Masculinities in Play Nicholas Taylor,Gerald Voorhees,2018-10-06 This volume addresses the persistent and frequently toxic associations between masculinity and games. It explores many of the critical issues in contemporary studies of masculinity—including issues of fatherhood, homoeroticism, eSports, fan cultures, and militarism—and their intersections with digital games, the contexts of their play, and the social futures associated with sustained involvement in gaming cultures. Unlike much of the research and public discourse that put the onus of “fixing” games and gaming cultures on those at its margins—women, LGBTQ, and people of color—this volume turns attention to men and masculinities, offering vital and productive avenues for both practical and theoretical intervention.

Social Exclusion, Power, and Video Game Play David G. Embrick,J. Talmadge Wright,András Lukács,2012 While many books and articles are emerging on the new area of game studies and the application of

computer games to learning, therapeutic, military, and entertainment environments, few have attempted to contextualize the importance of virtual play within a broader social, cultural, and political environment that raises the question of the significance of work, play, power, and inequalities in the modern world. Studies tend to concentrate on the content of virtual games, but few have questioned how power is produced or reproduced by publishers, gamers, or even social media; how social exclusion (based on race, class, or gender) in the virtual environment is reproduced from the real world; and how actors are able to use new media to transcend their fears, anxieties, prejudices, and assumptions. The articles presented by the contributors in this volume represent cutting-edge research in the area of critical game play with the hope of drawing attention to the need for more studies that are both sociological and critical.

Not Without Us: Perspectives on Disability and Inclusion in Singapore Kuansong Victor Zhuang,Meng Ee Wong,Dan Goodley,2023-01-01 Disability is all around us—among people we meet, the media, sports, our own family and friends. Undeniably, all of us have or will one day come to experience or encounter disability. But how can we reckon with the realities of those who live with disability, or its reality in our own lives? In a city-state slowly moving towards inclusion, how do those meant to be 'included' feel about such efforts? Not Without Us: perspectives on disability and inclusion in Singapore is a groundbreaking collection of essays that takes a creative and critical disability studies approach to centre disability, and rethink the ways in which we research, analyse, think and know about disability in our lives. Across multiple domains and perspectives, the writings in this volume consider what it means to live with disability in a purportedly inclusive and accessible Singapore. “This is a pathbreaking book. Not Without Us weaves together a rich fabric of voices exploring the politics and poetics of disability in Singapore. Moving between lived reality, representation and struggles for social transformation, the collection excavates hidden or forgotten pasts, documents struggles and community formation in the present, and hints at possible futures. The essay collection challenges contemporary discourses of and scholarship on disability in Singapore by centring disabled subjectivities. In the process, it opens up new spaces of empathy, praxis and critique.” —Philip Holden, Independent Scholar and Counsellor It warms my heart to see another book on disability through the Asian lens. Not just any book or author, but a plethora of contributors who are leaders in the Singaporean disability scene. The tapestry of all the essays inspires the imagination to how we can truly create a place that all of us can call home. Inclusion isn’t just keeping the token seat available, or inviting someone disabled to the party, but truly paving the way forward for all of us to celebrate each other as individuals in all our different shapes, sizes and colours. Thank you Not Without Us for so eloquently celebrating ‘Nothing about us, without us’! —Cassandra Chiu, Psychotherapist; Social Advocate and Author of A Place For Us Not Without Us is a richly edited and profoundly written collection of essays about disability in Singapore. It is part of a new and fresh movement to provide local knowledges and global perspectives to a field that has been for too long grounded in the West, particularly the US and the UK. The book will be extremely valuable not only to readers in Singapore but also to those throughout the world who seek a broader perspective on significant issues in disability studies, arts, policy and activism. —Lennard J. Davis, Distinguished Professor, College of Liberal Arts and Sciences, University of Illinois in Chicago
