The Mysterious Collapse of World Trade Center 7 David Ray Griffin,2012-12-30 At 5:20 in the afternoon on 9/11, Building 7 of the World Trade Center collapsed, even though it had not been struck by a plane and had fires on only a few floors. The reason for its collapse was considered a mystery. In August 2008, NIST (the National Institute of Standards and Technology) issued its report on WTC 7, declaring that the reason for the collapse of World Trade Center 7 is no longer a mystery and that “science is really behind what we have said.” Showing that neither of these claims is true, David Ray Griffin demonstrates that NIST is guilty of the most serious types of scientific fraud: fabricating, falsifying, and ignoring evidence. He also shows that NIST’s report left intact the central mystery: How could a building damaged by fire—not explosives—have come down in free fall?

Warhol-isms Andy Warhol,2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—“In the future, everyone will be world-famous for 15 minutes.” Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well.I went to [a psychiatrist] once, and he never called me back.They always say that time changes things, but you actually have to change them yourself.I’ve never met a person I couldn’t call a beauty.New things are always better than old things.I’m still a commercial artist. I was always a commercial artist.
Applied Nonsingular Astrodynamics Jean Albert Kéchichian,2018-08-16 This essential book is the first comprehensive exposition in the area of optimal low-thrust orbit transfer using non-singular variables.
The Effective Presentation Asha Kaul,2005-11-23 Presents a guide to effective business presentations, with information on such topics as choosing content, duration, sequencing, understanding the audience, using visual aids, and delivery style.
