with their own experience of education.

*Video Games Around the World* Mark J. P. Wolf,2015-05-01 Thirty-nine essays explore the vast diversity of video game history and culture across all the world's continents. Video games have become a global industry, and their history spans dozens of national industries where foreign imports compete with domestic productions, legitimate industry contends with piracy, and national identity faces the global marketplace. This volume describes video game history and culture across every continent, with essays covering areas as disparate and far-flung as Argentina and Thailand, Hungary and Indonesia, Iran and Ireland. Most of the essays are written by natives of the countries they discuss, many of them game designers and founders of game companies, offering distinctively firsthand perspectives. Some of these national histories appear for the first time in English, and some for the first time in any language. Readers will learn, for example, about the rapid growth of mobile games in Africa; how a meat-packing company held the rights to import the Atari VCS 2600 into Mexico; and how the Indonesian MMORPG Nusantara Online reflects that country's cultural history and folklore. Every country or region's unique conditions provide the context that shapes its national industry; for example, the long history of computer science in the United Kingdom and Scandinavia, the problems of piracy in China, the PC Bangs of South Korea, or the Dutch industry's emphasis on serious games. As these essays

demonstrate, local innovation and diversification thrive alongside productions and corporations with global aspirations. Africa • Arab World • Argentina • Australia • Austria • Brazil • Canada • China • Colombia • Czech Republic • Finland • France • Germany • Hong Kong • Hungary • India • Indonesia • Iran • Ireland • Italy • Japan • Mexico • The Netherlands • New Zealand • Peru • Poland • Portugal • Russia • Scandinavia • Singapore • South Korea • Spain • Switzerland • Thailand • Turkey • United Kingdom • United States of America • Uruguay • Venezuela
