India's Railway History John Hurd II,Ian J. Kerr,2012-08-03 This handbook provides an indispensable reference guide to most aspects of the history of India's railways. The secondary literature is surveyed, primary sources identified, statistical and cartographic data discussed, and a massive bibliography made available.

Delivering a Sustainable Railway Great Britain. Parliament. House of Commons. Transport Committee,2008 The White Paper, 'Delivering a sustainable railway' (Cm. 7176, ISBN 9780101717625) published on July 2007 and set the Government's general vision for the railways for the next thirty years. Network Rail's engineering overruns at New Year 2008 caused tremendous inconvenience to passengers across the country and inevitably shaped the Committee's oral evidence sessions. The Committee's investigation, along with analyses from the Office of Rail Regulation (ORR) have led them to believe that the engineering overruns are symptomatic of crucial system flaws which have to be resolved if there is to be any hope of getting a sustainable railway, as promised in the White Paper. This report covers both subjects

Changing Trains Didier van de Velde,2018-12-17 Published in 1999. The book presents and compares the new relationships between transport authorities and railway companies in a number of countries (Great Britain, Sweden, Japan, Germany, Switzerland and France). It also presents a number of case studies focusing on the role of contracts, competition and tendering and presenting the achievements of the new regimes so far. This book is aimed at all transport professionals, authorities and academics interested in the increasing use of competition in the passenger railway sector.

Managing Passenger Logistics Paul Fawcett,2000 Addresses the changes in passenger logistics and explores the various ways in which it is planned and managed in the various forms of transport.

GB rail timetable winter edition 11 Network Rail,2010-12-10 The GB Rail Timetable contains rail services operated over the GB rail network, together with rail and shipping connections with Ireland, the Isle of Man, the Isle of Wight and the Channel Islands. Published by TSO with permission from Network Rail (owners of Britain's national railway and stations) the GB Rail Timetable - Winter Edition 11 holds details on passenger services operated by the Train Companies, who work together closely to provide a coordinated rail network offering a range of travel opportunities.

Competition, Regulation and the Privatisation of British Rail John Shaw,2019-05-24 This title was first published in 2000. This work looks at the privatization of British Rail. It covers the competition for franchises and the regulation of those franchises. The study evaluates the extent to which the promotion of competition was an appropriate policy goal in the privatization of British rail. The book examines the rail system as a whole and looks at the prospects for the future.

Rail Operations Viewed From South Devon Garth Pedler,2017-07-04 South Devon, a thriving county with the sea, estuary and moorland for recreation, owes much of its success and vibrant economy to the railways that provide day return services, allowing people to travel freely to and from London and the North. Rail Operations Viewed From South Devon is a comprehensive exploration of the railways in and around South Devon, with chapters drawing on areas across the country such as Totnes, Carlisle and Bristol. Embracing a wide range of topics to help the reader understand how railway engineering reached its current state, this book aims to encourage discussion about the rail network as an entity. Chapters include the history of the sea and cliff issues associated with Dawlish, as well as how the Victorians built a congestion-free rail system around Bristol, with another chapter detailing the Cross Country timetables of 1925. This extensive insight into the railway also draws on the author's personal experience of undertaking a rail tour to Carlisle and back to Totnes in 1999, following the re-privatisation of the rail network, in comparison to a previous excursion in 1961. Illustrated throughout with dozens of detailed maps and diagrams, as well as useful statistics, Rail Operations Viewed From South Devon will appeal to readers who are curious about railway history and the recent management of the rail networks.

Reforming the Railway Sector: Sweden, the UK, Japan and Germany Adam Fularz, Wydawnictwo Gazety Poselskiej

Keeping the UK moving Great Britain: Parliament: House of Commons: Transport Committee,2011-05-12 This report examines how snow chaos in December 2010 closed Heathrow, disabled parts of the rail network and disrupted many roads. More can and should be done to ensure UK transport networks continue to operate in severe winter weather, the Commons Transport Committee finds. The welfare of air and rail passenger must be taken more seriously and better real time information must be provided to road users. In its report the Transport Committee calls for additional investment and coordination by government to: ensure the final version of the Department for Transport's Climate change Adaptation Plan refers to the future risk of severe winter weather; improve resilience of the third rail network south of the Thames, with a long term aim to install a more resilient method of electrification; oversee airport planning for major incidents including snow chaos, particularly at Heathrow and review airport regulations to ensure they take account of this; permit airport operators to reclaim the cost of looking after stranded passengers when airlines fail to discharge their responsibility to do this; provide better online advice for individuals and communities about tackling problems arising from severe winter weather; launch a high profile campaign to increase the proportion of motorists taking precautions for driving in winter weather; develop clearer snow and ice risk travel warnings for freight vehicles similar to those for strong winds; investigate the case to provide the Met Office with more money to improve its long range forecasting capability sufficient to improve the way transport operators can warn passengers.
