**Photo Quest** Rick Sammon, 2020-05-05 Photo Quest - Discovering Your Photographic & Artistic Voice is a sequel to Rick Sammon's internationally best-selling book, Photo Therapy Motivation and Wisdom - discovering the power of pictures. This book, Rick's 41st, was written for photographers, as well as for all types of artists - because the lessons and philosophies on these pages are universal to all creatives. Like Photo Therapy, Photo Quest includes only words of wisdom motivation and inspiration. There are no photographs in this book. Rick says there are two reasons for not including photographs (unlike his 40 other books and 18 online classes that are richly illustrated with hundreds of photographs from his travels around the world): One, I want you to slow down and read the text carefully; Two, I want you to think about your photography and art when you are reading about an idea or technique - and not be distracted by my colorful images. Rick Sammon has assembled an all-star team of photo and creative mentors for this important book - a team that offers advice and insight on finding one's photographic and artist voice. As Rick says, You'd be hard pressed to find this much talent between the covers of one photography book. This list of contributors reads like a Who's Who in the world of photography in 2020. These pros include Erin Babnick, Martin Baily, Richard Bernabe, Steve Brazill, Jeff Cable, Tony Corbell, Patricia Davidson, Dave DeBaermaeker, Ron Clifford, Ed Cooley, Unmsh Dinda, Frank Doorhof, Piper Mackay, Scott Kelby, Karen Hutton, Don Komarechka, Ian Plant, Trey Ratcliff, Art Wolfe - and more! If you are in search of becoming a more creative photographer, and not just ways of taking better pictures (there is a big difference), you have come to the right place. And if you are thinking about changing lanes - changing your career or making creative changes in your life - this book is for you. On these pages you will learn about (in chapter titles of the same name): Finding Your Superpower and Inner Voice, Your Secret Weapon, Idea to Image, Specializing or Not Specializing, The Rollercoaster Ride of Creatives, The Importance of Your Conversation, Changing Lanes, Creating a Sense of Mystery, Photography & The Death of Reality, Know Your Audience & Build Your Brand - and more. Each of the 22 chapters in the book ends with a Mission - an assignment - that will help you on your personal photo quest, which Rick feels will be one of the most rewarding adventures in your photographic and artistic life. This book is also filled with dozens of inspirational quotes relating to photographs and all artists. Here is one of Rick's favorites: An artist cannot fail; it is a success to be one. - Charles Cooley

**The Photo Ark** Joel Sartore, 2017 This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

**The Black Leopard** Will Burrard-Lucas, 2021-04-20 This inspiring book tells the story of a photographer's journey to find the mysterious black leopard. There are few creatures as gorgeous and elusive as the black leopard. In Africa, these magnificent cats are so rare as to be the stuff of legend. Will Burrard-Lucas's love for leopards began during his childhood in Tanzania and propelled him into a career as a wildlife photographer. In his quest to create intimate portraits of animals, he developed innovative technology, including a remotely controlled camera buggy and a high quality camera trap system for photographing nocturnal creatures. Then, one day in 2018, he heard about sightings of a young African black leopard in Kenya and with the help of people from the local community, he succeeded in capturing a series of high-quality photographs of the elusive cat. In this compelling and visually stunning book, Burrard-Lucas tells his story of creativity, entrepreneurship, and passion for wild animals, alongside awe-inspiring images of lions, elephants, and the black leopard itself. • **STAR WILDLIFE PHOTOGRAPHER:** Will Burrard-Lucas's passion for nature and expertise in camera technology have earned him coverage from National Geographic, The New York Times, and the BBC—and over 1 million fans enjoy his breathtaking work online. • **NATURE'S HIDDEN WONDERS:** Black leopards are individual animals in whom a gene mutation results in excess melanin and an elegant black coat. Most are found in Southeast Asia, where lush vegetation offers them camouflage. In the semiarid shrub lands of Africa, black leopards are extraordinarily rare. Burrard-Lucas's images—showing these beautiful creatures prowling their territory under cover of night—are vivid reminders of nature's hidden wonders. • **INCREDIBLE STORY:** This is an adventure story that takes place in remote and wild corners of Africa. It reveals Burrard-Lucas's devotion, vision, and innovation that led to him capturing photos that are not only incredibly rare, but also breathtakingly beautiful. Perfect for: • Aspiring and professional photographers • Photography buffs • Nature and animal lovers • Big cat enthusiasts • Conservationists • National Geographic readers • Fans of memoir and adventure stories • Travelers to Eastern and Southern Africa

**PHOTO ART THERAPY** Jerry L. Fryear,Irene E. Corbit,1992-01-01 PHOTO ART THERAPY: A JUNGIAN PERSPECTIVE illuminates and guides the reader through new possibilities for art therapy practice, approached by the authors as a creative interaction with different artistic media and therapeutic methods. Although the book is based on Jungian theory and practice, the authors carefully explore cooperation with other therapeutic perspectives, all of which are in keeping with Jung's belief in transcendent universals and multifaceted therapeutic practices. The book is divided into four sections: Self-Understanding, Alleviating Distress and Symptoms, Group Therapy, and Discussion. Wherever possible and practical, photo art therapy work done by clients as illustrations of the concepts is included. The text not only demonstrates innovative ways of combining artistic media but allows clients to articulate the inner workings of the therapeutic process through an engaging series of dialogues and narrations. The book establishes a twofold landmark in elucidating art therapy's close and vital connections to both phototherapy and the discipline of Jungian psychotherapy.
