Over 50 and Motivated Brian E. Howard, 2017-04-01 It happened. It may have been a surprise, or it could have been anticipated, but at this point, what does it matter? You lost your job. Or, the frustrations at your current job have hit the boiling point. You just can't take it anymore! In either case, change is inevitable. But, you're over the age of 50 and intellectually or intuitively you know your age could be a factor in your job search. . .and, you are right. There are age-related biases that exist in the job market that will work against you. According to government statistics, job seekers over 50 encounter more difficulty in getting new jobs and suffer notably longer unemployment than their younger counterparts. But these statistics do not have to apply to you! First, immediately stop with the worry and negative thinking. You're in a better position than you think. There are employers out there that not only will hire you, they are looking for you! The key is to find them, sell them on you, and get them to hire you. It's not as hard as you may think. In the Over 50 and Motivated book, Brian Howard will teach you a systematic approach for conducting a real-world job search based on years of frontline recruiting experience helping thousands of tenured job seekers just like you. He will teach you how to effectively conduct a job search in today's job market and techniques to successfully combat age biases. He will show you how to get job offers and your next fulfilling career position!

Why the Electoral College Is Bad for America George C. Edwards III, 2023-11-30 Employing

rigorous analysis and systematic data, this volume shows how the electoral college violates democratic principles and does not provide the benefits its advocates claim. With a new chapter addressing the 2020 election, this remains the definitive book on the unique American election system-and why that system should change.

Faith and Reason Brian Besong, Jonathan Fuqua, 2019-05-01 Too smart to believe in God? The twelve philosophers in this book are too smart not to, and their finely honed reasoning skills and advanced educations are on display as they explain their reasons for believing in Christianity and entering the Roman Catholic Church. Among the twelve converts are well-known professors and writers including Peter Kreeft, Edward Feser, J. Budziszewski, Candace Vogler, and Robert Koons. Each story is unique; yet each one details the various perceptible ways God drew these lovers of wisdom to himself and to the Church. In every case, reason played a primary role. It had to, because being a Catholic philosopher is no easy task when the majority of one's colleagues thinks that religious faith is irrational. Although the reasonableness of the Catholic faith captured the attention of these philosophers and cleared a space into which the seed of supernatural faith could be planted, in each of these essays the attentive reader will find a fully human story. The contributions are not merely collections of arguments; they are stories of grace.

Leveraging Cultural Diversity in Emerging Markets Marcus Goncalves, Finn

Majlergaard, 2015-12-02 Leveraging cultural diversity is an important element for competing in the global market. Understanding the overall macroeconomic landscape of emerging and frontier markets enables corporations and international business professionals to fully realize the potential for strategic globalization. Most transnational and multinational corporations have made substantial progress in their globalization efforts by establishing operations in several countries and offshoring certain processes to countries with capabilities and growth potential. However, while these recent globalization efforts have their roots in cost arbitrage, successful companies must understand that globalization can be a means for shoring up competitive advantage to diversify intellectual capabilities and growth and improve quality enhancement opportunities. This book looks at how one can move forward from the current situation. Most people still see cultural differences as a barrier to success. The authors demonstrate how one can, instead, leverage from the cultural diversity and create better, more competitive companies, better leaders, and hopefully a safer and more sustainable world.

2 Corinthians (Baker Exegetical Commentary on the New Testament) George H.

Guthrie, 2015-04-14 In this addition to the award-winning BECNT series, a respected New Testament scholar offers a substantive evangelical commentary on 2 Corinthians. George Guthrie leads readers through the intricacies of literary structure, word meanings, cultural backdrop, and theological proclamation, offering insights applicable to modern ministry contexts. As with all BECNT volumes, this commentary features the author's detailed interaction with the Greek text; extensive research; thoughtful, chapter-by-chapter exegesis; and an acclaimed, user-friendly design. It admirably achieves the dual aims of the series--academic sophistication with pastoral sensitivity and accessibility--making it a useful tool for pastors, church leaders, students, and teachers.

The Emperor's New Clothes Richard Ben-Veniste, 2009-05-26 Richard Ben-Veniste hates being lied to. He especially hates it when the American people are lied to. Widely respected as a trial lawyer, Ben-Veniste delivers a fascinating insider's tale in his memoir of a career spent fighting hypocrisy and seeking accountability among the highest ranks of government. A legal wunderkind, Ben-Veniste was hired at age thirty by Special Prosecutor Archibald Cox to investigate the Watergate cover-up. As chief of the Watergate Task Force at the time of the infamous Saturday Night Massacre, the author played an important role in prosecuting the case and revealed the extent of Richard Nixon's involvement with his top lieutenants in a conspiracy to obstruct justice and commit perjury. Prior to Watergate, Ben-Veniste had investigated and prosecuted corruption in the office of Speaker of the House John W. McCormack. In 1980 the author served as a defense lawyer in the controversial Abscam case, delving into a flawed sting operation that pushed the boundaries of legality and tested due process of law. In the Senate Whitewater hearings, Ben-Veniste helped expose the partisan agenda behind the effort to take down President Clinton. The author gained further national prominence as a member of the 9/11 Commission, in which his artful questioning of Condoleezza Rice revealed how ill-prepared the Bush Administration had been in the weeks leading up to 9/11. A lifelong devotee to the principles of an open democracy, the author argues that the

pursuit of truth is not one that should depend on party affiliations—that we should all seek to be partisans for the truth. Ben-Veniste recounts a remarkable career spent at the center of the most poignant public investigations of the last half century, fighting the abuse of power by those who wielded it most.

Why Can't I Get My Kids to Behave? Joey Link; Carla Link, 2012-11-30 Do you want to know how you can get your kids to do their chores? Do you want to stop lecturing, reminding and nagging your kids? Are you wondering if it is worth it to discipline your kids when they won't stay in a chair for a time-out? Joey and Carla Link reach beyond typical parenting advice to give you honest understanding, encouragement and practical steps that work to get obedient children. They share: Why parents can't get their kids to behave What obedience is What obedience is not How to get your kids to obey Help for single parents "Have you ever wanted an instruction manual for parenting? Look no further; this is the book you've been waiting for. With refreshing honesty and practical instruction, Joey and Carla Link have put together a great resource for parents. If you have kids, you need this book." - Jill Savage, founder and CEO of Hearts at Home and author of Real Moms ... Real Jesus "The biblical and practical teaching Joey and Carla Link share is something every parent should read. It has given us clear expectations—what we as parents can require of our kids and what our kids know is expected of them. People are happy to be around our kids instead of being happy when we leave! We are confident this book will be a good beginning for parents, no matter the ages of their children." - US Representative Bill and Natalie Huizenga, Michigan

Foucault and Educational Leadership Richard Niesche, 2011-03-15 School principals are increasingly working in an environment of work intensification, high stakes testing, accountability pressures and increased managerialism. Rather than searching for the latest leadership fad or best practice model, this book suggests that in order to better understand these pressures, the work of educational leadership requires more sophisticated theorisation of these practices. In so doing, the book draws upon the work of Michel Foucault to provoke new thought into how the principalship is lived and 'disciplined' in ways that produce both contradictions and tensions for school principals. Amidst claims of a shortage of applicants for principal positions in a number of Western countries, what is required are more sophisticated and nuanced tools with which to understand the pressures and constraints that face principals in their work on a daily basis. This book provides a powerful example of theory working through practice to move beyond traditional approaches to school leadership. Key features of the book: provides a well theorised analysis of leadership practices acknowledges the messy reality of life for school principals provides key insights to the 'real' work that principals undertake every day examines the production of principals' subjectivities in education, foregrounding issues of gender and race includes the principals' voices through rich interview data. The book will be of significant interest to principals and those working and researching in educational leadership, including researchers in the field and academics who teach into educational leadership and administration courses. The book will also be of great interest to those working with the ideas of Foucault in education.
