🔖 **Linguistic Semantics** William Frawley,2013-11-05 This volume is a comprehensive, up-to-date, and readable introduction to linguistic meaning. While partial to conceptual and typological approaches, the book also presents results from formal approaches. Throughout, the focus is on grammatical meaning -- the way languages delineate universal semantic space and encode it in grammatical form. Subjects covered by the author include: the domain of linguistic semantics and the basic tools, assumptions, and issues of semantic analysis; semantic properties of entities, events, and thematic roles; language and space; tense, aspect, and the internal structure and temporal ordering of events; modality, negation, and the epistemology of the speaker; and modification and attribution. In contrast to most current treatments of semantics, this book is accessible to the beginning student of semantics and linguistics and also useful to the advanced practitioner. A textbook and reference work in a single volume, it can be used in a number of disciplines: psychology, computer science, and anthropology as well as linguistics.

🔖 **Rank and Religion in Tikopia (Routledge Revivals)** Raymond Firth,2013-09-05 Originally published in 1970, this book represents a unique study of beliefs and ritual practices in a pagan religion, and of the processes by which a transformation to Christianity took place. Christianity came to the major islands of Polynesia nearly two centuries ago, and within a couple of generations, the traditional pagan religion had disappeared. Only a few remote islands such as Tikopia preserved their ancient cults. Over eighty years ago, the author first observed and took part in these pagan rites, and on later visits he studied the change from paganism to Christian faith. Unique in its rich documentation, this book presents a systematic account of the traditional beliefs in gods and spirits and of the way in which these were fused with the social and political structure. The causes and dramatic results of the conversion to Christianity are then described, ending with an examination of the religious situation at the time of the book’s original publication. The book is both a contribution to anthropology and a case study in religious history. It completes the major series of studies of Tikopia society for which the author is famous. It gives the first full account of a Polynesian religious system in a state of change.

🔖 **We Must Hear All the Stories** Chief Nnamdi A. Ekenna,2014-07-16 From an innocuous encounter in an airplane, to discourses of the enrichment of the only philosophy his own father handed down to him, through issues of concern for dereliction of education, to building a wholesome and homogeneous community. He highlights issues through his own journey through life and the numerous recordation of those he had made and shared in a span of close to two decades, blending fun and earnest graveness without being preachy or sanctimonious. Drawing from the Desiderata and his favorite prayer, Good Morning God, he uses an engaging discourse form to deliver the message that our stories, individually and collectively, written or unwritten, is the culminant of the world’s story. In this book, he shows that inspiration is not farfetched and that from effecting liveability in our immediate surrounding we can shape our story to effect points of contact and communication that will eventually give the world story, the great story,a chance to develop.

🔖 **Diving in the Landscape** Arnold Berleant,1997 Many more of our decisions to conserve nature have been motivated by environmental aesthetics than by environmental ethics, more by beauty than by duty. This book by Arnold Berleant is therefore especially welcome and important. It will help to advance an inquiry that has been badly neglected but is sorely needed. -- J. Baird Callicott, author of Earth’s Insights. In the past thirty years, Arnold Berleant has been calling attention to the ethics and aesthetics of the environment. He is indeed America’s latter-day Henry David Thoreau. -- E. F. Kaelin, author of An Aesthetics for Art Educators.

🔖 **Spirit and Method** Edwin Rodriguez-Gungor,2023-12-14 Offers a generative and hospitable theological methodology rooted in the distinctives of Pentecostal spirituality, enlivened by a spirited imagination and opened toward critical, constructive, and conciliatory dialogue with the wider Christian tradition. This inter- and cross-disciplinary work is careful yet generous, drawing together of knowledge and wisdom from different domains-historical, philosophical, and theological-in ways recognizably Pentecostal and effectively missional. The book begins with a description of the essence of Pentecostal spirituality that holds true across the various Pentecostalsisms. Drawing largely on an innovative engagement with the insights of Rudolph Otto and an exploration of the dialectic between religious experience and theological development, this book contends for an identifiable but mysterious “something” that makes Pentecostalism truly Pentecostal-that is, something more than one might sum up in any set of peculiar practices, beliefs, or behaviors. The book also provides an overview of the intellectual history of English-speaking Pentecostalism, specifying and assessing the movement’s major philosophical underpinnings and socio-cultural motivations. Finally, funded by an explicitly Pentecostal metaphysics, the book sets forth a significant and boldly original pneumatological theological methodology, shaped
