Ramadan Ramsey Louis Edwards, 2021-08-10 The Guggenheim Fellowship and Whiting Award-winning author Louis Edwards makes his long-awaited comeback with this epic tale of a New Orleans boy whose very creation is so filled with tension that it bedevils his destiny before he is even born. Spanning from the Deep South to the Middle East, Ramadan Ramsey bridges multiple countries and cultures, entwining two families who struggle to love and survive in the face of war, natural disasters, and their equally tumultuous, private mistakes and yearnings. Ramadan Ramsey begins in 1999 with the moving (and funny) teenage love story of Alicia Ramsey, a native New Orleans African American young woman, and Mustafa Totah, a Syrian immigrant who works in her neighborhood at his uncle's convenience store. Through a series of familial betrayals, Mustafa returns to Syria unaware that Alicia is carrying his child. When the baby is born, Alicia names their son Ramadan and raises him with the help of her mother, Mama Joon. But tragedy strikes when the epochal hurricane of 2005 barrels into New Orleans, shattering both the Ramsey and Totah families. Years later, when Ramadan turns twelve, he sets off to find Mustafa. It is an odyssey filled with breathtaking and brilliant adventures that takes Ramadan from the familiar world of NOLA to Istanbul, and finally Aleppo, Syria, where he hopes to unite with the father he has never known. Intimate yet epic, heartbreaking yet triumphant, Ramadan Ramsey explores the urgency of 21st century childhood and the richness and complexity of the modern family as a shared global experience. It is also a reminder of Louis Edwards' immense talent and fearless storytelling and is a welcome return of this literary light.

In the Footsteps of the Prophet Tariq Ramadan, 2007-02-05 Named by Time magazine as one of the 100 most important innovators of the century, Tariq Ramadan is a leading Muslim scholar, with a large following especially among young European and American Muslims. Now, in his first book written for a wide audience, he offers a marvelous biography of the Prophet Muhammad, one that highlights the spiritual and ethical teachings of one of the most influential figures in human history. In the Footsteps of the Prophet is a fresh and perceptive look at Muhammad, capturing a life that was often eventful, gripping, and highly charged. Ramadan provides both an intimate portrait of a man who was shy, kind, but determined, as well as a dramatic chronicle of a leader who launched a great religion and inspired a vast empire. More important, Ramadan presents the main events of the Prophet's life in a way that highlights his spiritual and ethical teachings. The book underscores the significance of the Prophet's example for some of today's most controversial issues, such as the treatment of the poor, the role of women, Islamic criminal punishments, war, racism, and

relations with other religions. Selecting those facts and stories from which we can draw a profound and vivid spiritual picture, the author asks how can the Prophet's life remain -- or become again -- an example, a model, and an inspiration? And how can Muslims move from formalism -- a fixation on ritual -- toward a committed spiritual and social presence? In this thoughtful and engaging biography, Ramadan offers Muslims a new understanding of Muhammad's life and he introduces non-Muslims not just to the story of the Prophet, but to the spiritual and ethical riches of Islam.

Introduction to Ramadan Gilad James, PhD, Ramadan is the month-long Islamic festival of fasting and prayer. It is observed by Muslims all over the world, during the ninth month of the Islamic calendar, known as the month of Ramadan. The observance of Ramadan began in the year 610 CE, when the Prophet Muhammad received the first revelations of the Quran. It is mandatory for all healthy adult Muslims who are not travelling or menstruating to fast during this period, from sunrise to sunset. Fasting means

abstaining from food, drink, and other physical needs during the fasting hours, which typically lasts for around 14 hours a day. The goal of fasting during Ramadan is not just to abstain from food and drink but also to promote self-discipline, restraint, and devotion to Allah. The month of Ramadan is a time for strengthening one's faith in Allah, performing acts of charity, and seeking forgiveness for wrongdoings. Muslims engage in additional prayers during Ramadan, particularly the nightly prayer known as Taraweeh, which is recited after the Isha prayer. The month of Ramadan ends with the Eid-ul-Fitr festival, which is a celebration of the end of fasting, marked by prayers and feasting with family and friends. Ramadan is a significant event for the Islamic community and a time for spiritual reflection, self-improvement, and giving to others.

Ramadan & Diabetes Care Abdul Hamid Zargar,Sanjay Kalra,2013-10-31 Fasting during the holy month of Ramadan is an important spiritual practice for many Muslims. This involves going without food, liquids and even medication between the hours of dawn until sunset, putting people with diabetes at significant risk of hypoglycaemia (low blood glucose), hyperglycaemia (high blood glucose), or dehydration. This book is a guide to the management of patients with diabetes during Ramadan. Beginning with an introduction to the physiology and endocrinology of fasting, the following chapters examine both pharmacological and non-pharmacological treatment options. The final sections are dedicated to management of the condition in different population groups (children, adolescents, the elderly); and management of complications, including hypoglycaemic and hyperglycaemic emergencies, and co-morbid conditions such as hypertension, high cholesterol and cardiovascular disease. Key points Guide to the management of diabetes during Ramadan Discusses both pharmacological and non-pharmacological treatment options Examines management of diabetes for different population groups Includes comprehensive section on complications and their management

The Astronomical Calculations and Ramadan Zulfiqar Ali Shah,2009-01-01 This book shatters the myth that naked-eye sighting of the new moon and completing thirty days in the case of weather-related or other obscurities are the only two valid methods of determining the month of Ramadan. The author explains that certainty, not actual sighting, is the real objective of the Shariah and that the Qur'an does not mandate physical sighting. A careful analysis shows that those hadiths that seemingly require sighting actually require certainty. The assertion that all Muslim scholars prohibit the use of astronomical calculations, both in affirming or negating the month of Ramadan, is not correct. As calculation is now more accurate than naked-eye sighting, due to certain astronomical and scientific advancements, the use of calculation is the closest to the real objective of the Shari'ah and to the spirit of the hadiths.

What I Believe Tariq Ramadan,2009-10-06 Tariq Ramadan is very much a public figure, named one of Time magazine's most important innovators of the twenty-first century. He is among the leading Islamic thinkers in the West, with a large following around the world. But he has also been a lightning rod for controversy. Indeed, in 2004, Ramadan was prevented from entering the U.S. by the Bush administration and despite two appeals, supported by organizations like the American Academy of Religion and the ACLU, he was barred from the country until spring of 2010, when Secretary of State Hillary Clinton finally lifted the ban. In *What I Believe*, Ramadan attempts to set the record straight, laying out the basic ideas he stands for in clear and accessible prose. He describes the book as a work of clarification, directed at ordinary citizens, politicians, journalists, and others who are curious (or skeptical) about his positions. Aware that that he is dealing with emotional issues, Ramadan tries to get past the barriers of prejudice and misunderstanding to speak directly, from the heart, to his Muslim and non-Muslim readers alike. In particular, he calls on Western Muslims to escape the mental, social, cultural, and religious ghettos they have created for themselves and become full partners in the democratic societies in which they live. At the same time, he calls for the rest of us to recognize our Muslim neighbors as citizens with rights and responsibilities the same as ours. His vision is of a future in which a shared and confident pluralism becomes a reality at last.
